BOARD OF EDUCATION

SPECIAL MEETING

OFFICIAL REPORT

CHICAGO, JULY 2nd, 1912

In the absence of the President, the Vice-President, Mr. Bennett, took the Chair; and the meeting being called to order there were

PRESENT: Messrs. Cameron, Greifenhagen, Dr. Walsh, Koester, Sears, Vincent, Lipsky, Harding; Mrs. MacMahon; Messrs. Huttmann, Dibelka, Pfaelzer, Sethness, Reinberg and Bennett. 15.

ABSENT: Messrs. Urion, Dr. Guerin, Dean Sumner, Mr. Smietanka and Dr. McPatrick. 5.

Notice of Call for Meeting.

The Chair stated: "It is a sad occasion which calls us together. As you all know our friend and colleague, Mr. Swift, passed away at an early hour this morning, and in order that we might make proper arrangements to attend the funeral, the meeting has been called."

Judge Sears stated: "It has been my privilege to have known Mr. Swift for something more than twenty years, and in that time I have always known him as one whose fine intellectual capacity made plain to him the right way and his fearless courage always lead him to follow it. He was a party man, but his loyalty to party was coupled with a broader and higher devotion to public welfare. In his death the Board of Education, the school

children of Chicago and the City of Chicago have all sustained a grievous loss. I move that a Committee of Three be appointed to draft suitable resolutions."

Seconded by Mr. Cameron and so ordered.

Mr. Cameron moved that the Business Manager be instructed to make all arrangements for the members and the heads of the departments to attend the funeral of Mr. Swift in a body, and to select and send a floral piece to the home of Mr. Swift.

Seconded by Mr. Greifenhagen and so ordered.

Mr. Koester moved that it be ordered that all flags be placed at half mast on the school buildings for ten days in memory of Mr. Swift.

Seconded by Mr. Sears and so ordered.

The Chair appointed Messrs. Sears, Cameron and Pfaelzer as such special committee.

The Board adjourned.

LEWIS E. LARSON,

Secretary.

BOARD OF EDUCATION

REGULAR MEETING

OFFICIAL REPORT

CHICAGO, JULY 10th, 1912

In the absence of the President, the Vice President, Mr. Bennett took the Chair and the meeting being called to order there were then

Present: Mr. Cameron, Drs. Guerin, Walsh, Messrs. Smietanka, Koester, Sears, Lipsky, Harding, Mrs. MacMahon, Messrs. Huttman, Dibelka, Pfaelzer, Sethness, Reinberg and Mr. Bennett, 15.

Absent: Messrs. Urion, Greifenhagen, Dean Sumner, Messrs. Vincent and Dr. McFatrigh. 5.

APPROVAL OF RECORD OF PROCEEDINGS.

On motion of Mr. Koester the reading of the record of the regular meeting held June 26, 1912 was dispensed with and the record thereof, as printed, was approved.

BOYS PAROLED AND DISCHARGED FROM PARENTAL SCHOOL.

The Secretary presented the following communication:

(18423—A)

July 10, 1912.

To the Board of Education of the City of Chicago.

Elmer Terry.
Isadore Weinberg.

I respectfully recommend the discharge of the above named boys.

Yours truly,

FRANK BENNETT,
Vice President.

On motion of Mr. Koester the recommendation was concurred in.

LIST OF NON-RESIDENT PUPILS.

The Secretary presented the following list of non-resident pupils exempted from paying tuition:

(18423—B)

Chicago, June 10, 1912.

To the Board of Education of the City of Chicago.

LADIES AND GENTLEMEN:

I present herewith a list of non-resident pupils who have been exempted from tuition under the rules of the Board of Education.

Yours truly,

L. E. LARSON.
Secretary.

RESOLUTIONS ON THE DEATH OF MR. SWIFT.

Judge Sears, Chairman of the Special Committee, appointed to draft resolutions on the death of Mr. George B. Swift, presented the following resolutions.

(18424—C)

Chicago, July 10, 1912.

The Board of Education of the City of Chicago with deep sorrow records the loss by death of Honorable George B. Swift, an honored member.

Mr. Swift entered the membership of the Board in January, 1911, and brought at once to the good of the public service

the many talents with which he was largely endowed. He was placed upon the Committee on Buildings and Grounds, and later became its Chairman, a position which he held at the time of his death.

He was a man of wide experience in public affairs, of broad, healthful views, of charming character, and possessed in a very high degree of those sterling qualities so needed in civic life. Because of those qualities he had been given by his fellow citizens of Chicago the highest honor in their power to bestow—the office of Mayor of his beloved city.

It was the good fortune of this Board to have his services, and it was as well the good fortune of this city that he so freely gave them. And he gave his services untiringly, faithfully, honestly. His work was conscientious and effective, effective because a big hearted motive was back of every effort. And so his activity made for the wholesome and prosperous growth of our public school interests—the sole aim of his labors while with us.

As we lament the loss of our beloved and respected fellow member, we desire to record our full appreciation of his worth and work, and, on behalf of the school children of our city, to express gratitude for his patriotic service.

RESOLVED, that the above be entered upon the records of the Board of Education of the City of Chicago, and that engrossed copies be sent to the family.

(Signed)

NATHANIEL C. SEARS.
D. R. CAMERON.
DAVID M. PFAELZER.
Committee.

Judge Sears moved that the resolutions be adopted by a rising vote.

Seconded by Mr. Huttman and so ordered.

All members present arose and the Chair declared the motion carried.

STANDING COMMITTEES.

The Chair stated that, in case no objection was made by any member present, it was agreed that the reports of the several Standing Committees be sent to the desk of the Secretary in the order of the committees, as provided for in the regular order of business; that they be read by the Secretary, and in case no objection is made during the reading thereof, that at the conclusion of the reading of the reports of each committee a vote be taken on the acceptance of the reports submitted, and the adoption of the recommendations contained therein as a whole; if during the reading of such reports any objection is made to any report or any part of any report presented, such report or reports objected to shall be passed and the consideration thereof taken up separately.

SCHOOL MANAGEMENT.

Mr. Cameron, member of the Committee on School Management, presented reports of the Committee, as follows:

(18424)

Award Certificates.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools recommends that Charles Lagerquist, who passed the academic examination for a limited certificate as teacher of music in the high schools, and who has since passed the physical examination required under the rules be awarded a certificate."

(18425)

Correct Error in Annual Election of Teachers.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools reports that in the Board Proceedings of June 12, 1912, Report No. 18194, Marcella Riley's name appears among the names of the special teachers of singing in the elementary schools, whereas she is a special teacher of singing in the high schools. The Superintendent recommends that the Proceedings be corrected accordingly, and that Marcella Riley be elected as special teacher of singing in the high schools."

(18426)

Elect High School Teachers and Fix Salaries.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools recommends that the following named high school teachers, who have completed the required probationary service, be elected to the positions named, at the salaries named:

The Committee further recommends that the following communication from the Scribner Company be embodied as a part of this report on the adoption of the Howe Readers:

"Chicago, Ill., July 9th, 1912.

"John Harding, Esq.,
"Member Board of Education,
"Chicago, Illinois.

"Dear Mr. Harding:

"Referring to our previous letter to you in which we guaranteed that the Howe Readers for use in Chicago would be manufactured in Chicago by Union Labor and under union labor conditions, we beg to say that we intended thereby to guarantee the quality of workmanship as well as material used.

"We now wish to add to that statement a more specific guarantee which we are ready to make a part of the contract if awarded to us. We will guarantee that the paper and press work will be equal to or superior to that of the samples submitted, and we will guarantee, in particular, that the binding will be as serviceable and as durable as that of any of the series recommended by the Superintendent or published in this country.

"It is our custom to replace without charge any copies of our text books which show defective material or workmanship, and will make this a part of our contract with the City of Chicago, if the Howe Readers are adopted.

Very truly yours,

"CHARLES SCRIBNERS' SONS,

"By Edward Lord,

"Director and General Mgr."

The Committee further recommends that the contract be drawn by the Attorney of the Board to include the making of the books in Chicago by Union Labor, the binding and paper to be serviceable and durable, a sample of the book, including all the specifications, to be passed upon by a Sub-Committee consisting of Messrs. Cameron and Harding.

No objections having been made to any of the recommendations contained in the several reports submitted, on motion of Mr. Cameron the reports were received and the recommendations contained therein were adopted, such adoption being declared to have been the action of the Board on each individual recommendation.

Yeas.—Mr. Cameron, Drs. Guerin, Walsh, Messrs. Smietanka, Koester, Sears, Lipsky, Harding, Mrs. MacMahon, Messrs. Huttman, Dibelka, Pfaltzer, Sethness, Reinberg and Bennett. 15.

Nays.—O.

ELECTION OF TEACHERS.

On motion of Mr. Cameron the Secretary was instructed to cast one ballot for each member present for the election of the various persons named in the reports.

The Secretary cast one ballot for each member present for the election of the persons named and so reported to the Board whereupon the Chair declared the persons named to have been duly elected to their respective positions.

BUILDINGS AND GROUNDS.

Mr. Koester, member of the Committee on Buildings and Grounds presented reports of the Committee, as follows:

(18436)

Amend Report No. 17742.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Superintendent of Schools stating that in Report No. 17742, adopted by the Board of Education at its meeting held April 3, 1912, recommending the construction of an addition to the Ryerson School, Lawndale Avenue and Huron Street, the number of rooms was not given and further stating that the report should have called for the construction of an addition of twelve rooms, containing a kindergarten room, a kitchen, a shop, an assembly hall and a gymnasium, and therefore recommending that Report No. 17742 be amended accordingly.

The Committee recommends concurrence by the Board in the above suggestions of the Superintendent.

(18437)

Manual Training Benches—Construction of.

The Committee on Buildings and Ground reports that it is in receipt of a communication from the Superintendent of Schools recommending that authority be given for the construction of 24 manual training benches for distribution to classes where necessary, the estimated cost, \$600.00, to be charged to the permanent fund.

The Committee recommends concurrence by the Board in the above suggestions of the Superintendent.

(18438)

Window Shades—Purchase of—Copernicus School.

The Committee on Buildings and Grounds reports that it is in receipt of a

communication from the Superintendent of Schools recommending that new adjustable shades be purchased for the west windows of the Copernicus School, Troop and W. 60th Street, at an estimated cost of \$90.00.

The Committee recommends concurrence by the Board in the above suggestions of the Superintendent.

(18439)

Request Granted—Use of Holmes School—Suffrage Meeting.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Superintendent of Schools submitting a request from Mrs. F. G. Culver for the use of the assembly hall of the Holmes School, Morgan and 56th Streets, during the summer on each Tuesday evening from 8:00 to 9:30 o'clock for Suffrage meetings.

The Committee recommends that the request be granted, subject to the usual terms and restrictions.

(18440)

Cooking Room—Fit Up—Field School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Superintendent of Schools stating that a remittance of \$85.00 has been received from the Eugene Field School, N. Ashland Blvd. and Greenleaf Avenue, for the purchase of movable equipment for a kitchen for that school and recommending that changes be made in a room in the Field School to be used as a kitchen, at an estimated expense of \$765.00.

The Committee recommends concurrence by the Board in the above suggestions of the Superintendent.

CONDEMNATION PROCEEDINGS—INSTITUTE.

Parkside Branch School.

Jeffery Avenue and East 74th Street.

The Committee on Buildings and Grounds reports that it has received from the Secretary a communication which states that in accordance with the instructions given by the Board of Education June 26, 1912 (Report No. 18412), he has endeavored to agree with the owners of property herein described as to the compensation to be paid therefore as an addition to the site of the Parkside Branch School, Jeffery Avenue and East 74th Street, and that he has been unable to agree with said owners as to such compensation.

The property under consideration is described as follows:

The south one hundred (100) feet of the west twenty-five, plus, (25+) feet of Lot Eight, and the south one hundred (100) feet of Lots Nine (9) and Ten (10) in Block Six (6) in Stave & Klemm's Subdivision of the northeast quarter (N. E. $\frac{1}{4}$) of Section Twenty-five (25), Township Thirty-eight (38) North, Range Fourteen (14) East of the Third Principal Meridian; said property being vacant and having a west frontage of one hundred (100) feet on Jeffery Avenue, by a total depth of two hundred seventy-three and fifty-five hundredths (273.55) feet, plus, north of and adjoining the present site of the Parkside Branch School, situated in the City of Chicago, County of Cook, and State of Illinois.

The Committee recommends that the title to said described real estate be acquired in accordance with the provisions of the Eminent Domain Law for the use of the schools; and that the President and the Secretary of the Board be directed to request the concurrence of the City Council in instituting condemnation proceedings in the name of the City of Chicago against the owners of said described property to be acquired in trust for the use of the schools.

Award Contract—Gas Piping—Kiln—Von Humboldt School.

Your Committee on Buildings and Grounds Reports that it has received request from the Principal of the Von Humboldt School, Rockwell and Hirsch Sts., for the installation of gas pipe for use in connection of kiln, which has been approved by the Superintendent of Schools. Bids have been received covering the work involved and contract awarded to Adam Harvey in the sum of \$39.00, he being the lowest bidder. Inasmuch as was required for use during the summer school, the work was considered emergency and your Committee, therefore Asks concurrence in the action taken.

(18477)

Contract—Award of—Sewerage—Irrving School Building.

Your Committee on Buildings and Grounds Reports that in connection with the sewer work at the Irving School Building, Lexington St. and Hoynes Av., it was found that the old sewer had settled and pitched the wrong way, and in order to establish the proper grade certain changes were essential. These were not included in

the original contract for this building and T. M. O'Brien, the original contractor, submitted proposition in the sum of \$46.00, which was checked and found to be reasonable and he was notified to proceed with the work at once, and your Committee asks concurrence in the action taken.

(18478)

Contract—Award of—Fire Brick Repairs in Connection With Boilers—Tie Bids—Sundry Schools.

Your Committee on Buildings and Grounds Reports that it has prepared specifications for repairs to fire brick work in connection with boilers, sundry school buildings, as authorized by the Board at its meeting May 1, 1912, and received tie bids on the Beidler School Building, Walnut St. and Kedzie Ave., from John Courtney and James McMillan & Co. in the sum of \$65.00; on the Gresham School Building, Union Ave. and 45th St., from Peter Henry and Geo. Kerr in the sum of \$30.00; on the Holden School Building, 31st and Loomis Sts., from Geo. Kerr and Geo. Gulickson in the sum of \$75.00; on the Marsh School Building 98th St. and Exchange Ave., from McCrave & Hamill and James McMillan & Co. in the sum of \$44.00; on the Scammon School Building, Morgan and Monroe Sts., from Geo. Kerr and James McMillan & Co. in the sum of \$48.00; and on the Scanlan School Building, Perry Ave. and 117th St., from Atlas Construction Co., McCrave & Hamill and James McMillan & Co. in the sum of \$65.00, which, on the toss of a coin, contracts were awarded as follows:

JOHN COURTNEY—	
Beidler School	\$ 65.00
GEO. KERR—	
Gresham School	\$ 30.00
Holden School	75.00
	\$ 105.00
JAMES McMILLAN & CO

NEW SCHOOL SITE.

S. W. Cor. Bryn Mawr and Southport Avenues.

The Committee on Buildings and Grounds Recommends that, in accordance with the recommendation of the Sub-Committee on Sites, the action of the Board of Education of June 26, 1912, Report No. 18353, be rescinded as to the property therein described, to-wit:—

Sub-lots One (1) to Twelve (12), all inclusive, in Klein's Resubdivision of Lots One (1) and Two (2) in the Division of the North Ten Acres in the Northwest quarter (N. W. $\frac{1}{4}$) of the northwest quarter (N. W. $\frac{1}{4}$) of Section Eight (8), Township Forty (40) North, Range Fourteen (14) East of the Third Principal Meridian, together with all improvements thereon; also Lots Three (3), Four (4), and the east half (E. $\frac{1}{2}$) of Lot Five (5), in said Division of the North Ten Acres in Section 8-40-14 aforesaid, together with all improvements thereon; said property having a frontage of two hundred fourteen and twenty-eight hundredths (214.28) feet more or less, on Bryn Mawr Avenue, by a depth of two hundred eighty-five (285) feet, more or less, and a frontage of two hundred eighty-five (285) feet, more or less, on Southport Avenue, by a depth of one hundred fifty-five and four-tenths (155.4) feet, situated in the City of Chicago, County of Cook, and State of Illinois.

This action reaffirms that taken on the above mentioned date, June 26, 1912 (Report No. 18353) rescinding the recommendation of April 3, 1912, Report No. 17748.

(18504)

Condemnation Proceedings—Counter Offers.

NEW SCHOOL SITE.

Bryn Mawr Avenue between Southport Ave. and North Clark Street.

The Committee on Buildings and Grounds Reports that in accordance with the recommendations of the Sub-Committee on Sites the owners of property herein described have been requested to file proposals of sale of same to the Board of Education to be used for school and playground purposes.

The property under consideration is described as follows:—

REPORT ON THE SCHOOL CENSUS.

The Secretary presented the following communication from the President relative to School Census:

Chicago, July 24, 1912.

To the Board of Education of the City of Chicago.

LADIES AND GENTLEMEN:

I herewith submit report from Mr. William L. Bodine, superintendent of the school census. I recommend the same be received and printed in the Proceedings, and a reprint of twenty-five hundred copies be made for public distribution.

Respectfully submitted,
(Signed) J. B. McFATRIGH,
President.

Chicago, July 24, 1912.

Dr. James B. McFatrigh, President.

DEAR SIR:

I respectfully submit the report of the biennial census of 1912, and have prepared copies for each member. I hope you will concur in a suggestion that the report be printed in the Proceedings, and a reprint made of 2,500 copies in pamphlet form for public distribution.

I have pushed the work so that the report can be presented to the Board today.

Thanking you for your interest and co-operation in the work, I remain,

Very respectfully,
(Signed) WM. L. BODINE,

Superintendent of Compulsory Education.
Report of Wm. L. Bodine, Supt. of Compulsory Education, submitting the Biennial School Census of the Minor Population of the City of Chicago, taken as of May 2, 1912:

Chicago, July 24th, 1912.

Dr. James B. McFatrigh, President; members of the Board of Education, and Ella Flagg Young, Superintendent of Schools:

I respectfully submit, herewith, my Report of the Biennial School Census of the minor population of Chicago, in conformity with the State Law. It represents conditions as existing May 2nd, 1912. Only those of both sexes under twenty-one years of age were enumerated.

In accordance with the instructions of your Honorable Board, this Census shows the age, sex and nativity of minors; nativity of parents; attendance and non-attendance; minors physically and mentally defective; illiterates over twelve and under twenty-one years of age, and other statistical data desired by the Superintendent of Schools and the Bureau of Compulsory Education.

This Census is the first one taken since the reapportionment of the Wards of Chicago. It cannot be compared by wards to previous enumerations, because the old ward boundaries, with few exceptions, have been revised, and several Ward numbers changed.

In compiling these figures, the tabulators have carefully checked the house-to-house canvass by enumerators; vital statistics secured from reliable official sources, and the reports of truant officers, teachers and principals in each district, to safeguard against possible skips or errors. A squad of expert Supervisors from headquarters recanvassed a few localities where the accuracy of the first returns

was in doubt. It has been my earnest endeavor at all times to maintain the standard of industry, efficiency and accuracy in the service, and to present a complete count with full justice to Chicago and the schools.

While there is no enumeration of the adult population, the School Census and statistical data on file in the Bureau of Compulsory Education, form a basis for a good estimate of Chicago's total population. In 1910, the School Census multiple was found to be the most reliable in this respect, and the estimate I submitted on total population at that time was practically verified by the official Federal Census later. The returns of the Federal count of 1910, which followed the School enumerators, showed the School Census figures of 1910 to be a presentation of fact.

Synopsis of the Report.

In substance, the School Census of 1912 shows the following:

1. The minor population of Chicago—inhabitants of both sexes under twenty-one years of age—is 882,516. Of this total 443,854 are males, and 438,662, females. This is a total increase of 68,401 minors in two years. The School Census of 1910 showed 814,115.

2. The total population of Chicago, within the City limits (including adults and minors), is estimated on the basis of these returns and other official data at 2,381,700. The last Federal Census, two years ago, credited Chicago with 2,185,283.

3. The American children rank highest in number where child and parent are native born, with a total of 278,461, of which 267,270 are white, and 11,191 colored. But the combined totals of children whose parents are of foreign birth, is 604,055. Of this number 50,791 children are foreign born, and the remainder American born.

4. The Germans lead among foreign nationalities in the number of minors. The Poles are second.

5. A material decrease in illiterates over twelve and under twenty-one years of age.

6. Attendance conditions at the public and private schools, of children between seven and fourteen years, (the compulsory attendance age), the best within the life of Chicago.

7. Increase in the number of juveniles employed, between fourteen and sixteen years of age, possibly due to the high cost of living, which forced many juveniles into fields of gainful occupation, either temporary or permanent. Many alternate between work and school. There is, however, an improved regular attendance of those between fourteen and sixteen who decided to remain in school.

8. There is no race suicide in Chicago. There are 187,975 babies under four years of age. The Sixteenth Ward, peopled largely with the Polish race, has first honors, with 8754 babies.

The following is a recapitulation of the population of Chicago under twenty-one years of age:

Age	Male	Female	Total
Under 4	97,076	90,899	187,975
Between 4 and 5.	31,275	30,765	62,040

Betw'n 14 and 16.	41,885	42,616	84,501
Over 16 and under 21	88,334	89,448	177,782
Totals	443,854	438,662	882,516

Number of Teachers.

There are 6740 teachers in the Public School System, 1588 teachers at the private (parochial) schools, and 1347 teachers in the private schools (other than parochial), private educational institutions, business colleges, etc.

Our Infant Inhabitants.

Of the 187,975 children under four years of age, in the City, 97,076 are males and 90,899 females. The sixteenth Ward of the West Side has 8754 babies, of which 4415 are boys and 4339 girls. The Twenty-ninth Ward of the South Side is second with 8062, while the Seventeenth Ward (West) is a close third, with 8052. The Twelfth and Eleventh (Bohemian) follow, with 7506 and 7150 respectively, with an excellent showing for the Southwestern Wards of the West Side. The Twenty-seventh has 6680. The Twenty-second leads the North Side with 6118. The Nineteenth has 6687, and the Twentieth 6422.

The smallest portion of babies is found in the First Ward, (2296); the Second (2555); and the Twenty-first (2791).

The Sixth has 2875, and the Seventh 3783. The Twenty-sixth has 5530, as compared to 4730 in the Twenty-fifth. The Fifth has 5950; the Fourth 5680, and the Third 3107.

Between four and five years of age there are 62,040.

Immigration Statistics.

During the two years from May 1st, 1910 to May 1st, 1912, the Immigrants' Protective League and Government Bulletins show 97,000 arrivals of immigrants, (adults as well as children) in Chicago destined for Illinois points. Sixty per cent of these immigrants locate in Chicago and vicinity. The Polish and Italians lead among immigrant arrivals; followed by the Germans, Jews and Bohemians.

With the co-operation of The Immigrants Protective League and Government, the Compulsory Education Dept. is supplied with the names and addresses of immigrant children of school age, destined to Chicago. These children are located after their arrival, and their attendance at school secured.

Between Seven and Fourteen.

The Census shows the effect of the enforcement of the Compulsory Education Law. There are 258,450 children between seven and fourteen years of age (Compulsory Attendance Age) in the City—129,425 boys, and 129,025 girls. Only 2419 were absent for 30 days preceding the taking of the Census. The majority thereof were temporary absences, excused for cause. Some children were exempt, physically or mentally under the law. Two years ago, 3768 children of this age were temporarily absent for a comparative period—showing 1349 less children of this group irregular in attendance.

Nativity.

In the Nativity of minors (those under 21 years of age, but not including 21), the Census is based on the information given at the homes, and shows the foreign born and those of American birth whose fathers were foreign born.

The Americans lead with 267,270. The Germans in Chicago maintain first place in posterity among nationalities from other countries. Of the 140,145 German minors in Chicago, 4,913 were foreign born, while 135,232 were American born, and their fathers foreign born. The Polish Juveniles rank next with a total of 97,977, and the Russians, (including Jewish) follow with 68,912. The Irish make a good showing with 50,522; the Bohemians have 46,411; the Swedes 46,086; the Italians, 43,280; the Austrians 22,847, and Norwegians 15,284.

The smallest number of children in Chicago was found among the Japanese with 30; the Mexicans, 41, and the Chinese, 110.

The Canadians have only 10,680, a slight decrease as compared to 1910, due to the slump in Canadian immigration to Chicago. Canada seems to be keeping its families at home, as compared to former years. There are only 12,266 English minors in the city; 8,569 Lithuanians; 8,518 Hollanders; 6,102 Danes; 5,144 Scotch; and 1,228 French children. There is a slight increase among the Greeks, 1,448, due in a measure to the arrival of many Greek boys under 21, who are employed in Bootblack Parlors and fruit stores.

The colored children show a normal increase, with a total of 11,191 as compared to 8,627 two years ago.

The Nativity Tables in detail and by wards appear elsewhere in this report. The total minor population of each nativity, in Chicago, is as follows:

Where They Reside.

The reapportionment of Ward lines shows the Twenty-fifth to be the banner American Ward in the number of children American born of American born parentage. The Twenty-sixth, Twenty-third, Seventh, Thirty-second and Thirty-third rank next in this respect.

The German minors are plentiful in nearly all the Wards, the largest number is in the North Side Wards, notably the Twenty-fourth, Twenty-sixth and Twenty-fifth. Many of them are in the Twenty-seventh, Fifteenth and Twenty-eighth of the West Side, and the Fifth on the South Side.

The Polish Wards are the Sixteenth, where 23,393 Polish children live, the Twenty-seventh, Seventeenth, the Twenty-eighth, the Twenty-ninth, the Fourth and Fifth. Many Poles are moving to the Northwestern Wards.

The Italians prefer the Nineteenth, where 13,415 Italian children reside, the Twenty-second and the Seventeenth. Only a few (3,594) remain in the First.

The Irish lead in the Thirtieth, Thirty-first, Thirty-second and Thirty-fifth. Many live in the Nineteenth and Fifth. Two nationalities, Scotch and French, have no particular preference of Wards, but are scattered throughout the City in small groups.

In the Twentieth, Nineteenth, Tenth, Twelfth, Thirty-fourth and Third, we find a large number of Russian minors, which includes the Jews.

The Bohemians predominate in the Twelfth, Eleventh, Thirty-fourth and Tenth, and there are many in the Twenty-ninth.

Hollanders are mostly now in the new Ninth Ward, in the South Division of the City, formerly the Thirty-third Ward.

Austrian children are largely in the Twentieth, Seventeenth and Twenty-ninth.

The Swedish minors have increased materially in numbers within two years, and are to be found in the greatest numbers in the Twenty-fifth, Twenty-third, Twenty-sixth, Twenty-seventh, Thirty-first, Thirty-third, Eighth and Ninth. The Norwegians prefer the Twenty-eighth, Twenty-seventh, Fifteenth, Thirty-third and Thirty-fifth.

In the Twenty-ninth, most of the Lithuanian population is to be found. A large number were located in the Fourth and Fifth.

The Negroes have grown in numerical strength in the Thirtieth, Fourteenth, Second and the Third. A number have migrated from the South Side to Evanston.

Causes of Absence.

Truant officers promptly followed up all cases of children of attendance age, whose names and addresses were referred by Census Enumerators, in instances where they were reported as being temporarily absent from school for a period of thirty days. After a thorough house-to-house canvass of the entire city, enumerators reported only 1,652 out of 2,419 such cases of children between 7 and 14 years of age for reference to truant officers.

The subsequent report from the truant officers showed that 360 of the children thus reported were in school; 248 were returned to school by officers; 373 were out temporarily on account of illness; 72 were mentally deficient; 14 had visual or auditory defects; 26 were epileptic; 56 were physically incapacitated; only 15 were unenrolled; 17 were under quarantine; 30 were kept home to do housework; 149 were over or under compulsory attendance age; 51 were excluded by medical inspectors; 49 were working and the remainder were temporarily absent for excusable causes. No instances were found where a child of compulsory education age was a truant continuously for thirty days preceding the taking of the Census. A few children were found to be under suspension.

Epileptics.

The canvass for a complete count of epileptics was handicapped to some

extent by sensitive parents who desire to suppress the facts from enumerators. 291 epileptic children of school age were reported. Many of this number were found in the Thirty-third, Seventeenth, Twenty-second, Sixteenth and Twenty-ninth Wards. The Statistical Research Branch of the Bureau of Compulsory Education will follow up the subject, together with all defectives and a supplemental report in detail will be filed later.

Crippled Children.

The count showed 675 crippled children in the City. Of this number, the Ninth, Tenth, Eleventh, Eighth, Nineteenth, Twenty-second, Twenty-sixth, Twenty-seventh, Thirtieth, Fifteenth, Twenty-eighth and Thirty-fifth contributed the most.

The Blind.

There are 259 blind children in the City, the greatest number reported being in the Eighth, Third and Twenty-sixth Wards.

The Deaf and Dumb.

Five hundred and fifty-one minors are deaf, most of whom live in the Thirty-second Ward. There are 210 mutes, of whom many reside in the Nineteenth, Thirty-second, Sixteenth, Twenty-seventh and Twenty-eighth Wards.

Illiterate Minors.

There are only 157 children over twelve and under twenty-one years of age in Chicago who cannot read or write in any language. There are many who cannot read or write in English, but who are able to read or write in some other language. The term "Illiteracy" in this report applies only to those who cannot read or write at all. There are 244 fewer illiterate minors now than two years ago. In 1910, there were 401 such minors.

An enforced Compulsory Education Law, and the Child Labor Law, which prohibits the employment of illiterates, have materially reduced illiteracy among minors between twelve and twenty-one years of age. The principal causes of the illiteracy among the 157 named were mental deficiency, physical incapacity or ill-health. The greatest number of these illiterates were found in the Twenty-second ward.

Births and Deaths of Minors.

The birth registration of Chicago is lax, because physicians do not report all the births as provided by State Law, which is not enforced. The records of the County Clerk's office show that 17,619 births in Chicago were reported from May 2nd, 1910, to December 31st, 1910. In 1911, the number of births reported was 23,407. In 1912, to May 2nd, 1912, the number of births was 21,464, making a total of 68,490 births reported in two years, since May 2nd, 1910, when the last Census was taken.

During the same period there were 20,552 deaths among those under 20 years of age, according to the records of the Health Department.

Marriage Licenses.

Since the last School Census—and for the period from May 2nd, 1910 to May 2nd, 1912—there were 60,054 marriage licenses issued. Of this number, 21,000 were issued from May to December, inclusive in 1910, and 30,417 were issued in 1911. From January 1st to May 2nd, 1912, the number was 8,637. The majority were issued to the nationalities that now lead in minor population—the Germans, the Poles, the Italians and the Bohemians.

Method of Taking the Census.

The Census was taken on the Ward and Precinct Plan—a house-to-house canvass by the Block System. In each Ward a branch Census headquarters was established at a school-house, with a Supervisor and Associate Supervisor in charge of a staff of enumerators in each ward. The returns, after being examined by the Supervisors, were sent to Central Headquarters for checking and compilation. Division Inspectors and District Supervisors were in the field to expedite the work of the enumerators. The Superintendent and assistants were in constant touch with the work in every ward by telephone and personal visitation. The "Call Back" System was used in every instance where people were not at home. The General organization meeting was held at Fullerton Hall, where every Supervisor and enumerator was given instructions both verbally and in printed form. Linguist enumerators were employed wherever needed. Every nationality, every color and every race in Chicago was recognized in the organization. The foreign consuls, the non-English as well as the English Press, the Police Dept., the City Administration, truant officers, teachers, principals and parents co-operated to make the Census a thorough and accurate one. Employees who failed to maintain the standard of efficiency were promptly dismissed.

Working Children Between Fourteen and

Sixteen.

On May 2nd, 1912, there were 17,137 children between 14 and 16 reported as working, either in stores, offices, factories or miscellaneous pursuits. This includes 8,214 males and 8,923 females. Stores and offices employed 3,280 boys and 2,095 girls, a total of 5,375. The factories employed 2,310 boys and 2,680 girls—a total of 4,990. In miscellaneous pursuits, 2,624 boys and 4,148 girls—a total of 6,772. The figures do not mean permanent employment. Many of the positions for children of this age are temporary. Many alternate between work and school. In May, 1910, the total number of children between 14 and 16 employed in all occupations was 11,665. The total increase in juvenile employment for those of legal working age is, therefore, 5,472.

The Compulsory Education Law provides that children between 14 and 16 must either remain at school or be employed. There is always a great rush

for working certificates when the 14th year is attained. Many children return to school when they cannot secure employment; there is another element that does not desire to either work or go to school; while others divide their time between temporary employment and school. Statistical research to follow up these cases would require a supplemental census, and more truant officers. It is the most complex feature of the School Attendance Law to enforce, as many children are necessarily employed. The expansion of technical training in the public schools has been a factor in improving school attendance of those between 14 and 16.

There are 67,364 children between 14 and 16 attending school. Of this number, 50,065 are regular at the public schools; 16,016 regular at the private schools, and a total of 1,283 irregular in both systems. This does not include the children who have left school, secured working certificates and either gone to work permanently or temporarily. Of the 17,137 children credited as working elsewhere, it is a conservative estimate to classify at least between 4,000 and 5,000 who divide their time between temporary employment and temporary idleness. Returned to School, they can leave again when they secure work. Many girls are kept home to do housework, after they are fourteen. The large group between 14 and 16 who were irregular in school attendance in 1910 are now two years older, and beyond the Compulsory Attendance Age.

Of the total population of all nationalities, the largest number of minors live in the Twenty-seventh Ward, (35,927); Sixteenth Ward, (34,099); Twentieth, (33,031); Twenty-eighth Ward, (31,034).

The smallest number reside in the First Ward, (9,562).

The progressive policy of President J. B. McPatrick, Superintendent of Schools, Ella Flaggy Young, and Secretary L. E. Larson, with the concurrence of every member of the Board of Education, to have the Census taken on a basis of efficiency, accuracy and all supplemental statistical research necessary for the welfare of children, is to be commended. I desire to thank all of these officials and Mayor Harrison for their valuable co-operation. The public's general interest in the Census is also appreciated. The fidelity to official duty on the part of my assistants, supervisors, enumerators and headquarters staff is entitled to the grateful acknowledgement of the Superintendent.

I would respectfully recommend in view of the large number of inquiries that follow the taking of the Census, that 2,500 copies of this report be printed in pamphlet form for general distribution to the public.

In conclusion, I remain,

Respectfully yours,

WILLIAM L. BODINE,

Supt. of Compulsory Education.

On motion of Mr. Greifenhagen the recommendation of the President was concurred in.

STANDING COMMITTEES.

The Chair stated that, in case no objection was made by any member present, it was agreed that the reports of the several Standing Committees be sent to the desk of the Secretary in the order of the committees, as provided for in the regular order of business; that they be read by the Secretary, and in case no objection is made during the reading thereof, that at the conclusion of the reading of the reports of each committee a vote be taken on the acceptance of the reports submitted, and the adoption of the recommendations contained therein as a whole; if during the reading of such reports any objection is made to any report or any part of any report presented, such report or reports objected to shall be passed and the consideration thereof taken up separately.

The Chair stated, etc.

SCHOOL MANAGEMENT.

Dean Sumner, Chairman of the Committee on School Management, presented reports of the Committee, as follows:

(18513)

Award Certificate.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools recommends that William F. Wigger, who has passed the academic examination for a general certificate to teach in the high schools, and who has since passed the required physical examination, be awarded a certificate."

(18514)

Validate Certificate.

The Committee on School Management reports that Mrs. Rose Klicka's certificate has elapsed by four months owing to her child being under two years of age (which age the child will reach in September next) and Mrs. Klicka has made application for the renewal of her certificate, and your Committee recommends that Mrs. Klicka's certificate be declared valid.

(18515)

Validate Certificates.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools and recommends concurrence therein:

The Superintendent of Schools reports that at the time of graduation from the Normal School in June, 1911, the two Cook county graduates, who lived in Morgan Park—Nona G. Finney and Ida R. Emanuelson—were given city certificates because of the recent annexation of Morgan Park. Miss Finney served her cadetship in the Morgan Park school, partly under the supervision of

a Chicago District Superintendent. Miss Emanuelson taught elsewhere, but began her cadetship in the Barnard school, a Chicago school, in June of this year. Her cadet period is not yet finished. These two persons were granted certificates at the time of their graduation because of their residence in Morgan Park. The Superintendent recommends that the certificates given them at the time of graduation be validated.

(18516)

Election and Transfers of Principals and Head Assistants.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools and recommends concurrence therein:

The Superintendent of Schools reports the resignation of George D. Plant, principal of the Burroughs school, and of Ellen K. Baker, principal of the Froebel school.

The Superintendent further reports that Alice Sollitt, principal of the Kenwood school, has applied for a year's leave of absence, and does not ask to be returned to that particular school.

The Superintendent recommends that the resignations be accepted, and that Miss Sollitt's name be placed on the unassigned list.

The Superintendent further recommends that Elizabeth B. Letzkuss, head assistant of the Dewey school, be elected principal of the Burroughs school; Harry S. Valle, who is principal of the Froebel evening school, be transferred from the principalship of the Crerar day school to the principalship of the Froebel day school; Henry F. Kling, from the principalship of the Spencer school to the principalship of the Crerar school; Thomas J. Plant, head assistant of the Yates school, be elected principal of the Spencer school; Abigail Hunt be transferred from the principalship of the Poe school to the principalship of the Kenwood school; Grace Barbour, head assistant of the Poe school, be elected principal of the Poe school; Isahel Graham, who holds a principal's certificate, be elected head assistant of the Poe school.

(18517)

Pay Teacher's Salary During Absence on Account of Storm.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools and recommends concurrence therein:

The Superintendent of Schools reports that owing to the severe storm Friday, March 15, Amy E. Nichols, a teacher in the Norwood Park school, was unable to reach school because of poor transportation facilities.

The Superintendent recommends that Miss Nichols be allowed her full salary for that day.

(18518)

Adjust Salary of Instructor in Teachers' College Summer Term.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools recommends that the salary of Ernst F. Dettner, instructor in art in the Chicago Teachers' College for the summer term be fixed at fifteen hundred (\$1,500) dollars per annum.

(18519)

Adopt Courses of Study for Elementary and High Schools.

The Committee on School Management reports that it is in receipt of the following report from the Special Committee on Courses of Study, and recommends concurrence therein:

The Special Committee on Courses of Study appointed by Dr. McPatrick at the regular meeting of the Board held January 24, 1912, reports that it had a meeting on Thursday, July 11, 1912, and carefully considered the courses of study submitted by the Superintendent of Schools, and recommends unanimous approbation of the courses of study as submitted by the Superintendent of Schools.

(18520)

Adopt Course of Study for Classes for the Deaf.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that a course in language training has been prepared for the classes for deaf children in the public schools and is submitted in copy form with this report.

The Superintendent recommends that the course be adopted as a guide to the work in the Deaf Department.

CLASSES FOR THE DEAF.

Language Course.

First Year.

Deaf children enter school with practically no knowledge of language, and consequently with no possible desire to acquire it.

The teacher of deaf children must, therefore, create this desire by presenting language and speech lessons in a manner that will arouse interest and develop pleasure in oral and written expression, through pictures, drawing, play, etc., etc. Besides these regularly planned lessons, advantage should be taken by the teacher of every opportunity to clothe in language the interesting happenings of the day, both in and out of school. From the first, she should encourage the children to tell of their experiences at home and on the street, at first in black-board drawing, and later in words as fast as they acquire them, and a definite period on the program should be devoted to this spontaneous work.

Since imitation is an important factor in learning language, every one trying to help this class of children should get an example worthy of imitation. The teacher should at all times speak correctly, enunciate clearly but without mouthing and lead the children to do the same.

Correct sentence forms should be used from the first, in salutations, in conversation with the children, and in class instruction. Difficult words or expressions should be made plain by repeating the important word or group of words.

Pictorial vocabulary charts should be built up for each subject or sequence of thought presented, a new picture or paper cutting, or other illustration being added to the chart to stand for each word as soon as it is learned.

First Year.

Recognition tests. The understanding of the spoken word should constantly be tested by requiring the children to indicate objects or pictures, make drawings, or perform actions.

Vocabulary—

The environment of the children is made the basis for the selection of the vocabulary. The words chosen for the first year are from the daily experiences of the children, in their homes, on the streets, and in the school; viz., the family, the house and furnishings, food, clothing, toys or playthings, school work, and the weather. These subjects present the opportunity for the children to learn through use the language of their activities, and are broad enough to include all the words listed, and as many more that are related to the subject, as lie within the ability of the children to understand, recognize and speak. The list given for the year is the minimum required of a child entering school at the age of six or over. A longer time should be allowed for a younger child, one of less than normal ability or one irregular in attendance.

Recognized Words—

With deaf children, as with hearing children, the understanding of language always precedes the use of it, consequently deaf children will, at first, recognize many more words from the lips than they will be able to speak. For this reason the list of recognized words is much longer than the list of spoken words.

Spoken Words—

As some of the elementary sounds are very difficult for deaf children who are just beginning to use their vocal organs in producing definite sounds and combinations, the words selected to be spoken are those containing the elementary sounds most easily acquired.

Reading and Writing—

During the last ten weeks of the year, the pupils should be encouraged to recognize the written form of the words in their spoken vocabulary.

The Speech Habit—

As the formation of the lip-reading and the speech habit is of greater importance in the beginning, it would be better to defer writing until later, so as not to give the pupil an easier form of communication until the speech habit is firmly fixed.

Articulation—

The deaf child, as he gradually learns to understand language through its use, will naturally desire to respond in speech, and if encouraged and helped to do so, will make the attempt. Deprived of hearing, he has not, however, the natural means of correcting the inevitable defects of first attempts at speech, and must therefore depend upon securing a knowledge of the mechanical characteristics of speech through other means.

See, Feel and Imitate Speech—

Sense games (see Sense Training in Outline) will enable him to see speech move-

ments upon the face of the speaker and to *imitate* them and to *feel* the voice of others (recognize the vibration of voice by placing hand on throat or chest of the speaker) and to use his own voice. Daily practice on fundamental speech gymnastics (see Outline) will give him control of his speech organs and will help him to co-ordinate speech positions and movements more and more accurately.

Elementary Sounds Taught—

All the elementary sounds with the exception of ng, ch, j and y, should be taught during the year, beginning with the sounds that are most easily seen, as f, p, wh, th, etc., and leaving those with obscure positions until later.

Speech Gymnastics Practiced Daily—

Careful and persistent training in special articulation exercises involving all speech positions and movements (using the mirror as occasion demands) are necessary in order to secure intelligible speech from deaf children.

Expression Work—

The thought which is the basis of the school work is never truly appropriated by the child until he has made some effort to express it.

Language Expression—

With the deaf child, emphasis is placed chiefly upon language expression because that is the phase of expression which he can never accomplish unaided, and upon which depends the possibility of his acquiring an education.

Material Expression—

There are, however, many other forms of expression that contribute toward clarifying the thought, and developing thought power. These are drawing, painting, modelling, paper cutting, pasting, and constructing forms illustrative of the thought presented in the lesson, using paper, clay, cardboard, wood, and other materials that can be handled by the children, and which should be furnished in variety and amount sufficient to fully meet this need.

Drawing—

During the first year drawing should be largely at the blackboard, and the children should be led to use broad, free movements in spontaneous expression through this medium. Crayon and charcoal, brush and ink, with large sheets of paper and such other construction materials as will best express the thought, should be used for the expression and construction work of the first year, the teacher, where necessary, helping the children and preparing the material in advance.

Number Language—

Number words to ten and words expressing quantity, relation and comparison (see Vocabulary Lists) are used in all situations having a number relation. The sense of quantity and relation will be developed in connection with the daily lessons and activities, their plays, games, and use of material, in counting, comparing and in judging.

Exercises for Daily Practice. (Fundamental to Speech.)

- I. *Relaxing Exercises* for the entire body, beginning with the arms and limbs, and leading to relaxation of the tongue (in forward flat position).

II. *Gymnastics of the Body:*

- (a) To overcome incorrect or awkward positions and movements.
- (b) To develop flexibility and ease in all co-ordinations of the body.

III. *Gymnastics of the Face, to secure*

- (a) Flexibility of the jaw, lips and tongue.
- (h) Accurate observation and imitation of speech positions and movements (at first without vocalizing, and with continual care to *avoid* exaggerated speech movements, or *mouthings*).

IV. *Breathing Exercises, including*

- (a) Costal abdominal and diaphragmatic breathing.
- (h) Inhalation and exhalation, rapid and slow, etc., securing correct use of breath in speech (with shoulders held quiet and chest high).

- V. *Voice Exercises*, working for quality, correct pitch, rhythm and strength, including clearness, front placing, control of tone (staccato) and sustained, gradually leading to rhythm of speech in *accent, emphasis, inflection and phrasing*.

Sense Training—

enables every child to better understand and meet the conditions which surround him in life.

The deaf child, bereft of the only sense through which language is normally acquired (without conscious effort) must substitute for hearing the senses of sight and feeling, and through them be helped gradually to understand and use language.

This can best be accomplished by giving experiences with objects, through plays and games, which lead the child to recognize and discriminate form, taste, color, texture, sound (where sound perception exists), to gauge weight and size, to judge number, vibration, etc., and to imitate positions and movements, using the senses of *sight, taste, smell and feeling*.

This training will quicken the intellectual response to all stimuli and will be a continual help in acquiring speech and language, by developing the intelligence and cultivating the habits of concentration and accuracy of judgment which are necessary as a foundation for good speech and speech reading.

Rhythm and Games—

Good physical control should be developed through daily work in simple rhythmic exercises, imitative play, and games which give opportunity for the children's spontaneous expression.

Language of Games and Occupations—

The language expressive of the particular occupation or situation, should accompany and be a prominent feature of every activity of the school room, whether lesson, directed game, free play or other movements.

Add child's own name, teacher's name if easy, the names of classmates and some names from the child's own family, bringing number of recognized words to about 250.

Spoken vocabulary (starred) about 100 words.

*Second Year.**Language—*

The first few weeks should be spent in reviewing carefully the spoken vocabulary of the first year, with emphasis placed, during the entire year, upon securing the free use of the recognized vocabulary as single words and in simple sentences.

Vocabulary—

Therefore the vocabulary for the second year does not include a large number of entirely new words. The new words chosen are from the following topics: (1) The children's summer experiences; (2) The changes that come about in the autumn; (3) The Christmas thought; (4) Winter activities; (5) Transportation as seen on the streets; (6) The spring thought; (7) The weather, and (8) The news items which the children volunteer from their own experiences.

Speech—

The spoken words selected from the year's recognized list are principally those of one and two syllables, containing easy combinations of elementary sounds. All of the elementary sounds should be taught during the second year and especial drill given on difficult combinations found in the vocabulary.

Reading—

The children should now be required to read from the blackboard and from printed or typewritten slips all words in their spoken vocabulary and simple sentences containing these words. The sentence work should be arranged in brief paragraphs and in this form preserved for reading lessons.

Writing—

As soon as the children are able to read readily words and sentences written on

the blackboard for them by the teacher, they should begin to write the same, but at the blackboard only, until January.

Punctuation and Paragraphing—

When the written form is first introduced, capitals, punctuation marks and paragraphing should be correctly used by the teacher and the same should be required from the children when they begin to write.

Penmanship—

The freedom of movement acquired in blackboard drawing should be continued and applied in writing, at first on the blackboard under the supervision of the teacher, and later, on large sheets of paper with charcoal or soft pencil. For sequence of penmanship exercises, see Outline for First Grade, in the regular Elementary Course.

Expression Work—

Expression work as in the first year continued (see Outline). Any and all forms of pictorial expression appropriate for the interpretation of language presented should be used by the teacher, and the children's understanding of words should be continually tested by requiring pictorial illustrations from them.

Construction Work—

as a means of expression should be continued, now requiring the children to do their own paper tearing, cutting, placing, pasting, etc., and allowing them much freedom in the choice of material and method of construction.

Pictorial Vocabulary Charts—

of first year should be used for frequent review, new charts being made for such subjects as are developed in greater detail, and for all subjects presented this year for the first time.

LANGUAGE CHARTS.

Nouns—

The plural forms of nouns should be used as required, and with them the adjectives in the vocabulary expressing number and quantity. All irregularities in plural forms should be noted and emphasized on charts. The possessive form of nouns should be used only orally during this year.

Articles, Etc.—

The correct form of the article and appropriate adjectives should be used by the teacher from the first, with all nouns in both spoken and written language, the peculiarities in the use of a, an, the, my, some, many, one, etc., being emphasized on charts.

Pronouns—

The simple pronouns should be used constantly and arranged on a chart as soon as the written form is given. The interrogative form should be used by the teacher.

Prepositions—

Should be used constantly as required and arranged on a chart as soon as the written form is given.

Verbs—

In weather work, the forms, is raining, is snowing, is melting, is shining, is blowing, etc., should be used. The simple forms of the verb in present, past, and future should be used in conversation, in giving commands, and in lesson presentation. To have, and to want should be used in sentences by the children in handling the material of the construction work.

Number Language—

Words that express number, quantity and relation, as they appear in the spoken and written vocabulary of the year, should be used in simple sentences to express these elements whenever they occur in the activities of the schoolroom as noted in the First Year Outline, and as clearly stated under Mathematics (Kindergarten and First Year) of the regular Elementary Course.

Daily Exercises Fundamental to Speech—

Continued as in first year. (See Outline.)

Sense Training—

As outlined in first year, continued, increasing the difficulty of exercises and demanding greater accuracy and quickness of response. Plays using the Kindergarten gifts of construction should be used freely and also simple representative play and dramatization.

Rhythmic Training—

As in first year, continued, working for more definite results in all bodily movements, such as clapping, stepping, etc., singly and in unison.

Idiomatc Expressions, Commands, and Questions—

Should be used by the teacher as listed and indicated in First Year Outline. Through continued use, whenever legitimate occasions arise, most of these will be recognized during the second year and many of those most frequently used, will be spoken by the children.

*Employ Teachers for Summer Work in
Teachers' College.*

Your Committee on School Management respectfully reports that it is in receipt of the following recommendation from the Superintendent of Schools:

The Superintendent of Schools recommends that authority be given for the employment of Dr. Bertha Van Hooten as a lecturer and instructor for teachers of crippled children in the Chicago Teachers' College Extension Department during the five weeks of the current summer session, at a salary of \$350 for the term; and that Willard N. Clute, Agnes M. Dendliker, Mary E. Fuller and Helen N. Sahin be employed as instructors in the same department for the current summer season, at the usual rate of advance of two hundred dollars per annum over their regular salaries as teachers in the high schools.

Your Committee further respectfully reports that it has carefully considered this matter and recommends concurrence in the above recommendation of the Superintendent.

No objections having been made to any of the recommendations contained in the several reports submitted, on motion of Dean Sumner the reports were received and the recommendations contained therein were adopted, such adoption being declared to have been the action of the Board on each individual recommendation.

Yeas—Messrs. Cameron, Greifenhagen, Dr. Guerin, Dean Sumner, Messrs. Smietanka, Sears, Lipsky, Harding, Mrs. MacMahon, Messrs. Huttman, Dihelka, Pfaelzer, Sethness, Reinberg, Sonstebj, Erikson, Rothmann, Kelly and Dr. McPatrick. 19.

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for repairs to two New York Safety Engines at the Manierre School building, Hudson avenue and Blackhawk street, and recommends award of contract to A. Wiedenbauer in the sum of \$30, he being the lowest bidder.

(18563)

Contract—Award of—Repairs to Boiler Feed Pumps—Sundry Schools.

Your Committee on Buildings and Grounds reports that it has received the following communication from the Secretary, and recommends concurrence therein:

In scheduling bids received for the repairs to boiler feed pumps, sundry school buildings, proposition from Cook & Chick was mislaid in accumulation of papers in the Bureau of School Engineering. In scheduling bid, it has been found that they have been low bidder in the following instances, and I recommend award of contract to them, as follows:

Andersen School—

W. Division and Lincoln Sts. \$22.00

Motley School—

N. Ada St. and W. Chicago Ave. . 22.00

Brenan School—

Lime St. and Archer Ave. 16.00

(18564)

Contract—Award of—Common Grate Bars—Spry School.

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for the installation of forty common grate bars $\frac{5}{8}$ -in. air space, 5 ft. long, at the Spry School building, Marshall boulevard and W. Twenty-fourth street, and recommends award of contract to Ferguson & Lange Foundry Company in the sum of \$50, it being the lowest bidder.

(18565)

Contract—Award of—Repairs to Fire Brick Work Under Boilers, Phil Sheridan School Building.

Your Committee on Buildings and Grounds reports that it has prepared proposition from James McMillan & Co. in the sum of \$150 for repairs to brick work in connection with boilers at the Phil Sheridan School building, Escanaba avenue and Ninetieth street. This proposition covers the furnishing of materials and the placing of arches in first-class condition as authorized by the Board at its meeting held on May 1.

Your Committee further reports that arches under boilers at this school were originally installed by James McMillan & Co. and proposition submitted by it has been checked and found to be reasonable, and your Committee recommends its acceptance.

(18566)

Contract—Award of—New Boilers—Sundry Schools.

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for the installation of new boilers to replace those condemned by the City Boiler Inspector, and awarded contract to the lowest bidder in each instance, as follows:

	\$12,472.00

WILLIAM A. POPE.

Englewood High, Stewart Ave. and 62d St. (Heine) (\$7,970.00)

Your Committee further Reports that bids were received for the installation of new boilers at the Ryerson School Building, Lawndale Ave. and Huron St., but subsequently it was decided to construct an addition to this building which will require larger heating facilities and inasmuch as the Boiler Inspector is agreeable to permit the present boiler in use until definite plans have been arranged for the new addition, your Committee recommends that bids in this instance be rejected and deposits returned, and further Reports that time is an essential factor in the prosecution of these contracts and for that reason notified the contractors to proceed immediately with the work, and asks concurrence in this action.

(18567)

Contract—Award of—Heat Regulation and Ventilation Work—Remodeling of Marshall School.

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for various branches of work in connection with the remodeling of the Marshall High School, Adams St. and Spaulding Ave., as authorized by the Board. Report No. 18267, and recommends award of contract to the lowest bidder in each instance as follows:

Heat Regulation Work \$90.00

(18568)

Office and Business Employes—Rescind Authority for Office Attendant and Grant Authority for Tracer—Bureau of Engineering.

Your Committee on Buildings and Grounds Reports that at a meeting of the Board held June 12, 1912, Report No. 18279 was adopted granting authority for the employment of one Office Attendant in the Bureau of School Engineering. It has been found that a Tracer could be utilized to more advantage than an Office attendant, and your Committee, therefore, Recommends that the authority for the employment of Office Attendant be rescinded and that authority be granted for the employment of one Tracer on the basis of \$80.00 a month to date from June 28, 1912.

(18569)

Electric Service—Authority for the Purchase of Incandescent Lamps.

Your Committee on Buildings and Grounds Recommends that authority be granted for the purchase of Four Hundred 40 Watt Tungsten lamps, clear, and Three Hundred 60 Watt Tungsten lamps, F. T., in the approximate sum of \$289.00, same to be obtained from the New York Incandescent Lamp Company in accordance with existing contract.

(18570)

Bids—Forfeit Deposit—Fire Brick Work—Lane Technical High School.

Your Committee on Buildings and Grounds Reports that it has received communication from Peter Henry, to whom was awarded contract for fire brick work in connection with boilers at the Lane Technical High School, Sedgwick and Division Sts., in the sum of \$575.00, advising that an error was made in his bid and asking to be released from the prosecution thereof. Your Committee Recommends that this request be granted with the understanding that deposit in the sum of \$28.75 be declared forfeited and that authority be granted to re-advertise and obtain new bids for this work.

(18571)

Bids—Forfeit Deposit—Plumbing—Bancroft School.

Your Committee on Buildings and Grounds Reports that it has received communication from John L. Corcoran advising that error was made in proposition submitted by him in the sum of \$30.00 for plumbing work at the Bancroft School Building, Maplewood and North Avenues, and asking to be released from the prosecution of the work. Your Committee Recommends that this request be granted with the understanding that deposit in the sum of \$7.40 be declared forfeited, and further Reports that the next lowest bid is a tie between W. W. Watson and B. E. Lynam in the sum of \$98.00, which on the toss of a coin was awarded to B. E. Lynam, and Recommends concurrence in this action.

(18572)

FINANCE.

Judge Sears, member of the Committee on Finance, presented reports of the Committee, as follows:

(18586)

Established Deposit Fund, Chicago Teachers' College.

The Committee on Finance respectfully reports that William B. Owens, Principal of the Chicago Teachers' College, has requested that a sum of money be supplied to him by the Board of Education to be used as a petty cash account, to be drawn against in case of emergency matters arising from time to time.

The Committee has given this matter consideration, and recommends that a warrant be drawn in favor of Mr. Owens, in the sum of \$200.00, for the purpose stated.

(18587)

Payment of Bill for Snow Plowing, Chicago Teacher's College Grounds.

The Committee on Finance respectfully reports that it is in receipt of a bill from F. G. Dahlgren, 305 West 69th Street, in the sum of \$42.00, for the use of a horse and snow plow on the grounds of the Chicago Teachers College in the winters of 1909-10 and 1911-12.

This bill has been approved by William B. Owens, Principal, and the Committee would therefore recommend that same be ordered paid.

(18588)

Issue Duplicate Warrant.

The Committee on Finance respectfully reports that it is in receipt of request for a duplicate of Board of Education warrant No. 7148 issued to the Water Arch Furnace Co., October 14, 1911, in the sum of \$18.00, for grate repairs furnished at the McClellan School, the original having been lost by the payee.

The Committee is informed by the Auditor that the original warrant has not been returned to the Board to this time, and therefore recommends that a duplicate warrant, in the sum stated, be issued to the Water Arch Furnace Co. when they shall have filed with the Secretary the necessary indemnity bond.

(18589)

Issue Duplicate Warrant.

The Committee on Finance respectfully reports that it is in receipt of request for a duplicate of Board of Education warrant No. 3599, issued to Henning Bros., June 3, 1912, in the sum of \$75.00, for garbage cans delivered in May, 1912, the original having been stolen from Mr. Charles Henning when on his way home from the Board rooms.

The Committee has given this matter consideration, and recommends that a duplicate warrant, in the sum stated, be issued to Henning Bros. when they shall have filed with the Secretary the necessary indemnity bond.

(18590)

Issue Duplicate Warrant.

The Committee on Finance respectfully reports that it is in receipt of request for a duplicate of Board of Education warrant No. 3671, issued to Spencer R. Smith, Principal of the Wendell Phillips High School, June 3, 1912, in the sum of \$24.92, to reim-

burse him for cash expended for zoology supplies, the original having been lost by the payee.

The Committee has given the matter consideration, and recommends that a duplicate warrant, in the sum stated, be issued to Mr. Smith, when he shall have filed with the Secretary the necessary indemnity bond.

(18591)

Allow Credit on Salary Schedule to Principals Cobb and Wildeman.

Your Committee on Finance respectfully reports that it is in receipt of the following report from the Superintendent of Schools:

The Superintendent of Schools reports that Charles C. Cobb, Principal of the Kohn School, and Edward Wildeman, Principal of Greene School, were both entitled to four years' credit that was not awarded them in the adjustment of salaries dating from January 1, 1912.

The Superintendent recommends that their salaries be advanced four years; that of Charles C. Cobb dating from April, 1912, and that of Edward Wildeman dating from January, 1912.

Your Committee further reports that it has carefully considered this matter, and recommends concurrence in the recommendation of the Superintendent.

(18592)

Renew Insurance on Bond of Architect.

Your Committee on Finance respectfully reports that it is in receipt of the following communication from the Secretary of the Board, and recommends concurrence therein.

"I respectfully recommend that surety bond No. 9021, in the sum of \$10,000, issued by the Employers' Liability Assurance Corporation, covering Arthur F. Hussander, Acting Architect, which expires on August 7th, 1912, be renewed for one year."

(18593)

Pay Bill for Insurance on Automobiles.

Your Committee on Finance respectfully reports that it is in receipt of the following communication from the Secretary of the Board, and recommends concurrence therein:

"I respectfully recommend that the attached bills, covering insurance on automobiles owned by the Board of Education, be ordered paid as follows: Employers' Liability Assurance Corporation \$ 587.34

George A. Gilbert 72.74

(18594)

Transfer Funds From Contingent Fund to Cover Deficit in Summer High Schools.

Your Committee on Finance respectfully reports that it is in receipt of the following report from the Secretary of the Board:

"I beg to report that the pay rolls for the summer high schools aggregate \$7,334.50; that the tuition received from principals heretofore amounts to \$5,172.00, and that there remains to be turned over by one of the high schools the sum of \$450.00. This leaves a deficit of \$1,712.50."

Your Committee further reports that it has carefully considered this matter, and recommends that the sum of \$1,712.50 be transferred from the Contingent Fund to take care of the deficit in the account of the Summer High Schools.

(18595)

Pay Bill for Overtime.

Your Committee on Finance respectfully reports that it is in receipt of the following communication from the Secretary of the Board:

"I respectfully recommend that the sum of \$75.00, each, to cover payment for extra duties and overtime for the

last three months, be paid to each of the following named employees engaged in the school census work:

George D. Keith,
Katherine B. Hanrahan,
Laura M. Lynne."

Your Committee further respectfully reports that it has carefully considered the same, and recommends concurrence in the above recommendation of the Secretary.

(18596)

Pay Bill for Abstract of Title.

Your Committee on Finance respectfully reports that it is in receipt of the following communication from the Secretary of the Board, and recommends concurrence therein:

"I respectfully recommend that the attached bill from the Chicago Title and Trust Company, for abstract of title to the old Kosciuszko School, at Cleaver and Division Streets, be ordered paid."

(18597)

*Schedule of Salaries of Office and Business
Employees.*

Your Committee on Finance respectfully reports that they are in receipt of the following report from the Secretary of the Board with reference to salaries of business

and office employes for the year 1912, and recommend concurrence therein, all increases to date from January 1, 1912, unless otherwise stated in the report.

Chicago, July 24, 1912.

Chairman, Committee on Finance.

DEAR SIR:

In accordance with the instructions of the Committee I submit herewith recommendations with reference to the salaries of office and business employes for the fiscal year 1912.

On January 25, 1911, the Board adopted the report covering the regrading of said employes, as shown by the proceedings of 1910-11, pages 589 to 599, inclusive. By this action of the Board the various positions were placed in certain Civil Service grades. Said report was approved by the Civil Service Commission, and the employes occupying such positions have been receiving the salaries set forth in said report.

In submitting the accompanying recommendations I have carefully observed the grades of the various positions as established by the aforesaid action, but have

jumped the groups in some cases within the grades as fixed by the Civil Service Commission. In one case, that of the Superintendent of Supplies, the recommendation submitted does not conform to the Civil Service grade, in view of the fact that an error was apparently made by the Civil Service Commission in grouping said position. This official has been receiving \$2,400 per year, the same salary that is being paid to the Chief Clerks. In the regrading, the position of Chief Clerk was placed in Group 7, and the salary now recommended is a seventh grade salary.

In some instances the heads of departments have recommended salaries for clerical employes which are above the grades in which the positions are at present classified, and I am submitting same to your Committee without recommendation.

In the case of the employes in the Architect's Department and in the Chief Engineer's Department, the Civil Service Commission has not furnished any schedule of salaries for the various grades, and therefore the recommendations submitted herewith are made without knowing whether said new salaries are out of grade or not.

Transfer Pupils in Branch No. 2 of Marsh School to Branch No. 1, and Furnish

Omnibus for Transportation.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that Branch No. 2 of the Marsh School at 122nd Street and Sherman Avenue is

more than one mile distant from any means of transportation; that the school has during the year from fourteen to eighteen pupils ranging from the first to the eighth grade, inclusive; that it is impossible to place a woman teacher in charge because of the lack of transportation facilities and no man teacher of any ability is going to remain contentedly in a school of that size.

Branch No. 2 of the Marsh School is located at 107th Street and Calhoun Avenue and is a school containing the eight grades.

The Superintendent recommends that the children in Branch No. 2 be sent to Branch No. 1, an omnibus for transportation being furnished by the Board. The expense of the omnibus will be very much less than the salary of a teacher, and a janitor, and the cost of heating.

(18611)

Accept Gift of Mrs. Flower for Flower Technical High School.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that Mrs. Lucy L. Flower has given two hundred dollars to the Lucy L. Flower High School, to be used for the purchase of reference books for that school, and recommends that the gift be accepted and the Secretary be instructed to write a letter of appreciation to Mrs. Flower.

(18612)

Allow Pupils to Attend Morgan Park Schools.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that there are pupils living more convenient to the Morgan Park schools than to the public schools of Chicago, and Morgan Park will admit the pupils from Chicago at the same rate—forty dollars for elementary pupils and eighty dollars for high school pupils—that Chicago charges for pupils coming from outside the city to its schools. The Superintendent recommends that in case of better convenience for pupils they be allowed to attend the Morgan Park schools, the city of Chicago paying the tuition fee.

(18613)

Permit Junior Brotherhood Boys of Brotherhood of St. Andrew to be Absent from School.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that application has been made by the Junior Brotherhood Boys of the Brotherhood of St. Andrew for permission to have their absences excused Wednesday, Thursday, and Friday, September 4 to 6, if they present written requests from their parents asking that they be allowed to attend the annual convention of the Brotherhood. The application is based upon two conditions: First, that "during the first week of school the boys will get little real instruction." If this condition be true it is a severe reflection upon the administration of the public high schools of Chicago. The second condition is to the effect that pupils have been dismissed for other similar reasons.

This second condition is perfectly correct, and in recognition of it the Superintendent recommends that absences for the purpose of attending the meeting of the Junior Brotherhood Boys of the Brotherhood of St. Andrew be excused, provided written requests from parents be presented before the absences for attendance upon the convention occur.

(18614)

(18618A)

Emergency Authority to Employ Teachers Not Yet Reported as Passing the Physical Examination.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent and recommends concurrence therein:

The Superintendent of Schools reports that many of the teachers who passed the academic examination in June did not take the physical examination until after the meeting of the Committee on School Management on August 29, 1912. The Superintendent recommends that the Superintendent of Schools be authorized to employ teachers that are needed, who have passed the physical examination, and report the names for certificates at the next meeting of the Board.

(18618-B)

Grant Diploma of Graduation From High School.

The Committee on School Management reports that it has received the following communication from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools recommends that Edward R. Piszczatowski, who has complied with the requirements for graduation, be awarded a diploma of graduation from the Carl Schurz High School, under date of July 26, 1912, the closing day of the summer session, at which he completed the required work.

No objections having been made to any of the recommendations contained in the several reports submitted, on motion of Mr. Cameron the reports were received and the recommendations contained therein were adopted, such adoption being declared to have been the action of the Board on each individual recommendation.

YEAS: Messrs. Cameron, Griefenhagen, Dr. Guerin, Messrs. Smietanka, Sears, Lipsky, Harding, Mrs. MacMahon, Messrs. Huttman, Dibelka, Pfaelzer, Sethness, Sonstebly, Kelly, Erikson, Rothmann, and Dr. McFatrach. 17.

ELECTION OF TEACHERS

On motion of Mr. Cameron the Secretary was instructed to cast one ballot for each member present for the election of the various persons named in the reports.

The Secretary cast 17 votes for each person named in the reports and so reported to the Board whereupon the Chair declared the persons named to have been duly elected to their respective positions.

BUILDINGS AND GROUNDS

Mr. Sethness, Chairman of the Committee on Buildings and Grounds presented reports of the Committee, as follows:

(18619)

Appropriation — For Addition to the Pestalozzi Branch of the Parkside School, 74th Street and Jeffery Avenue.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that the Superintendent of Schools has recommended the erection of an addition to the Pestalozzi Branch of the Parkside School, located at 74th St. and Jeffery Ave., this addition to contain 6 class rooms, assembly hall, gymnasium, manual training room and cooking room, and recommending that an appropriation of \$100,000 be made for this addition, and that the President and Secretary of the Board be instructed to request concurrence of the City Council in this action.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18620)

Alterations—Install Two Metal Window Frames—New Hyde Park High School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that at the Hyde Park High School building, 62nd St. and Stony Island Ave., it is deemed advisable to put in two addi-

tional metal frames to give additional light to east stairways in second story, that Kitzelman & Dilley, contractors for sheet metal work at this building, have submitted estimate in the sum of \$75.00, which has been carefully checked and found reasonable, and recommending that same be accepted and the work ordered done.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18621)

Accept Propositions—For Changes in Height of Chimneys—Nicholas-Senn High School and New Hyde Park High School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that, in accordance with instructions, propositions have been received from the mason contractors on the Nicholas Senn High School, Southport Ave. and Francis St., and the Hyde Park High School, 62nd St. and Stony Island Ave., to reduce the height of chimneys to 90 feet from boiler room floor, that propositions have been received from A. & E. Anderson, mason contractors for the Hyde Park High School, to make a deduction of \$710.00, and from Paschen Bros., contractors for masonry at the Nicholas Senn High School, to deduct the sum of \$685.00, and recommending that the above propositions be accepted and the work ordered done in accordance therewith.

The Committee recommends concurrence by the Board in the above suggestion of the Secretary of the Board.

(18622)

Request Granted—For Placing of Telephone Poles—Poe School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that a request has been received from the Chicago Telephone Company to place and maintain poles on school property adjoining the Poe School building, Fulton Ave. and 106th St., and recommending that permission be granted to the Chicago Telephone Company for placing of poles under the supervision of J. J. Magrady, Superintendent of the Bureau of Repairs, the license for same to be approved by the Attorney of the Board.

The Committee recommends concurrence by the Board in the above suggestion of the Secretary of the Board.

(18623)

Request Granted—For Placing of Telephone Poles—Kershaw School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that a request has been received from the Chicago Telephone Company to place and maintain poles on school property adjoining the Kershaw School building, Union Ave. and 65th St., and recommending that permission be granted to the Chicago Telephone Company for the placing of poles

under the supervision of Mr. J. J. Magrady, Superintendent of the Bureau of Repairs, the license for same to be approved by the Attorney of the Board.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18624)

Voucher—Extra Work—Cement floors—Nettlehorst School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that at the Nettlehorst School, Evans-ton and Aldine Aves., patching of cement floors was found necessary, for which the Standard Concrete Construction Company, contractors for concrete work at the school, have submitted bill in the sum of \$4.50, which has been carefully checked and found reasonable, and recommending that this bill be accepted and ordered paid.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of Board.

(18625)

Voucher—Special—Mason Work—Hammond School Addition.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that Mr. Joseph L. Connelly, contractor for mason work of the addition to the Hammond School Building, 21st Place and California Ave., has made application for special payment on said work, which, if granted, will make the total payments on the contract exceed 85% of the amount of work done, that the contractor has filed the customary affidavit and the approval of the bondsman on the contract for the payment requested, and recommending that authority be granted to issue a special voucher in the sum of \$2,500.00 to Mr. Joseph L. Connelly on the mason work of the above mentioned school building, the balance then retained being amply sufficient to complete the work yet to be done.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18626)

Contract—Award of—Wire Guards—Sundry Schools.

Your Committee on Buildings and Grounds reports that specifications have been prepared and bids received for the installation of wire guards to afford protection to those whose presence is required in the engine room at sundry school buildings, and recommends award of contract to the lowest bidder in each instance as follows:

Columbia Wire & Iron Works—	
Sherman School, Morgan	
and 51st streets.....	\$20.00
Wentworth School, Sanga-	
mon and 70th streets...	29.00 \$49.00

(18719)

Contract—Fire Brick Work—McKinley High School.

Your Committee on Buildings and reports that it has received bids as per specifications in accordance with authority granted by the Board May 1, 1912, for

essential fire brick repairs under boilers at the McKinley High School, Adams street and Hoyne avenue, and recommends award of contract to John Malcolm & Co. in the sum of \$292.00, it being the lowest bidder.

(18720)

*Contract—Award of—Extension Sheets—
Spry School.*

Your Committee on Buildings and Grounds reports that new fire sheets are being installed to replace defective ones under both boilers at the Spry School Building, Marshall boulevard and West 24th street, in accordance with recommendation of the City Boiler Inspector, and while this work was being proceeded with, it was found that extension sheets were in need of repair, for which the Page Boiler Company submits proposition in the sum of \$22.00. Inasmuch as this proposition has been checked and found to be reasonable, your Committee recommends its acceptance, especially in view of the fact that the Page Boiler Company is installing new fire sheets at this school building.

(18721)

*Contract—Award of—Fire Brick Work—
Dante School.*

Your Committee on Buildings and Grounds reports that it has received propositions for repairs to fire brick work at the Dante School Building, Desplaines and Ewing streets. In this connection communication was received from the Water Arch Furnace Company, who originally installed the setting now in use, stating that the same is in first-class condition and will withstand another year's use, providing side walls be repaired. Your Committee recommends that bids be rejected and deposits returned, and further recommends that proposition in the sum of \$110.00 received from the Water Arch Furnace Company for furnishing materials and making needed repairs to said walls be accepted.

(18722)

*Contract—Award of—Baffle Tile for Water
Tube Boilers—Lane Technical
High School.*

Your Committee on Buildings and Grounds reports that it has received the following communication from the Secretary, and recommends concurrence therein: I have had a conference with a representative from the Smoke Inspection Department at the Lane Technical High School regarding the placing of baffle tile around the tubes of the water tube boilers. It is desired to have a new style tile now provided than what has been in use heretofore. These tile are about 1½ inches long and so constructed as to encircle the tubes and permit easy placing in position. However, it will take from five to seven weeks to have the same made and delivered to the building, and would recommend that authority be granted for the ordering thereof at an approximate cost of 5 cents each, about 3,500 being required.

(18723)

*Contract—Award of—Fire Brick Work—
Oglesby School.*

Your Committee on Buildings and Grounds reports that Holbrook setting was installed under boiler at the Oglesby School Building, Green and 77th streets, as authorized at a previous meeting of the Board. Subsequently it was found that additional grate area is essential, which will necessitate a change in the fire brick work. Mr. Holbrook agrees to alter the furnace and provide for additional heating surface without extra cost, and proposition has been received from Frank McAleer in the sum of \$110.00 for doing the brick work involved. This proposition has been checked and found to be reasonable, and your Committee recommends its acceptance, especially in view of the fact that Frank McAleer has the contract for fire brick work under the other boiler at this building.

(18724)

*Contract—Award of—Gas Service Cock—
Jones School.*

Your Committee on Buildings and Grounds reports that it has received notice from the Chicago Fire Department that an automatic gas shut-off valve must be placed on the gas service pipe leading to the Jones School Building, Plymouth place and Harrison street. Proposals were invited for the installation of a device of this character which would meet with the approval of said department, and your Committee recommends that contract be awarded to the Automatic & Mechanical Safety Gas Valve Company in the approximate sum of \$46.00, it being the lowest bidder. Your Committee further reports that this proposition provides for the furnishing of one 2-inch valve in the sum of \$28.00 and an estimated cost of \$18.00 for installing it, with the understanding that this will be the maximum cost, but conditions may be such as will make it possible to place the valve in position for less money.

(18725)

*Contract—Omission of Repairs to Asphalt
Floors—Plumbing Work—Accept
Credit—Gresham School.*

Your Committee on Buildings and Grounds reports that in the specifications for plumbing work at the Gresham School Building, Green and 85th streets, it was provided that asphalt floors in boys' and girls' toilet rooms were to be repaired by the plumbing contractor. Subsequently it was decided to substitute a new floor, and your Committee recommends that credit memorandum from C. H. Law, contractor for plumbing, in the sum of \$25.00 for the omission of the work involved in patching the asphalt floors be accepted, inasmuch as it has been checked and found to be reasonable.

(18726)

*Contract—Award of—Various Alterations—
Kenwood School.*

Your Committee on Buildings and Grounds reports that in connection with

the Kenwood School Building, Lake avenue and 50th street, it has been decided to change location of stack, which will interfere with the progress of the steam heating and ventilating work. In order that school sessions may continue uninterruptedly in the old building it may be necessary to install a motor for the operation of the old ventilating facilities and to extend a temporary steam main to provide ample heating facilities. These changes will cost approximately \$400.00, and your Committee recommends that authority be granted to proceed with the same in the event it is found to be absolutely necessary.

(18727)

Contract—Award of—Galvanized Iron Repairs—Gresham School Branch.

Your Committee on Buildings and Grounds reports that it has received bids as per specifications for repairs to furnaces and galvanized iron work at the Gresham School Branch, Ada and 89th streets, and recommends award of contract to Fred Kaltenbach in the sum of \$141.50, he being the lowest bidder.

(18728)

Contract—Accept Credit—Plumbing—Carter School.

Your Committee on Buildings and Grounds reports that it has been found that combination trap and back water valve in connection with waste of swimming pool included in specifications for the Carter School Building, 61st street and Wabash avenue, may be omitted. P. Nacey Company, contractors, submits credit in the sum of \$15.00 for this omission, which credit has been checked and found to be reasonable, and your Committee recommends its acceptance.

(18729)

Contract—Award of—Pulleys and Shafting—Marshall High School.

Your Committee on Buildings and Grounds reports that it has received bids in accordance with specifications for erection of counter shaft and furnishing belting to complete oil grinder at the Marshall High School Building, Adams street and Spaulding avenue, and recommends award of contract to the Reeves Pulley Company in the sum of \$14.75, it being the lowest bidder.

(18730)

Contract—Award of—Induced Draft Apparatus—Hyde Park and Senn High School Buildings.

Your Committee on Buildings and Grounds reports that in connection with the new Hyde Park High School Building, 62nd street and Stoney Island avenue, and the Senn High School Building, Ridge and Francis avenues, there is necessity for the installation of an induced draft fan, engine to operate same, connection with

breaching and fan for suction and discharge of fan to breaching or smoke stack, for which specifications were prepared and bids received, and your Committee recommends award of contract to Mathis Bros. Company, it being the lowest bidder in each instance as follows:

Hyde Park High.....	\$972.00	
Senn High	977.00	\$1,949.00

(18731)

Contract—Award of—Plumbing, Gas Fitting, Sewerage, etc.—Sundry School Buildings.

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for essential plumbing and gas fitting at sundry school buildings, authority for which was granted by the Board at various meetings heretofore, and recommends award of contract to the lowest bidder in each instance as follows:

W. W. Watson—		
Chicago Lawn School,		
Homan ave. and 66th		
street	\$ 27.00	
Copernicus School,		
Throop and W. 60th		
streets	27.00

lain ave. and 65th st.	35.00	\$273.00

Melbye Bros. Company—

Irving Park School, 41st		
ct. and Grace st....	\$ 19.00	

(18732)

Contract—Award of—Electric Pumps—Sundry Schools.

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for the installation of motor driven pumps to provide adequate water facilities, sundry school buildings, as authorized by the Board, Reports Nos. 17965, 18406, 18282 and 18179, and recommends award of contract to the lowest bidder in each instance as follows:

Yeomans Bros.—		
Copernicus School,		
Throop and W. 60th		
streets	\$153.40	
Greeley School, Sheffield		
ave. and Grace st....	288.20	
La Fayette School, Augusta st. and Washtenaw ave.	257.60	
Tilton School, N. 42nd ave. and W. Randolph street	178.50	\$877.70

Chicago Pump Company—

Spencer School, Park		
and 50th aves.....	\$266.00	

(18733)

Contract—Award of—Iron Sewer—McLaren School Building.

Your Committee on Buildings and Grounds reports that the old sewer now leading to the McLaren School Building, York and Laffin streets, is title. In proceeding with the alterations now in progress this condition was ascertained and it was deemed advisable to replace it with iron, which could be done to advantage at this time, and your Committee recommends that proposition from C. H. Law in the sum of \$45.00 be accepted, inasmuch as it has been checked and found reasonable and this contractor is now engaged on similar work at this building under contract.

(18734)

Contract—Award of—Repairs to Furnaces, Galvanized Iron Work, etc., Sundry School Buildings.

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for repairs to furnaces, galvanized iron work, etc., sundry school buildings, as authorized by the Board May 1, 1912, and recommends award of contract to the lowest bidder in each instance as follows:

R. Wiersig—

Goudy Br. and Annex, Winthrop and Ard- more aves.	\$105.00	
Lane T. H. School, Sedgwick and Divi- sion sts.	215.00

Ray Branch, 56th st. and Jackson Park ave.	60.00	\$ 325.00

(18735)

Contract—Award of—Electric Wiring and Illuminating Fixtures—Sundry Schools.

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for extension of electric wiring and installation of illuminat-

ing fixtures, sundry schools, as authorized by the Board, Report Nos. 18067, 18488, 17321, 18111, 17976, 17221 and 18490, and recommends award of contract to the lowest bidder in each instance as follows:

Oakland Electric Company— Avondale School, N. Sawyer ave. and Wellington st.	\$110.00	
Carpenter School, Cen- ter ave. and Huron street	285.00	
Coonley School, Belle Plaine ave. and Lea- vitt st.	310.00

Ryerson School, Law- dale ave. and Hnron street	113.00	\$ 147.00

(18736)

Contract—Award of—Extra Heat Regulation—Gresham School.

Your Committee on Buildings and Grounds reports that in the preparation of specifications for heat regulation for addition to the Gresham School Building, Green and 85th streets, it was assumed that the necessary piping would be found in place. Said piping has not been discovered, and your Committee recommends that proposition from the National Regulator Company, which has the contract for heat regulation on this building, in the sum of \$90.00 be accepted and added to its contract, said proposition including all labor, piping and diaphragm motors required for the additional rooms.

(18737)

Contract—Credit Memorandum—Electric Wiring, etc.—Hyde Park High School.

Your Committee on Buildings and Grounds reports that it has received proposition from the Pierce Electric Company for the substitution of the Sundb Electric Company controlling device in connection with the electric apparatus at the Hyde Park High School, 62nd street and Stoney Island avenue, in lieu of the General Electric Company's facilities, it being specifically understood that the former apparatus will comply with the specifications in every detail. This substitution will also result in credit memorandum in the sum of \$14.00, and inasmuch as the equipment will comply with our requirements, your Committee recommends that the Pierce Electric Company be notified to proceed with the substitution, with the understanding that

the credit memorandum be deducted from the original contract price.

*Contract—Award of—Fire Brick Work—
Lane Technical High School Building.*

Your Committee on Buildings and Grounds reports that it has prepared specifications as authorized by the Board at its meeting held May 1, 1912, for essential fire brick work in connection with No. 2 boiler at the A. G. Lane Technical High School Building, Sedgwick and Division streets, and further reports that suggestions of the Smoke Inspector in this connection were embodied in the specifications, and recommends award of contract to George Kerr, he being the lowest bidder, in the sum of \$275.00.

(18739)

*Contract—Shafting, Pulleys, etc., Sundry
Schools.*

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids covering the installation of essential pulleys and repairs to shafting to permit the placing of motor to operate fan at the Ryerson School Building, Lawndale avenue and Huron streets, and recommends award of contract to R. R. Street & Co. in the sum of \$28.35, it being the lowest bidder, and further recommends award of contract for aligning of shafting, etc., at the McCosh School Building, Champlain avenue and 65th street, to A. Wiedenbauer in the sum of \$72.50, he being the lowest bidder.

(18740)

*Contract—Award of—Plumbing and Gas
Fitting—Chemistry Department—
Farragut School Building.*

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for essential plumbing and gas fitting in connection with Chemical room at the Farragut School Building, Spaulding avenue and 24th street, as authorized by the Board July 24th, Report No. 18530, and notified Samuel Kersten to proceed immediately with the work in accordance with his bid in the sum of \$158.00, which was the lowest proposition received, inasmuch as the work in question was to be completed before school open, and your Committee asks concurrence in the action taken.

(18741)

Contract—Rescind—Machine Work—Ryerson School.

Your Committee on Buildings and Grounds reports that inasmuch as the engine in connection with the ventilating facilities at the Ryerson School Building, Lawndale avenue and Huron street, has been abandoned and motor substituted therefor owing to a reduction in the pres-

sure of boilers, and, therefore, recommends that contract awarded to the Woods Machine Company be, and the same is, hereby cancelled.

(18742)

Contract—Deduction From—Electrical Supplies—Crane T. H. School.

Your Committee on Buildings and Grounds reports that it has received from the Secretary and recommends concurrence therein as follows:

"A contract was heretofore awarded to the Franklin Physical Laboratories for certain electric supplies for the Crane Technical High School. Among other items it was found that difficulty was experienced in having the supplies as incorporated in Item No. 32 furnished, which approximated the sum of \$241.50. After repeated notices to the company, wherein it was stated if delivery was not effected of the materials mentioned the same would be purchased by the Board of Education and the amount involved thereby deducted from the contract price. In accordance with this authority and pursuant to the recommendation of the attorney, the items aforesaid were purchased approximating the sum of \$181.38, which has been charged to the contract, leaving a balance of \$60.12 payable to the Franklin Physical Laboratories. I recommend that the action aforesaid be concurred in and that authority be granted to issue voucher in favor of the Franklin Physical Laboratories for the amount mentioned."

(18743)

Contract—Award of—Tile Sewer and Bubbling Cups—Sundry Schools

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for the installation of bubbling cups, sundry school buildings, as authorized by the Board heretofore, and included in said specifications was the extension of tile sewer in connection with the Sawyer Avenue School Building, 53rd street and Sawyer avenue, and recommends award of contract to the lowest bidder in each instance as follows:

B. E. Lynam—

Burrough School, Wash-
tenaw ave. and 35th pl. \$73.50
John Delehant—

Copernicus School, Throop and W. 60th sts.	\$78.00

	\$654.50

(18744)

Contract—Award of—Electric Wiring and Fixtures—Farragut and Parker High Schools.

Your Committee on Buildings and Grounds reports that as authorized by the Board, Report No. 18530, specifications were prepared and bids received for electric wiring and fixtures for chemical laboratory at the Farragut School Building, Spaulding avenue and 24th street, and similar facilities at the Parker High School, 68th street and Stewart avenue, in connection with basement rooms to be used for laboratories, and your Committee recommends award of contract to the lowest bidder in each instance as follows:

Howe Electric Company—	
Parker High School.....	\$179.00
F. C. Demeier & Co.—	
Farragut School	\$145.00

(18745)

Contract—Award of—Radiators, Fittings, etc., Chicago Parental School.

Your Committee on Buildings and Grounds reports that it has received bids for radiators and fittings as authorized by the Board at its meeting on June 26, 1912, Report No. 18396, to provide additional heating facilities for three living rooms at the Chicago Parental School Building, West Foster and North Central Park avenue, and recommends award of contract in the sum of \$88.20 for radiators to the American Radiator Company, and for fittings to the Chicago Engineer Supply Company in the sum of \$23.04, being the lowest bid received in each instance.

(18746)

Contract—Award of—Repairs to Engine Barnard School.

Your Committee on Buildings and Grounds reports that combination engine at the Barnard School Building, Charles and 104th streets, is in need of repairs, for which specifications have been prepared and bids received, and recommends award of contract to A. Wiedenbauer in the sum of \$44.90, he being the lowest bidder.

(18747)

Contract—Award of—Motor to Operate Fans—Ryerson School.

Your Committee on Buildings and Grounds reports that the hoilers at the Ryerson School Building, Lawndale avenue and Huron street, have been condemned by the Boiler Inspector for use in high pressure work, and inasmuch as an addition is contemplated at this school, the matter of providing adequate facilities for the operation of the ventilating and exhaust fans must be considered by other means. The Boiler Inspector will permit the boilers to remain until such time as definite arrangements have been decided upon in connection with the addition to this building, but they must not be operated at a pressure to exceed 20 pounds. Your Committee, therefore, obtained proposition for the installa-

tion of a 20 H. P. motor, 60 cycle, 3 phase, speed 900 R. P. M., and regulator starting device with pulley 10" diameter by 10" face at a cost of \$200.00, with an approximate cartage cost of \$5.00, and recommends that the same be accepted and authority granted to proceed with the installation thereof at once to operate fans. Your Committee further asks that authority be granted to award contract to low bidder covering extension of electric wiring to motor and the rearrangement of pulleys, belts, etc., on the equipment affected.

(18748)

Contract—Award of—Removal of Night Soil—Sundry Schools.

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids as authorized by the Board at its meeting held May 1, 1912, for the removal of night soil from closet vaults, sundry school buildings. Your Committee further reports that there is but one firm engaged in this line of work in the City from whom proposition was received, which bid has been checked with bids received for this class of work heretofore and found to be approximately the same, and inasmuch as the work has to be done as rapidly as possible, Matthew Stiff, the contractor, was requested to proceed immediately with the work, and your Committee asks concurrence in the recommendation as follows:

*Equipment—Award Contract—Machinery—
Woodworking, Forge and Foundry—Hyde
Park High and Senn High Schools.*

Your Committee on Buildings and Grounds reports that it has prepared specifications and received bids for machinery in connection with woodworking, forge and foundry shops at the New Hyde Park High School, 62nd street and Stoney Island avenue, and at the Senn High School, Ridge and Francis avenues, as authorized by the Board at a previous meeting. A special committee was appointed to examine the merits of the machines on which bids were received, and your Committee recommends concurrence in the report of said special committee as follows:

"Your Committee appointed to investigate the merits of the machinery for the manual training department of the Nicholas Senn and Hyde Park High schools met at the Board room Monday, August 28th, 1912.

"The matter of selecting these machines has been gone into carefully and the merits on all machines on which bids were submitted have been gone into thoroughly.

"The recommendations made on the attached list do not provide for the award of the contract to the lowest bidder in each case, but to the bidder on the machine which is best adapted to the needs of the schools.

"We would further say that on all machines where only one bid was received and where no bids were received we have recommended that the Acting Chief Engineer be authorized to call for new bids."

*Vacuum Cleaning Machine—Grant Authority
for Installation of—Experimental
Purposes—Van Vlissingen School.*

Your Committee on Buildings and Grounds reports that authority was granted by the Board, Report No. 14551, for the

installation of vacuum cleaning device for experimental purposes. In accordance with said authority your Committee recommends that proposition from the American Rotary Valve Company for the installation of one of its vacuum cleaning machines with all necessary tools for the purpose of conducting a test of from thirty to sixty days at the Van Vlissingen School Building, 108th Place and Wentworth Avenue, be accepted. Your Committee further reports that this company agrees to remove its machine at the end of this period without cost to the Board of Education, and it is specifically stipulated that the Board of Education assumes no obligation for its purchase, irrespective of the results demonstrated by the test and, further that the Board of Education be under no expense by reason of connecting or disconnecting said apparatus.

(18759)

Request Granted—Install Injector—Englewood High School.

Your Committee on Buildings and Grounds reports that it has received from the Penberthy Injector Company proposition to install one No. 3 Injector in connection with removal of seepage from boiler room at the Englewood High School Building, Stewart Ave. and 62nd Street, with the understanding that payment therefor shall not be made until it will have demonstrated its efficiency, and inasmuch as there is necessity for a device of this character at this building, your Committee recommends that authority be granted to permit trial demonstration of same.

(18760)

*Bids—Reject—Repairs to Galvanized Iron
Work—Gresham School Branch.*

Your Committee on Buildings and Grounds reports that as authorized by the Board May 1, 1912, propositions were received for repairs to furnaces at the Gresham School Branch, Ada and 89th Sts. In perusing same it has been found that error was no doubt made in the submission of them inasmuch as the prices quoted are high, and your Committee, therefore recommends that bids be rejected and authority granted to have new propositions obtained.

(18761)

*Electric Service—Line Extension—Phillips
High School.*

Your Committee on Buildings and Grounds reports that the Commonwealth Edison Company submits proposition in the sum of \$382.00 for extending line extension to supply small motors and transformers at the Phillips High School Building, 39th St. and Prairie Ave., and recommends that this proposition be accepted with the understanding that payment for same is to be made in accordance with existing contract, which provides that current consumed within a period of two years will apply towards the cost of said extension.

(18762)

*President and Secretary Authorized to
Draw Necessary Warrants.*

Your Committee on Finance respectfully recommends that the President and the Secretary be, and they are hereby authorized and directed to draw all warrants necessary to pay the teachers and employees of the Board of Education from July 1, 1912, to June 30, 1913.

(18778)

Publish Report Authorizing Issue of Duplicate Salary Warrant.

Your Committee on Finance respectfully reports that it granted the request for the issue of a duplicate salary warrant to Martin E. Canty contained in the attached report, under authority of the Board as provided July 24th, and recommends that this action be concurred in and the report published in the proceedings of this date.

The Committee on Finance respectfully reports that it is in receipt of request for a duplicate of Board of Education salary warrant No. 3750, issued to Martin E. Canty, engineer at the Medill School building, under date of March 18, 1912, in the sum of \$15.00, for overtime services during the month of February. This check was mailed from the offices of the Board of Education about March 20th, but Mr. Canty claims never to have received same. However, he has signified his willingness to file bond as required.

The Committee has given the matter consideration and recommends that a duplicate warrant be issued to Mr. Canty, in the sum stated, when he shall have filed with the Secretary the necessary indemnity bond.

Adjust Salaries of Employees.

Your Committee on Finance respectfully reports that on July 24th, 1912, Report No. 15599, pages 113 to 121, inclusive, the Board adopted a report from this Committee recommending changes in salaries of office and business employees. At that time the Committee deemed it inadvisable to recommend changes in salaries which would place employees out of their present civil service grades.

Your Committee further reports that it has reconsidered this matter and submits herewith the following recommendations as an amendment to said report:

BUREAU OF AUDIT.

Bates, Lewis J., principal clerk	\$1,800.00
Bracket, Harry H., principal clerk	1,800.00

BUREAU OF PURCHASES.

Canavan, John T., principal clerk	\$1,800.00
Cummings, John K., head clerk	2,500.00
Ellisberg, Max, senior stenographer	1,440.00
Gelb, Philip P., junior stenographer	1,200.00
Kelting, Lillian, principal stenographer	2,400.00
Webster, A. V., stenographer and secretary	2,400.00

LEGAL DEPARTMENT.

McKeough, Annie, principal stenographer	\$1,800.00
---	------------

COMPULSORY EDUCATION DEPARTMENT.

Bodine, W. L., superintendent of Compulsory Education, \$4,000.00 Effective Sept. 1, 1912

Cullen, Ella M., principal stenographer	1,800.00
Harmon, Belle, principal clerk	1,800.00

SECRETARY'S DEPARTMENT.

Braeutigam, Mathew J., senior clerk	\$1,680.00
Flynn, Lenora A., principal stenographer	2,400.00

the above changes to date from January 1, 1912, except as otherwise noted, and respectfully recommends the adoption thereof by the Board of Education.

No objections having been made to any of the recommendations contained in the several reports submitted, on motion of Judge Sears the reports were received and the recommendations contained therein were adopted, such adoption being declared to have been the action of the Board on each individual recommendation.

YEAS. Messrs. Cameron, Griefenhagen, Dr. Guerin, Messrs. Smietanka, Sears, Lipsky, Harding, Mrs. MacMahon, Messrs. Huttmann, Dibelka, Pfaelzer, Sethness, Sonstehy, Kelly, Erikson, Rothmann, and Dr. McFatrach. 17.

LEASES

Mr. Huttmann, Chairman of the Committee on Leases, presented reports of the Committee, as follows:

(18782)

Return Tender of Money from Jacob L. Kesner and Henry Friend.

Your Committee on Leases reports that it has been presented a tender made by Henry

Friend and Jacob L. Kesner of \$126,000 cash in full payment to date of August 8, 1912, of the rent due on Lot 3, in Block 142, of School Section Addition to Chicago, and further reports that it has given the same consideration and finds that the amount of money tendered, and that the preceding tenders heretofore made by the said Henry Friend individually, and by the said Jacob L. Kesner individually, each and all have not been in accordance with the terms, conditions and provisions of the lease covering said premises, nor have any of them been in the amount due under the provisions of said lease, nor made in accordance to law.

Your Committee therefore recommends that the said tender of August 8, 1912, of \$126,000 be, and the same is, hereby refused for the reasons aforesaid, and further recommends that the said sum be immediately returned to the said Jacob L. Kesner and Henry Friend, who tendered the same, with a copy of this report.

On motion of Mr. Huttmann the report was received and the recommendation contained therein was adopted.

YEAS. Messrs. Cameron, Greifenhagen, Dr. Guerin, Messrs. Smietanka, Sears, Lipsky, Harding, Mrs. MacMahon, Messrs. Huttman, Dibelka, Pfaelzer, Sethness, Sonstebly, Kelly, Erikson, Rothmann and Dr. McFatrach. 17.

DEFERRED REPORTS

Appointment of Chief Engineer Recommended.

The Secretary read Report No. 18693 in reference to the appointment of a Chief Engineer, action on which had been deferred temporarily on motion of Mr. Greifenhagen.

Judge Sears moved the matter embodied in the report be recommitted to the Committee on Buildings and Grounds so that the persons making the objection to the appointment of the Chief Engineer might be given a hearing.

Seconded by Mr. Greifenhagen.

Mr. Dibelka moved that the motion to recommit be laid upon the table.

Seconded by Mr. Kelly.

Mr. Greifenhagen moved that action on the report be deferred for two weeks.

Seconded by Judge Sears.

Mr. Huttman moved that as a substitute the rules be suspended for the purpose of putting the report on its passage.

Seconded by Mr. Dibelka.

The Chair put the question on the substitute motion and the roll being called resulted, as follows:

YEAS. Dr. Guerin, Messrs. Lipsky, Harding, Mrs. MacMahon, Messrs. Huttman, Dibelka, Pfaelzer, Sethness, and Kelly. 9.

NAYS. Messrs. Cameron, Greifenhagen, Smietanka, Sears, Sonstebly, Erikson and Dr. McFatrach. 7.

The Chair ruled the motion to suspend the rules lost.

The Chair put the motion to refer back to the Committee on Buildings and Grounds and it was so ordered.

Report to Assign Acting Chief Engineer to Former Position Recommended.

Mr. Greifenhagen moved that Report No. 18691 in reference to assigning Acting Chief Engineer to his former position be recommitted.

Seconded by Mr. Pfaelzer and so ordered.

Mr. Rothmann entered.

Resolutions on Retirement of Members From the Board.

Judge Sears, member of the special committee appointed to draft resolutions on retirement of members, presented the following resolutions:

(18783)

Resolution on Retirement of Mr. Frank I. Bennett.

Mr. Frank I. Bennett was appointed a member of the Board of Education in July, 1909. Before his entrance into the membership of this Board he had given years of excellent service in public matters and had filled offices in the public service. He was widely known as a man who achieved things for the public good. His earnest endeavors continued in his work with our Board and the results have been such as should be remembered.

He was a member of the Committee on Buildings and Grounds and was Chairman of its Sub-Committee on Sites. He was placed at the head of the Committee on Finance, and for the last year of the term of his services was Vice President of the Board.

As member of the Committee on Buildings and Grounds he was able to bring to that body the benefit of a wide experience and rare judgment and was master of the many and various conditions of work which, complicated, difficult and onerous, confront the labors of this Committee.

As Chairman of the Sub-Committee on Sites his services were extremely valuable. His justice and discernment in matters pertaining to the choice and acquirement of school sites and playgrounds are well known to us all and should also be recognized by parents and children who are now receiving, and are to receive in the future, lasting benefits. His judgment was always most excellent.

In all matters pertaining to finance he was of unwearied industry, exactitude and justice. He kept the finances in good order and the public well served. His work in connection with school leases was invaluable, and the results therefrom were vastly important.

As presiding officer over the Board in the absence of the President, his fairness was always so evident that there was never call for exception to his rulings, and his quiet grace won all.

He put all of his energy into everything he undertook. Of admirable management and quiet skill, his work on the Board was in all ways favorable to the public good. The course of his policies was wise and prudent and ought to be remembered to his credit.

The details of his work are too many to follow, but the net results are clear, and the gain to school affairs so great that it is only right to accord to Mr. Bennett this expression of gratitude in behalf of the citizens of Chicago and of the children of our public schools.

RESOLVED, That the above be entered upon the records of the Board, and that an engrossed copy be sent to Mr. Bennett.

WALTER T. SUMNER,
PETER REINBERG,
NANTHIEL C. SEARS.

(18784)

Resolution on Retirement of Mr. George F. Koester.

In the retirement of Mr. George F. Koester from the Board of Education of the City of Chicago, this Board loses a highly esteemed and efficient member.

Entering the membership of the Board in 1909, he for three years labored as unremittently and efficiently for the welfare of our public school interests as if their interests were his own.

With a long experience in and with a profound knowledge of matters pertaining to real estate, he was eminently equipped for the heavy duties that require the attention of the Committee on Buildings and Grounds. Upon this Committee he was placed and with it he labored earnestly during the full term of his service as member of the Board.

He served the public faithfully and well. In his work he was earnest, intelligent and practical, while his sole aim ever seemed to be to help to give the children of our city increased facilities that might lead

them to a higher and nobler life. Loyalty to his duties seemed to be the essence of his nature. He was faithful to his trust and responsibilities.

For such things we owe more than can ever appear upon the public records, and for work such as that of Mr. George F. Koester we desire to express in behalf of the parents and school children of Chicago our full appreciation.

RESOLVED, That the above be entered upon the records of the Board of Education of the City of Chicago, and that an engrossed copy be sent to Mr. Koester.

DEAN WALTER T. SUMNER,
PETER REINBERG,
NATHANIEL C. SEARS.

(18785)

Resolution on the Retirement of Dr. Jeremiah H. Walsh.

Dr. Jeremiah H. Walsh served as a member of the Board from July, 1909, to July, 1912, a full term of three years. During all this time he was in close relationship with all the policies and work of the Board and added largely to whatever results were accomplished.

His immediate activities were connected with his duties as a member of the Committee on Buildings and Grounds, but his counsel and co-operation were sought in all of the important matters coming under the attention of the Board and were freely given. The Board had no one more loyal to his duties or more ready to serve wherever his services might be required. Whole-souled and generous, his unflinching cheerfulness and good nature made him an at-

tractive companion and co-worker, and many of the betterments in our school affairs felt the touch of his helping hand. He was fairly a man of today.

The children of Chicago owe a deep sense of obligation to Dr. Walsh, for he was untiring in advancing the measures looking to the protection of their health. As Chairman of the special Committee appointed by our progressive President, Dr. McFetrich, he made a most excellent contribution to the subject of physical protection of children in his report, which, with its various recommendations being adopted by the Board, will bear witness in coming years to his sagacity and his faithful performance of duty.

The Board of Education of the City of Chicago gladly recognizes the value of his faithful services, his fidelity and honesty, and in behalf of our public school interests accords this tribute to the uniform intelligence and conscientiousness for which Dr. Walsh was most conspicuous.

RESOLVED, That the above be entered of record in the Proceedings of the Board, and that an engrossed copy be sent to Dr. Jeremiah H. Walsh.

DEAN WALTER T. SUMNER,
PETER REINBERG,
NATHANIEL C. SEARS.

On motion of Judge Sears the resolutions were adopted.

YEAS. Messrs. Cameron, Griefenhagen, Dr. Guerin, Messrs. Smietanka, Sears, Lipsky, Harding, Mrs. MacMahon, Messrs. Huttman, Dibelka, Pfaelzer, Sethness, Sonstebly, Kelly, Erikson, Rothmann, and Dr. McFetrich. 17.

NAYS. 0.

Extend Use of Cleveland School Building for Religious Purposes.

Mr. Smietanka moved that the permission granted the Polish Catholics on June 26, 1912, to use the Cleveland School building on Sundays for religious purposes, be extended until January 1, 1913, under the usual terms and conditions and in accordance with the recommendation of the Superintendent of Schools.

Seconded by Mrs. MacMahon and so ordered.

The Board adjourned.

LEWIS E. LARSON,
Secretary.

BOARD OF EDUCATION

REGULAR MEETING

OFFICIAL REPORT

CHICAGO, SEPTEMBER 18th, 1912

Appointment of Special Committee on Location of Technical High School on the South Side.

The following communication was presented from the President of the Board:

September 11, 1912.

To the Board of Education of the City of Chicago.

LADIES AND GENTLEMEN:

On September 5th, 1912, I took the liberty of writing five members of the Board, asking them to act as a Special Committee to co-operate with the Superintendent of Schools, for the purpose of locating a Technical High School on the South Side to the best advantage of the tax payers, and with a view of forming a plan of which the building of this school shall be a part.

I would respectfully ask the concurrence of the Board in the appointment of this Committee, namely, Mr. Rothmann, chairman, Messrs. Erikson, Dibelka, Sonstebly and Hutmman.

Respectfully submitted

(Signed) J. B. MCFATRICH,
President.

On motion of Mr. Greifenhagen the recommendation of the President was concurred in.

*Communication From the Civil Service
Reform Association.*

The Secretary presented the following communication from the Civil Service Reform Association of Chicago:

September 14, 1912.

To the Board of Education of the City of Chicago.

LADIES AND GENTLEMEN:

The attached correspondence I submit for your consideration and action.

Very truly yours,

(Signed) J. B. MCFATRICH,
President.

Chicago, September 12, 1912.

HON. JAMES B. MCFATRICH, M.D., *President
the Board of Education, City of Chicago.*

DEAR SIR:

You will recall that on the 3d inst., we submitted to your honorable body a petition protesting against the temporary appointment of John L. McNamara, engineer at the Harper School as chief engineer of the Board of Education, an appointment which he was seeking on the basis of his political activity and political influence, and

that in response to our petition and a similar protest by the Chicago Association of Stationary Engineers No. 1, National Association of Steam Engineers, your honorable body recommitted to the Buildings and Grounds Committee a report recommending the appointment of McNamara as chief engineer.

In presenting our petition, an incident occurred which we now deem it our duty formally to call to your official notice as President of the Board. This incident involved disorderly conduct and profanity by John L. McNamara in the lobby of the Board rooms, at a point near the office of the President, soon after the adjournment of the meeting of the Board at which time the action of the Board on McNamara's appointment was taken on the afternoon of the 4th inst. McNamara, who had been there that afternoon lobbying for his proposed appointment, literally created a scene. On meeting the representative of the Civil Service Reform Association, McNamara called our representative vile and insulting names, threatened to do physical violence to him and indulged in much profanity. McNamara uttered his insults, threats and profanity in a loud voice, attracting the attention of other employees of the Board at their desks near by.

The door of the President's office was open, and the President was there and heard a considerable part of the vile and insulting language of Mr. McNamara. The Honorable Harry A. Lipsky, a member of your honorable body, was a witness to nearly all of the incident and the Honorable Oscar F. Greifenhagen, also a member, was a witness to the first part of it. Other witnesses were Mr. Frank Honeywell, of the City Press Association, Mr. P. F. Lowder, of the Record-Herald, and Mr. Lucian Cary, of the Tribune. We wish to state that the representative of our Association did nothing or said nothing to Mr. McNamara to incite such an outbreak in the Board rooms.

We bring this matter to your attention, not because of our resentment at McNamara's gratuitous insult to our representative, but because we believe such an outbreak indicates that McNamara is not a suitable man to hold the position which he does as school engineer.

We realize that Mr. McNamara was laboring under the stress of extreme disappointment in having failed to secure the desired temporary appointment, but we find that this is not the only incident in which he has given way to passion. We have found that his period of service in the schools has been marked by clashes with school principals and with his fellow engineers, in which he has exhibited rage and indulged in violent and abusive language, such as that exhibited by him on Wednesday the 4th inst. In support of this statement we respectfully call your attention to the attached affidavits by Mr. Edward L. C. Morse, principal of the Phil Sheridan school, and Mr. Patrick C. Winn, engineer of the Carl Schurz school.

We believe that the above mentioned incidents indicate that McNamara is not a fit person to be in the employ of the Board.

We wish also to call your attention to the

campaign contributions mentioned in our previous petition was a violation of the law, particularly Section 21 of the civil service act, reading as follows: "No officer or employe of such city shall solicit, orally or by letter, or receive or pay, or be in any manner concerned in soliciting, receiving or paying, any assessment, subscription or contribution for any party or political purpose whatever."

We believe that this also indicates he is not a fit person to be in the employ of the Board.

We therefore respectfully suggest that you exercise the authority mentioned in the rules of the Board of Education, providing that the President of the Board, or the Committee on Buildings and Grounds may suspend and dismiss an engineer or janitor "when the interests of the schools or any school may seem to require his removal or dismissal" such removal to take place after a trial before the trial committee of the Committee on Buildings and Grounds on written charges of which the accused shall have a copy five days before the trial.

Respectfully submitted.

By order of the Executive Committee of the

CIVIL SERVICE REFORM ASSOCIATION
OF CHICAGO.

(Signed) HERBERT E. FLEMING,
Secretary.

STATE OF ILLINOIS,
COUNTY OF COOK,

ss.

I, Patrick C. Winn, the undersigned, being first duly sworn, on oath state the following:

Affiant states that about January, 1911, on a Saturday morning, he was standing in the rooms occupied by the Board of Education of the City of Chicago, at a point in the corridor on the seventh floor near the business manager's office, engaged in conversation with William A. Nolan, engineer at that time of the Burns School, now engineer at the Trumbull School.

Affiant states further, at that time he was engineer of the Charles Schurz School, of which he is engineer today.

Affiant states further that one John L. McNamara, now engineer at the Harper School, at that time also a school engineer, entered the said corridor and accosted affiant in reference to a letter which the affiant had sent out to certain school engineers. Said McNamara became very abusive in his talk, shook with rage and threatened "to get" affiant, in words as follows, "I'll get you for that." Said McNamara pointed to one of his hands which was bandaged and said, "If it wasn't for this I'd attend to you here and now."

Affiant further states that said Nolan was present throughout the conversation between affiant and McNamara.

Further affiant sayeth not.

ss.

I, Edward L. C. Morse, being duly sworn, hereby declare on oath, as follows:

That I am now and have been the principal of the Phil. Sheridan School, for the last twenty years, and that during that period Mr. John L. McNamara was engineer in that building.

That while Mr. Otto C. Schneider was president of the Board of Education the building was in very poor condition, and knowing that Mr. Schneider was about to make a visit to the building, I warned Mr. McNamara to keep the building in a better condition, he being responsible for its condition at the time. This Mr. McNamara refused to do, and assumed that I was trying to injure him by suggesting an improvement in cleaning the building.

In due season Mr. Schneider came out, and found the building in a very bad condition as to cleanliness. In particular, there was one window covered with cobwebs that Mr. MacNamara insisted that he had cleaned within a week. Upon the best of my recollection Mr. MacNamara was severely reprimanded by the President. After the President had gone away, Mr. MacNamara was very abusive in his language to me, and insisted that it was a put up job to have the President come out and criticise him. He flew in a very violent rage, but after so great a lapse of time, I am unable to state exactly what his language was, but it was pretty strong.

While I am not a machinist myself, my opinion is that Mr. MacNamara as a mechanic showed himself decidedly inferior to the average engineer that I have had at that building.

Further affiant sayeth not.

(Signed) EDWARD L. C. MORSE.

Subscribed and sworn to, before me, this 11th day of September, A. D. 1912.

(Signed) RALPH F. KOMPARE,

(Seal) Notary Public.

Mr. Kelly moved that the communications be referred to the Committee on Buildings and Grounds without further reading.

Seconded by Mr. Harding.

Mr. Dibelka moved that the communication submitted by Mr. John J. McNamara be read.

Seconded by Mr. Harding and so ordered.

The following is the letter:

Chicago, September 18, 1912.

Board of Education of the City of Chicago.

GENTLEMEN:

Upon my return from St. Paul, where I have been for the past two weeks attending the annual meeting of the International Brotherhood of Steam Engineers, I noticed in the newspapers that the Civil Service Reform Association had written a letter to your honorable body, in which charges

were made against me as an engineer in your employ. Permit me to say that as an applicant for the position of Chief Engineer of the Board, I deem it my duty to ask your honorable body to make a complete and sweeping investigation of the charges of every kind and character that have been made against me, I would respectfully request that this investigation be made at the earliest possible day, in such manner as may seem best to you.

Very respectfully,

(Signed) John L. McNamara,
Engineer Harper School.

Judge Vincent moved that the three members referred to in the communication, from the Civil Service Reform Association—Dr. McFatrigh, Messrs. Lipsky and Greifenhagen, be requested and directed by the Board of Education to prefer written charges against Mr. McNamara growing out of the controversy in the Board rooms on the afternoon of September 4, 1912.

Seconded by Mr. Smietanka.

Mr. Harding moved as an amendment that the entire matter be referred to the Committee on Buildings and Grounds for the proper investigation.

Seconded by Mr. Dibelka.

Mr. Huttman moved as a substitute for the motion and the amendment that the President, Dr. McFatrigh, Mr. Greifenhagen and Mr. Lipsky be requested and directed by the Board of Education to prefer charges against Mr. McNamara as contemplated in the motion made by Judge Vincent and that the matter be referred to the Committee on Buildings and Grounds for action.

Seconded by Messrs. Kelly and Sears.

The Chair put the substitute motion and the roll being called resulted as follows:

Yeas—Messrs. Cameron, Union, Greifenhagen, Dr. Guerin, Messrs. Smietanka, Sears, Vincent, Lipsky, Mrs. MacMahon, Messrs. Huttman, Pfaelzer, Reinberg, Sonstebly, Kelly, Erikson, Rothmann, and Dr. McFatrigh. 17.

Nays—Messrs. Harding and Dibelka. 2.

The Chair declared the motion carried.

STANDING COMMITTEE.

The Chair stated that, in case no objection was made by any member present, it was agreed that the reports of the several Standing Committees be sent to the desk of the Secretary in the order of the committees, as provided for in the regular order of business; that they be read by the Secretary, and in case no objection is made during the reading thereof, that at the conclusion of the reading of the reports of each committee a vote be taken on the acceptance of the reports submitted, and the adoption of the recommendations contained therein as a whole; if during the reading of such reports any objection is made to any report or any part of any report presented, such report or reports objected to shall be passed and the consideration thereof taken up separately.

The President called the Vice-President, Mr. Reinberg, to the chair.

The President was excused and left the room.

SCHOOL MANAGEMENT.

Judge Vincent, member of the Committee on School Management, presented reports of the committee, as follows:

(18786)

Certificates—Award of—Elementary.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools recommends that the following named persons, who were successful in the academic examination for certificates to teach in the Chicago public schools, and who have since passed the physical examination required under the rules, be awarded certificates as indicated.

The Superintendent further reports that the following named persons, who were successful in the academic examination for certificates to teach in the Chicago public schools, under Section 119 of the Rules of the Board of Education, are not required to take the physical examination. The Superintendent therefore recommends that they be awarded certificates as indicated.

The Superintendent further reports that Alice Ames Ballard and Ernest F. Detterer, who were awarded Normal School certificates on June 26, 1912, Reports Nos. 18306 and 18309, respectively, have passed the required physical examination.

Certificate—Award—German

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that Gertrude Jacober was admitted to the examination for teachers of German in the elementary schools in December, 1911, with the understanding that she was to graduate from Teachers College in January. She received a mark of 89 in the German examination, but failed to graduate from Teachers College in January. She completed the work at Teachers College in June, 1912, and as she has passed the required physical examination, the Superintendent recommends that she be awarded a certificate to teach German in the elementary schools.

(18788)

Certificate—Award of—and Elect Teacher of Science in Teachers' College.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools recommends that a Chicago Teachers' College certificate be awarded to Mary Putnam Blount and that she be elected to the position of instructor in science in Chicago Teachers College, at the salary of the upper group, first year, \$1,800.00 per annum, to date from September, 1912.

(18789)

Certificates—Revise Plan of—Marking Candidates for Principals' Certificates and Award Certificates Accordingly.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that acting in accordance with instructions given by the Committee on School Management, the Examiner has revised the plan of marking candidates for principals' certificates in the examination of principals for elementary schools held December, 1908, and also the one held for the same certificates June, 1909.

The Superintendent recommends that Elizabeth G. Haines and Frances G. Rogers be granted certificates as principals of elementary schools dated December, 1908, and that Annie J. Anderson and Albert C. Mueller be granted certificates as principals of elementary schools dated June, 1909.

Organize Class in Technical Training For Boys of Advanced Years in Elementary Schools.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that there are boys of advanced years in the elementary schools whose interest would be conserved by organization in a class of technical training at the technical high schools in an intensive elementary technical course, and recommends that authority be given to organize a class in the Lane, Crane, and Lake High Schools co-ordinate with the class for which authority was given last year to organize in the Flower High School.

(18801)

Leave of Absence—Principals Teachers.

The Committee of School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that during the last week of September the XV International Congress on Hygiene and Demography will be held in Washington, D. C.; that among the subjects to be presented at the Congress is that of School Hygiene with an exhibition on School Hygiene and School Sanitation by the United States Bureau of Education, which will be of great value to certain members of our Education Division.

The Superintendent recommends that permission be granted to those members of the Education Division to be absent without loss of pay, provided their duties can be cared for without extra expense to the Board.

Mr. Erickson was excused and left the room.

(18802)

Rescind Action Recommending Admission of Pupils to Morgan Park High Schools on Payment of Tuition by Board of Education.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that in Report No. 18612, adopted by the Board September 4, 1912, high school pupils

were included in permits to be granted those desiring to attend the Morgan Park High School. Permits have never been granted from our high schools to schools outside the city on condition that the Board pay the tuition, and since the distance traveled by pupils living within the limits and attending Chicago high schools is frequently greater than that which the pupils at Longwood and Washington Heights traverse in going to the city high schools, the Superintendent recommends that the words "and eighty dollars for high school pupils be stricken from the report."

(18803)

Establish Branch of Marsh School as Independent School and Elect Principal.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools recommends that the Branch No. 1 at Calhoun Ave. and 107th St., of the Marsh School at So Deering be established as an independent school, and that Adrian M. Doolin, head assistant of the Davis School, be elected principal at the salary of the first year, lower group, \$1,800.00 per annum.

(18804)

Text Books Purchase Fund.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools recommends that Fund Text Books be purchased for distribution to the schools on requisition of the principal as follows:

800 copies English Book No. 1.
800 copies Dodge's Elementary Geography.
800 copies Dodge's Advanced Geography.
600 copies Complete Spellers.
500 copies Gulick's Good Health.
400 copies Gulick's Town and City.
300 copies Woodburn & Moran U. S. History.
400 copies Mace's U. S. History.
300 copies Forman's U. S. History.

The total amount \$2,264.00 is to be charged to the appropriation for Fund Books for the current year.

No objections having been made to any of the recommendations contained in the several reports submitted, on motion of Judge Vincent the reports were received and the recommendations contained therein were adopted, such adoption being declared to have been the action of the Board on each individual recommendation.

Yeas—Messrs. Cameron, Urion, Greifenhagen, Dr. Guerin, Messrs. Smietanka, Vincent, Lipsky, Harding, Mrs. MacMahon, Messrs. Huttman, Dibelka, Paelzer, Sonstehy, Kelly, Rothmann, and Reinberg. 16.

Nays—None.

ELECTION OF TEACHERS.

On motion of Judge Vincent, the Secretary was instructed to cast one ballot for each member present for the election of the various persons named in the reports.

The Secretary cast 16 votes for each person named in the reports and so reported to the Board, whereupon the Chair declared the persons named to have been duly elected to their respective positions.

BUILDINGS AND GROUNDS.

Mr. Urion, member the Committee on Buildings and Grounds, presented reports of the Committee, as follows:

(18805)

Brentano Branch—Fit up Class Rooms.

The Committee on Buildings And Grounds reports that it is in receipt of a communication from the Superintendent of Schools stating that the crowded condition of the Brentano School, N. Fairfield Ave. & Schubert street, demands relief and recommending that the branch of that building consisting of four rooms, located at Diversey and California Avenues, be fitted up for class room purposes, at an estimated expense of \$2,225.00.

The committee recommends concurrence by the Board in the above suggestions of the Superintendent.

The Committee recommends concurrence by the Board in the above suggestions of the Superintendent.

(18810)

**Additional Class Room Accommodations—
La Fayette School.**

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Superintendent of Schools stating that additional class room accommodations are necessary at the LaFayette School, Augusta Street and Washtenaw Avenue, and recommending that an unfinished room in that school be placed in suitable shape for class room purposes at an estimated expense of \$362.00.

The Committee recommends concurrence by the Board in the above suggestions of the Superintendent.

(18811)

Cooking Room—Fit Up—Drummond School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Superintendent of Schools stating that a remittance of \$85.00 has been received from the Principal of the Drummond School, Clybourn Place near Lincoln Street, for the purchase of movable equipment for a kitchen and recommending that authority be granted for the fitting up of a room in said building for the use of classes in cooking, at an estimated expense of \$725.00.

The Committee recommends concurrence by the Board in the above suggestions of the Superintendent.

(18812)

**Request Granted—Use of Gymnasium—Mc-
Kinley High School.**

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Superintendent of Schools recommending that authority be granted to the Young Men's Class of St. Paul's Reformed Episcopal church, for the use of the gymnasium at the McKinley High School, Adams street near Hoyne avenue, on the second and fourth Thursday evenings of each month for a period of five months, subject to the usual terms and restrictions.

(18813)

**Folding Chairs—Purchase of—Parker Prac-
tice School.**

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Superintendent of Schools recommending that eighty dozen folding chairs be purchased for the gymnasium of the Parker Practice School, 68th street and Stewart avenue, at an estimated cost of \$9.43 per dozen or a total cost of \$754.40.

The Committee recommends concurrence by the Board in the above suggestion of the Superintendent.

(18814)

**Sink in Lunch Room—Install—Talcott
School.**

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Superintendent of Schools recommending that authority be given for the installation of a sink with hot and cold water connections in Room "B" of the Talcott School, Ohio and Lincoln streets, to provide necessary facilities for the teachers' lunch room, the estimated expense being \$60.00.

The Committee recommends concurrence by the Board in the above suggestions of the Superintendent.

(18815)

**Typewriters and Duplicators—Purchase of—
Superintendent's Department.**

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Superintendent of Schools recommending that authority be granted for the exchange of two Underwood Typewriters in the office of the Superintendent for two new machines of the same type, at an estimated expense of \$114.50 for the two machines and that two Underwood Revolving Duplicators for use in the Superintendent's office be exchanged for two new machines of the same type at a total estimated expense of \$18.00.

The Committee recommends concurrence by the Board in the above suggestions of the Superintendent.

(18816)

Name School Building—Dr. Frank W. Reilly School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Committee on Naming Schools suggesting that the school building to be erected on the site at Monticello avenue, Lawndale avenue and School street be known as the Dr. Frank W. Reilly School.

The Committee recommends concurrence by the Board in the above suggestions of the Committee on Naming Schools, and submits herewith a brief sketch of the life of Dr. Reilly.

FRANK W. REILLY, M. D.

Dr. Frank W. Reilly was born in Bolton, England, January 11, 1836. He came to America with his parents in early childhood, and was educated in the public and High Schools of Philadelphia, Pa., until 1851, subsequently going to Charleston, S. C., to receive private instruction. He came to Chicago in 1855 to pursue the study of medicine, attending lectures at the Rush Medical College; later he was appointed as an assistant in the laboratory of Dr. Blaney, and finally was graduated from the Chicago Medical College in 1861.

During the Civil War he entered the United States Army, in 1862, remaining in the service until its conclusion. During his army service Dr. Reilly had charge of general and field hospitals and was employed on special service, on different occasions, under orders of Generals Grant, Sherman and Logan, and was in intimate association with each of these great commanders.

During the summer of 1878 the South was scourged by an epidemic of yellow fever, the ravages of sickness and death creating a condition of desolation and despair that appealed strongly to the sympathy of the North. Dr. Reilly being inspired by a desire to alleviate the distress of his fellow men, joined an expedition for the relief of the sufferers. Immediately after he was appointed Sanitary Inspector of the National Board of Health and placed in charge of the Sanitary regeneration of Memphis, Tenn.

In July 1885, he became an editorial writer on the Chicago Morning News, subsequently being advanced to Managing Editor. As editor he carried on a vigorous campaign for the purification of the Chicago water supply, ultimately leading to the creation of the Sanitary Act, passed by the Legislature in May 1889.

In 1895 Dr. Reilly was appointed Assistant Health Commissioner for the City of Chicago, and under the able direction of the then Commissioner of Health, Dr. Arthur R. Reynolds, a marked improvement in the efficient administration of the Sanitary affairs of the city became noticeable. His thorough knowledge of medicine, his keen sense of application, his force and en-

thusiasm, and his evident unselfish devotion to the service was an inspiration and stimulus to his co-workers. Always thoughtful and effective he has contributed much to the high standing that the Chicago Department of Health now enjoys in the Sanitary World.

As a writer upon sanitary subjects Dr. Reilly had no superior in this country. He appealed to both the profession and the public. From the first when he prepared the nomenclature and classification of diseases, his newspaper work, his work that started the regeneration of Memphis, Tenn., his establishment of sane methods of inspection, instead of shot gun quarantine, his reports of the State Board of Health of Illinois, as an editorial writer and as Assistant Commissioner of Health of Chicago, all were educational and appealed to the layman as well as the medical profession.

His life evidenced the high character of citizenship and perfect manhood that endeared him to all who admire an earnest worker, a friend ever generous and true, and who was recognized as one of Chicago's foremost citizens.

(18817)

Name School Building—George B. Swift School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Committee on Naming Schools stating that it has had under consideration the naming of the school to be erected on Winthrop avenue between Ardmore and Thorndale avenues, and suggesting that the same be named the George B. Swift Public School in honor of Mr. Swift who was a former Mayor of the City of Chicago and a valued member of the Board of Education and who departed this life in July last while a member of this Board; and calling attention to Report No. 18424—C, adopted by the Board of Education at its meeting held July 10, 1912, being the resolution presented by the Special Committee appointed to draft resolutions on the death of Mr. Swift.

The Committee recommends concurrence by the Board in the above suggestions of the Committee on Naming Schools.

(18818)

Proposition—Accept—Testing Rubber Hose, Disinfectant and Sweeping Compound.

The Committee on Buildings and Grounds reports that it is in receipt of the following communication from the Secretary and recommends concurrence, to wit:

"I submit herewith propositions from Gulick-Henderson Co., covering the work in connection with the preparation of specifications and the testing of all material in connection with the purchase of Rubber Hose and Disinfectant and Sweeping Compound, for the school year ending June 30, 1913. The rates are \$150.00 for rubber hose and \$150.00 for Disinfectant and Sweeping Compound. I would recommend the acceptance of the propositions."

(18819)

Payment For Property Adjoining Grant School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Attorney of the Board relative to proceedings to condemn certain property therein described for school purposes abutting the Grant School site on the west and having a frontage of 33 feet on Wilcox avenue by a depth of 122.4 feet to an 18 foot alley, a copy of which communication is hereto attached and made a part hereof.

The Committee recommends that a warrant be drawn to the order of the County Treasurer of Cook County, Illinois, in the sum of \$3,756.00 in accordance with the recommendation contained in said communication from the Attorney of the Board.

September 13, 1912.

Committee on Buildings and Grounds,

Board of Education of the City of Chicago;

GENTLEMEN:

In condemnation proceeding, Gen. No. 313,392 in the Circuit Court of Cook County, entitled "City of Chicago, in Trust For The Use of The Schools, vs. Mary F. McCullough, et al," a trial has been had and verdict rendered.

In this proceeding Lot five (5) in the the subdivision by the Circuit Court Commissioners of lot eleven (11) in block seven (7) in Rockwell's addition to Chicago, together with the improvements thereon is condemned. This property abuts the Grant School site on the west, and has a frontage of 33 feet on Wilcox avenue, by a depth of 122.4 feet to an 18 foot alley. It is improved with a two story frame building and a barn. The jury awarded the respondents the following sums:

To the owner of and parties interested in Lot 5 aforesaid, together with the improvements thereon, the sum of	\$3,750.00
One Dollar to each of three tenants, residing on said premises	3.00
Costs of suit	3.00
Total	\$3,756.00

This verdict is, in our opinion, just and reasonable, and we request that your Committee recommend to the Board of Education of the City of Chicago the issuance of a proper warrant in the sum of \$3,756.00, payable to the County Treasurer of Cook County, for the use of the respondents in the case. Upon the payment of the said sum to the County Treasurer, a good title to the above described property will vest in the City of Chicago, in trust for the use of Schools, for the uses and purposes set forth in the petition filed in said cause.

Accompanying this report, is a blue print of the survey of the property in question.

Respectfully submitted,

(Signed) A. R. SHANNON.

Attorney of the Board of Education.

Quit Claim Deed—Beale School Site.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Attorney of the Board under date of September 5, 1912, which reads as follows:

"At the Beale School site, there is running through the center of it a strip of land, about 10 feet in width, to which the title may be clouded. This comes by reason of the fact that the south subdivision of the quarter section is of the south 100 acres, while the north subdivision is of the north 60 rods, and, inasmuch as the quarter section is not an exact square, it leaves, as an unsubdivided strip, the land lying between these two subdivisions, which, however, are supposed to be contiguous to each other.

Rolla M. Davies holds any outstanding title there may be to this tract, and, after considerable negotiation with him, I have secured his offer to deed to the Board, by Quit Claim Deed, all that strip of land lying between the north 60 rods and the south 100 acres of the South East quarter of Section seventeen (17), Township thirty-eight (38) North, Range fourteen (14), between South Sangamon and Peoria streets, in the County of Cook and State of Illinois, for the sum of \$50.00.

This I recommend be paid for such a Quit Claim Deed, and suggest the request by the Board for the concurrence by the City Council."

The Committee recommends concurrence by the Board in the above suggestions of the Attorney and further recommends that the President and Secretary of the Board be directed to request the concurrence of the City Council in this action. (18821)

Office and Business Employees Additional Help—Bureau of Repairs.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary stating that the business of the shade department of the Workshop, 748 W. Monroe Street, has grown to such an extent that an assistant is required and would recommend that the President of the Board of Education be authorized to make the necessary requisition on the Civil Service Commission for this mechanic at a salary not to exceed \$12.00 per week.

The Committee recommends concurrence in the above suggestion of the Secretary.

(18837)

Office and Business Employees—Employment of Clerk—Auditor's Office.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board recommending that authority be granted for the temporary employment of one Clerk in the Auditor's Office for a period of thirty days at a salary not to exceed \$75.00 per month.

The Committee recommends concurrence by the Board in the above suggestion of the Secretary.

(18838)

Extra Work—Authorize—Ventilation—Fröebel School.

Your Committee on Buildings and Grounds reports that subsequent to the preparation of specifications and award of contract for ventilation at the Fröebel School, West 21st and Robey Streets, it was found desirable to have the run of duct changed in the basement, to the advantage of the Board of Education, for which Kerstowske Bros. has submitted bid in the sum of \$48.00. Your Committee further reports that this work was of an urgent nature, and inasmuch as the bid submitted was considered reasonable and Kerstowske Bros. has the original contract for ventilation at this building, they were notified to proceed with the work immediately, and asks concurrence in the action taken.

(18839)

Heat Regulation—Sundry Schools.

Your Committee on Buildings and Grounds reports that in 1911 contracts for repairs to heat regulation were awarded to the Johnson Service Company on the Raster School, Wood and 70th Streets, Holden School, 31st and Loomis Streets, and the Yale School, 70th Street and Yale Avenue, upon which it was found a prior guarantee would be in force for one year. Your Committee thoroughly investigated the matter and recommends that the two-year guarantee for work done in 1911 be made cumulative on the buildings referred to, and that the Johnson Service Company submit to the Board of Education a credit memorandum in the sum of \$123.75 for work billed on the Seward School, 46th Street and Hermitage Avenue.

lative on the buildings referred to, and that the Johnson Service Company submit to the Board of Education a credit memorandum in the sum of \$123.75 for work billed on the Seward School, 46th Street and Hermitage Avenue.

(18840)

Award Contract—Electric Service—Sundry Schools.

Your Committee on Buildings and Grounds reports that it has received proposition in the sum of \$15.00 from the Steinmetz Electric Company for each building, to install two switches to control outside bracket lights at the Gary School, 30th Street and Lawndale Avenue, Cleveland School, Albany Avenue and Byron Street, and the Noebel School, Hirsch Street and N. 41st Avenue. The bid received has been checked, found reasonable and inasmuch as this contractor is doing work at the building at this time he was notified to proceed therewith, and your Committee concurs in the action taken.

(18841)

Award Contract—Tank, Pump, Etc.—Haven School.

Your Committee on Buildings and Grounds reports that in connection with the installation of new boilers at the Haven School building, Wabash Avenue near 14th Street, it has been found necessary to install a tank and pump, and ask that authority be given the John R. Kehm Company, the present contractor for the installation of boilers, to make such installation under the direction of the Bureau of School Engineers, at an approximate expense of \$300.00, it being understood that some of the facilities to be placed at this building are stored at other school buildings.

(18842)

Contract—Award of—Electric Pump—Wells School Building.

Your Committee on Buildings and Grounds reports that it has prepared amended specifications for the installation of motor-driven pump to provide adequate water facilities at the Wells School Building, N. Ashland Avenue and Augusta Street. Bids have been received for the work involved and your Committee recommends award of contract to Yeomans Bros. in the sum of \$162.45, it being the lowest bidder.

(18843)

Contract—Award of—New Tubes—Hawley Down-Draft Furnace—Brenan School.

Your Committee on Buildings and Grounds reports that subsequent to the preparation of specifications for repairs to boiler at the Brenan School Building, Lime Street and Archer Avenue, which is equipped with Hawley Down-Draft Furnace, it was found that twenty-two tubes in addition to those heretofore found defective were in need of

replacement, for which specifications have been prepared and bids received, and your Committee recommends award of contract to John W. McNeal & Co., in the sum of \$119.00, it being the lowest bidder.

(18844)

Contract—Accept Credit—Ventilation—Sundry Schools.

Your Committee on Buildings and Grounds reports that Mathis Brothers Company, contractor for ventilation at the Gray School, 52nd Avenue and Grace Street, Agassiz School, Seminary Avenue and Wolfram Street, and Mozart School, N. Hamlin and Humboldt Avenues, submits credit memorandum in the sum of \$41.00 for each school for the omission of galvanized iron riser to be furnished in connection with the brick flues as provided in the specifications. This

credit memorandum has been checked and found to be reasonable, and your Committee recommends its acceptance, and that final payment be allowed Mathis Brothers Company in these instances.

(18845)

Award Contract—Ventilation Work—Hammond School.

Your Committee on Buildings and Grounds reports that a section of 8-inch wall enclosing warm air chamber at the Hammond School, 21st Place and California Avenue, has been omitted from the original specifications, for which A. Mathis, the contractor for ventilation work, submits bill in the sum of \$24.75, which has been checked and found reasonable, and your Committee recommends that the same be added to the original contract price.

(18846)

Award Contract—Plumbing in Dental Rooms—Sundry Schools and Miscellaneous Plumbing Repairs.

Your Committee on Buildings and Grounds reports that it has prepared specifications as authorized by the Board, Report No. 18657, and received bids for essential plumbing in connection with dental rooms at sundry schools. At the same time bids were received for repairs to flushing tank at the Worthy School as well as extension of tile sewerage at the Carpenter School, and recommends award of contract to the lowest bidder in each instance as follows:

Electric Service—Hyde Park High—Rescind Former Contract and Re-award.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary stating that at the meeting of the Board of Education held on the 4th of September, Report No. 18634, the Bureau of Repairs was authorized to install telephones in the new Hyde Park High School, 62nd Street and Stony Island Avenue, in accordance with the estimate made

by this Bureau, in the sum of \$2,250.00. That owing to the large amount of minor repairs to electric bells and telephones to be made throughout the schools and also to the lack of electricians in the Bureau, it will be unable to do the work in the specified time.

That your Secretary has advertised for bids for this work and would recommend awarding the contract for same to the lowest bidder, the Stromberg-Carlson Telephone Manufacturing Co., for the sum of \$2,189.00.

The Committee recommends concurrence in the above suggestion of the Secretary.

(18852)

Contracts—Award of—Sundry Schools.

The Committee on Buildings and Grounds reports that in accordance with authority granted, they have received proposals for

repairs on sundry school buildings and have awarded contracts to lowest bidders in each instance, and recommends concurrence by the Board in said action.

FINANCE.

The following reports were submitted from the Committee on Finance:

(18862)

*Adjust Salary of Senior Stenographer
When Reached on Eligible List.*

Your Committee on Finance respectfully reports that it is in receipt of the following recommendation from the Superintendent of Schools:

"Recommendation is made that as soon as the name of Lydia Kelly is reached on the list for Senior Stenographers, Grade IV, that she be certified to that grade and that her salary be advanced to \$1,320.00."

And further reports that it has carefully considered this matter, and recommends concurrence in the above recommendation of the Superintendent of Schools.

(18863)

*Provide for Deficit in Vacation School
Appropriation.*

Your Committee on Finance respectfully reports that it is in receipt of the following report from the Superintendent of Schools:

"In the organization of vacation schools, estimates of the amount necessary to maintain the review classes which offer the privilege to children of making up work in which they failed the preceding year, were based on the attendance for 1911, with reasonable allowance for an increase in the attendance at these schools. The applications from children all over the city were three and one-half times larger than the preceding year, and an additional expense of \$1,440.00 was incurred for this item alone. This carried the expenditures for vacation schools beyond the appropriation to the amount of \$1,300.00.

"Recommendation is made that this deficit be provided for from the Contingent Fund. The importance of this work is of such nature that the management of the schools did not feel justified in turning these children away."

And further reports that it has carefully considered this matter and recommends concurrence in the recommendation of the Superintendent of Schools.

(18864)

Purchase Lincoln Park Bonds.

Your Committee on Finance respectfully reports that it has received an offer from the Harris Trust and Savings Bank to sell to the Board ten Chicago

Lincoln Park 4 per cent bonds, \$1,000.00 each, due 1929, at a price of 98% and accrued interest.

Your Committee further reports that this is the best offer received, and recommends the acceptance of same.

(18865)

Correct Report No. 18597.

The Committee on Finance respectfully reports that the Secretary is in receipt of a communication from the Auditor of the Board stating that there is an error in Report No. 18597, page 103 of Board Proceedings of July 24, 1912. Under the head of Receipts and Expenditures for the school year ending June 30, 1912, the amount shown as expenditures for New Buildings should be \$1,919,345.97, and that for General Repairs \$436,271.50. The difference of \$83,000.00 was transferred from New Buildings to General Repairs, and should have appeared as an expenditure to General Repairs instead of New Buildings.

The Committee respectfully recommends that Report No. 18597 be corrected as indicated above.

(18866)

Adjust Salaries of District Superintendents and of Heads of Departments in Teachers' College.

Your Committee on Finance respectfully recommends that the salaries of the District Superintendents of Schools be increased from \$4,000 to \$5,000 per annum, and that the salaries of heads of departments in the Chicago Teachers' College be increased \$200 over the amount they would receive at the point at which they would be placed on the schedule of salaries for principals of Elementary Schools and that the salaries of instructors in the Chicago Teachers College be increased \$200 over that which they would receive at the point that they would be placed on the High School Teachers schedule, all of the above increases to date from Jan. 1, 1912.

Authorize the Civil Service Commission to Investigate Schedule for Engineers and Janitors.

The Secretary presented the following communication:

September 26, 1912.

To the Members of the Board of Education of the City of Chicago.

LADIES AND GENTLEMEN:

I submit herewith a request from our Secretary that the Civil Service Commission

be asked by the Board of Education to have its Efficiency Bureau investigate the present schedule of compensation for engineers and janitors of the public schools, with a view of ascertaining whether or not the present basis of compensation is economical or extravagant. I believe such an investigation should be made, and recommend that the Board of Education ask the Civil Service Commission to make this investigation as soon as possible.

In this connection I wish to say that the question of compensation for engineers and janitors has been under consideration during the greater part of the time while I have been a member of the Board. From my personal observation and acquaintance with many of our engineers I am pleased to say that I have found them to be high class men, of excellent character and good judgment, and skilled in their line of work. It is of course the desire of the Board of Education to pay its employees all that their work is worth, and it is due to the members of the Board of Education and the public that this investigation be made so that we may all know whether or not the public funds appropriated for public education are expended wisely so far as the salaries of engineers are concerned.

Yours respectfully,

(Signed) J. B. McFATRICH,
President.

September 23, 1912.

Dr. James B. McFatrigh, President, Board
of Education.

MY DEAR DR. MCFATRICH:

You have undoubtedly noticed the adverse criticisms of the present schedule of salaries for engineers and janitors which have appeared in the daily press recently. The present basis of remuneration for engineers and janitors was fixed after long investigation of the question, and is based upon three factors: first, engineering work; second, janitor work, and third, cleaning. The schedule is divided into three parts:

The compensation for engineering work is \$54.00 per 1,000 for all buildings having 25,000 square feet, and increasing \$20.00 per 1,000 up to buildings containing 80,000 square feet, after which the increase is \$30.00 for each additional thousand square feet.

The compensation for janitor work is \$20.00 per class room per year, or 10 cents for each sweeping.

The compensation for cleaning is at the rate of \$1.25 per 1,000 square feet.

In order that the Board of Education may know whether or not the present basis is economical or extravagant I respectfully request that the Board of Education ask the Civil Service Commission of the City of Chicago to have its Efficient Bureau investigate this whole matter and submit the results of such inquiry to the Board.

Yours very truly,

Signed) L. E. LARSON,
Secretary.

On motion of Mr. Greifenhagen the recommendation was concurred in.

(18870-B)

Thanks Tendered the Board by Mrs. George
B. Swift.

The Secretary presented the following communication from Mr. George B. Swift, Jr.

Chicago, September 30, 1912.

Mr. Lewis E. Larson, Secretary Board of
Education, Chicago.

DEAR SIR:

In behalf of Mrs. George B. Swift I wish to acknowledge receipt of engrossed resolutions adopted by the Board of Education upon the death of my father, George B. Swift. She also requests that I acknowledge her appreciation to Messrs. Nathaniel C. Sears, David M. Pfaelzer and D. R. Cameron, committee; J. B. McFatrigh, president, and yourself for the beautiful way in which the action of the Board was made a permanent record.

Yours truly,

(Signed) H. B. SWIFT.
Dict. H. B. S.

Received and ordered printed in the Proceedings.

Thanks Tendered the Board by Mr. Hamlin.

The Secretary presented the following communication from Mr. Frank Hamlin:

(18870-C)

Chicago, 30th September, 1912.

Lewis E. Larson, Esq., Secretary of the
Board of Education of the City of Chicago,
Tribune Building, Chicago.

MY DEAR MR. LARSON:

Upon my return to Chicago, after an absence of some weeks, I find the engrossed copy of the Resolutions, passed by the Board of Education upon my severing my relations with that body, awaiting me.

My association with the Board of Education extended over a period of five years, within which I experienced only the greatest consideration from the members of the Board and courtesy at the hands of its employees. In that time we had various hard fought legal battles which we were fortunate in having determined in favor of the Board.

I am more than grateful for the kindly expressions of opinions which has been spread upon the records of the Board and I shall always value this testimonial for the sentiments that are contained therein.

Please express to the members of the Board my deep sense of obligation for the action which was taken in the matter and express my sincere thanks to them for the handsome copy which was engrossed and sent to me by that Honorable Body.

Very respectfully yours,

FRANK HAMLIN.

Report on Work and Prizes Awarded in
Accordance with the Accepted Offer
of Hon. Charles H. Wacker.

The Secretary presented the following from president McFatrigh:

September 28, 1912.

To the Members of The Board of Education
of the City of Chicago.

LADIES AND GENTLEMEN:

Attached hereto is a complete report of the work done and prize awards in accordance with the Hon. Charles H. Wacker's offer to the schools and school children of Chicago.

I would earnestly recommend that this be made a part of the minutes of the Board.

Respectfully submitted,

J. B. MCFATRICH,

President.

**Provisions Governing Competition for
Prizes Offered by the Chairman
of the Chicago Plan
Commission.**

To Principals—

The following correspondence between the President of the Board of Education and the Chairman of the Chicago Plan Commission, and the action of the Board in pursuance of the recommendation made by President McFatrigh, will interest the schools and also put them in possession of the requisite knowledge of the steps to be taken for those desiring to enter the ranks in competition for the prizes mentioned. The beautification of the school yards and of the yards at home is something for which we all should be glad to work.

Very truly yours,

ELLA FLAGG YOUNG,
Superintendent of Schools.

*To the Members of the Board of Education
of the City of Chicago.*

Permit me to hand you herewith a copy of a letter addressed to the Chairman of the "Chicago Plan Commission" and his reply:

March 30th, 1912.

HON. CHARLES. H. WACKER,

Chairman, Chicago Plan Commission.
Chicago, Illinois.

My Dear Mr. Wacker:—

During the year 1911, the Board of Education expended \$129,000 for filling, grading, and fencing seventy-nine school yards, and the Finance Committee has appropriated \$163,000 for the same work for 1912. The members of the Board are anxious that our school grounds should be attractive as well as useful, and to accomplish this it has occurred to me that if an interest in this work was aroused in the children we would accomplish a three-fold object.

1st. By interesting the children in the beautification of the school premises, it will create in them a desire to improve conditions about their own home, plant trees, raise flowers, and train the morning glory over their back yard fence. This will give them occupation, keep them off the streets, and out of cheap amusement halls. It is much easier to keep the boy off the streets and away from evil by giving him a pleasant occupation—work in which he will take an interest and he proud of the results—than to reform that boy after he has been sent to the John Worthy School. The child that becomes interested in home and home surroundings makes a good husband or a good wife, a good mother or a good father, interested in sane, healthful, wholesome, moral amusement. In my humble opinion, this should go a long way to solve the social evil problem.

2nd. A competition between the schools will be a source of great knowledge of how to plant, care for, and develop trees, foliage, flowers, and artistically arrange surroundings.

3rd. And last but not least, it will, in my opinion, clean many back yards, improve sanitary conditions, and beautify

thousands of desolate places that are usually covered with weeds, ash heaps, and refuse.

Permit me to suggest that if you, as Chairman of the "Chicago Plan Commission", and interested in the "Chicago Plan's Manual," which is now in our public schools, were to offer the following prizes, the effect would be far-reaching:

1. Three prizes of \$50.00 each and pennants fittingly inscribed for permanent possession of the school; one to the school on the North Side, one to the school on the West Side, and one to the school on the South Side that present the most attractive school grounds. Said prizes to be awarded by a committee of three competent judges appointed for each of the three divisions of the city—three by the President of the Association of Commerce (one for each division); three by the President of the Woman's Club (one for each division); and three by the President of the Municipal Art League (one for each division).

In addition to the above, a grand prize in the form of a silver cup, which shall be given into the temporary possession of the school which, in the opinion of a committee consisting of the Presidents of the Association of Commerce, Woman's Club, and Municipal Art League, presents the most attractive grounds of the three successful contestants in the three locations of the city. The award of this cup to be made on the same date annually and the cup to remain in the possession of the successful school from the date upon which it is awarded to the next date of award. The possession of this cup shall only be temporary until it has been awarded as a prize to one school for three successive years, in which event it becomes the property of that school.

2. Three prizes of \$50.00 each and pennants fittingly inscribed for permanent possession, to the engineers or janitors of the three successful schools on the North, West, and South Sides, provided they render every assistance in the work for the best school ground display.
3. Three prizes of \$15.00 each and pennants fittingly inscribed for permanent possession; one to the school room on the North Side, one to the school room on the South Side, and one to the school room on the West Side, that make the most creditable exterior window flower-box display.
4. Three prizes of \$15.00 each and pennants fittingly inscribed for permanent possession, to the engineers or janitors of the schools on the North, West, and South Sides that receive the prizes for the best exterior window-flower box display, if they have rendered every assistance in the work.
5. One prize of \$10.00 and a pennant fittingly inscribed for permanent possession to each of fourteen school districts to the child or children of a family who, by their own exertions, make the most creditable display in their own home yard, provided the alley in

the rear of their home is kept clean and in an orderly condition.

6. One prize of \$10.00 and a pennant fittingly inscribed for permanent possession, to each of fourteen school districts; one to be awarded in each district to the child or children of a family who, by their own exertions, make the most creditable display of window-flower boxes in their own home, provided the alley in the rear of their home is kept clean and in an orderly condition.
7. Three prizes of \$25.00 each; one to be awarded on the North Side, one on the West Side, and one on the South Side, to the child or children who will, by his or their own exertions, keep the vacant lots in their immediate neighborhood in the most orderly condition and free from weeds.

Permit me further to suggest, if you think the above plan worthy of consideration, that the committees for the respective school districts be appointed as suggested above.

What do you think of the plan? May I hope to hear from you at an early date?

Very sincerely yours,

(Signed) J. B. MCFATRICH.

Chicago, March 30, 1912.

DR. J. B. MCFATRICH,

President Chicago Board of Education.
Chicago.

MY DEAR DR. MCFATRICH:—

I have given the matter of your communication of the 30th inst. very careful consideration.

Permit me to congratulate you most heartily on the splendid plan you have originated which contemplates the awarding of certain prizes to school rooms and to school children in a competitive contest for the beautification of the school premises. In this you have touched an important fundamental in the development of high citizenship.

I am in entire accord with your idea and cheerfully and personally assent to your request to provide the necessary prizes you have outlined. Indeed, I consider it a great honor to be asked to assist in this way in so worthy an undertaking.

With best wishes for the success of your plans,

Very sincerely yours,

(Signed) CHAS. H. WACKER.

Permit me to respectfully suggest that the rules of the Board on prizes be suspended in this particular instance, and that the prizes referred to in the foregoing communications be awarded in the matter recommended.

That a school, a school room, a child or children, competing for the above prizes, shall register with the principal of the school their name or names as contestants,

and the location of the school, school room, yard, home, or vacant lot with which they shall be identified in this contest, and that this registration shall be filed with the President of the Board of Education on or before the second Wednesday of June of each year.

Permit me to further recommend that the properties be examined by the judges not earlier than the first day of September, that their report be filed with the President of the Board of Education not later than the third Wednesday of September, and that the prizes be awarded on the last Friday of that month.

That a copy of the text awarding the prizes be posted on the bulletin boards of the city's schools.

Respectfully submitted,

J. B. MCFATRICH,
President.

The Committees were appointed by the organizations mentioned above and met at President McFatrigh's office, September 18; namely:

From the Chicago Woman's Club—

Mrs. John W. Worthy
Mrs. E. H. Haines
Mrs. J. H. Beers

From the Municipal Art League—

Mr. William H. Bush
Mrs. William F. Grower
Mr. H. B. Swope

From the Association of Commerce—

Mr. Arthur R. Dean
Mr. Charles Merrick Hammond
Mr. Edwin H. Bennett

These were formed into three committees as follows:

For the North Side—

Mrs. John W. Worthy
Mr. William H. Bush
Mr. Edwin H. Bennett

For the West Side—

Mrs. E. H. Haines
Mr. H. B. Swope
Mr. Charles Merrick Hammond

For the South Side—

Mrs. J. H. Beers
Mrs. William F. Grower
Mr. Arthur R. Dean

In order to facilitate the work, a number of the best schools in each division of the city had been listed and these were all inspected by the special committees on Thursday, September 19.

The three committees already mentioned chose from their number Mrs. John W. Worthy of the Woman's Club, Mrs. William F. Grower of the Municipal Art League and Mr. Arthur R. Dean of the Association of Commerce, to act as a committee to pass final judgment upon school premises and to award the silver cup to the best school yard of the three already chosen.

This committee made their inspection on Friday, September 20.

The reports of these committees follows:

September 19, 1912.

DR. J. B. McFATRICH,
President, Board of Education.

Dear Sir:—

The committee on inspection for the North Side of the city herewith hands you its report.

After carefully examining the various school premises which we were asked to visit, we select for the award under plan No. 1, the Hamilton School.

Under plan No. 2 we name Fred W. Lau-binger, engineer, Hamilton School.

Under plan No. 3 we name Room 1 of the Sheldon School.

Under plan No. 4 we name Nicholas A. Lies, engineer, Jahn School.

Under plan No. 7 we name Walter Cramp-ton and companions, who cared for the lot at 2848 Abbott Court.

We recommend for honorable mention under plan No. 1 the Jahn, Agassiz, Shel-don, Stewart and Mulligan Schools.

We recommend for honorable mention under plan No. 3, Rooms 21 and 23 of the Jahn School; Room 3 of the McPherson School; Room 20 of the Prescott School.

We desire also to call attention to the vacant lot at 1801 School Street, although it was not entered in the competition for the prize. It was cared for by Arthur Michel and comrade and the fine grass and lovely flowers which they have tended during the summer presents a beautiful appear-ance.

(Signed)

MRS. JOHN W. WORTHY,
WILLIAM H. BUSH,
EDWARD H. BENNETT,
Committee for the
North Side.

DR. J. B. McFATRICH,
President Board of Education.

Dear Sir:—

We, the committee appointed to inspect and judge public school premises on the West Side of the city, beg leave to submit the following report:

We have visited the various schools on our list and are pleased to see the fine appearance which they present without ex-cemption.

We name for the award under plan No. 1, the Irving Park School.

Under plan No. 2, while the intent of the general plan would seem to be that the award should be made to the engineer of the school named above, it is the unanimous opinion of this committee that the engineer of the Ryerson School is entitled to more consideration than any other. His garden, though small, was made from dirt wheeled in by him; he has had no assistance or funds and, nevertheless, has a greater variety of blooming flowers, all showing the most careful attention.

We recommend, if it is not out of order, that the award be made to Thomas McNam-ara, engineer, Ryerson School.

We name for the award for the most creditable exterior window flower-box display, Room 1 of the Irving Park School.

We name for the award under plan No. 4, Roger W. Harris, engineer, Irving Park School.

Under plan No. 7, we name for the award the lot at 1234 South Forty-second Cor-ner, cared for by Frank Pleticha and comrade.

We would respectfully suggest that the attention of all principals be called to the importance of plan No. 7. While we grant the merit of the showing made by the lads named above, we deplore the fact that they had no competition.

We consider the garden of the Austin High School in a class by itself, but do not believe that the shrubs are given proper attention, the maintenance not being up to the standard of the excellent plan of the grounds.

We recommend for honorable mention under plan No. 1, the Ryerson, Spry and Tilton Schools.

We recommend for honorable mention under plan No. 3, Rooms 3 and 15, Chalm-ers School; Room 11, Walsh School.

MRS. E. H. HAINES,
Chicago Woman's Club.

Committee for the West Side.

September 23, 1912.

DR. J. B. McFATRICH,
President, Board of Education,
Chicago.

Dear Sir:—

In handing in this report, allow me to thank you and the Committee on Arrange-ments, for appointing me a member of this committee for the South Side of the city. It was a great pleasure for me to visit the school grounds selected for us.

We congratulate you and the Board of Education, upon the school garden condi-tion as it stands now, and hope that the gardens will increase and multiply until every school, whether in the smoke belt or out of it, shall have its pieces of culti-vated ground.

At the N. S. Davis School, out on the big wind swept prairie, the garden was lovely, although it was not very large. The fine iron fence is covered with vines most effectively, and the Japanese Ivy on the walls of the building, and the window boxes in good condition all showed most loving care on the part of principal, teach-ers, pupils and engineer. Your committee feels that if some of the big playground space could be planted in trees, they would receive good care and be much appreciated in this neighborhood.

At the Van Vlissingen School, the gar-dens are on two sides and in front of the big school building and along the fences and are well and artistically planted and in fine condition. The children work in the gardens and know all about birds and flowers, and their nature study classes are

supplied with material from the school gardens and those in the neighborhood.

At the Scott and Fiske Schools, the small gardens are very well cared for and add greatly to the beauty of the buildings. They prove that much can be done where there is a will to do it. Years ago these spaces would have seemed too small to make any attempt at planting, but today these gardens are the beauty spots in their immediate neighborhoods.

At the Bass School the planting at the front of the building was well done and in artistic manner, a color scheme being worked out and the window boxes were lovely.

At the Parkside School is a fine old garden cared for by everybody from the kindergarten to the principal, and the most loving hand of all seems to be that of Mr. Curran, the engineer, who watches over every blade of grass in the garden. Here are lemon trees, cherry trees and peach trees; all grown from seeds, and all varieties of flowers and shrubs. A splendid garden where the children of all grades work, and learn of the things that help make life beautiful. This school your committee recommends as the one from the South Side to enter into competition for the prize.

At the Keith School we were delighted with the garden we found. It is most surprising what the children of this school have done. They were allowed a small space along the fences for planting. To preserve this garden space, they have made a border of bricks which they picked up in the neighborhood. They placed the bricks in the earth themselves, making a most effective flower bed between the fence and the brick border, and it is prettily planted in bright colored flowers and climbing vines. The work at this school is greatly to be commended, for the children and teachers have accomplished much against great odds. After seeing what can be done with so little, this committee begs that when possible this school in the congested district be allowed more space for garden work.

You are doing a great work in encouraging the making of gardens among the school children, and the great pleasure both teachers and pupils seem to derive from the work with the lovely growing things, makes your committee very happy to have assisted in the placing of this prize so generously donated, and of which we most heartily approve.

At the Forestville School, the garden is beautiful in a quiet way, with its grass, trees, shrubs and window boxes. Many fine trees, shrubs and flowers are the results of continued effort on the part of teachers and pupils. At the side yard is a miniature garden, a pergola and evidently an experimental vegetable garden, where the children work and learn.

We recommend for honorable mention the names of the following schools:

Davis
Bass
Van Vlissingen
Forestville
Fiske
Scott and
Keith

Most respectfully submitted,

REPORT OF COMMITTEE APPOINTED TO PASS FINAL JUDGMENT UPON SCHOOL PREMISES.

Committee—

Mrs. W. F. Grower, representing the Municipal Art League.

Mrs. John W. Worthy, representing the Chicago Woman's Club.

Mr. Arthur R. Dean, representing Association of Commerce.

September 12, 1912.

DR. JAMES B. MCFATRICH,
President Board of Education,
Chicago.

Dear Sir:—

We have today visited the three schools selected for us upon which to pass judgment. The schools visited were:

South Side—The Parkside School
East End Avenue, and 70th Street.

West Side—Irving Park School,
41st Court and Grace Street.

North Side—Alexander Hamilton School,
Cornelia Street and North Marshfield Avenue.

Your committee, after careful consideration, have unanimously agreed that the Parkside School is deserving of the greatest credit because of the best arrangement of flower beds, vines, trees, etc., for the greatest variety of plantings and for the best judgment and care exercised in the location and arrangement of plantings, for the well kept grass free from weeds and for the most pleasing general results which have been obtained.

Respectfully submitted,
(Signed) ARTHUR R. DEAN,
For Committee.

REPORT ON THE AWARDS IN THE FOURTEEN DISTRICTS OF THE CITY.

DR. J. B. MCFATRICH,

President Board of Education, Chicago.

As requested by you we have, with the assistance of the principals of schools, made careful inspection, in each of the fourteen districts of the city, of the gardens and window flower-boxes maintained by school children at their homes and have noted their care of the adjacent alleys and submit herewith the names of those who have made the most creditable showings.

We believe that there is a growing interest throughout the city in the effort to

improve the appearance of school premises. The results obtained in many cases are surprising and invariably lead to greater appreciation of the beautiful effects produced by co-operation with nature and to increased respect for public property.

A COMPLETE LIST OF THE COMPETITORS UNDER PLAN 1 TO 7 INCLUSIVE WITH BRIEF MENTION OF THE CHARACTERISTIC FEATURES OF THEIR WORK.

Most Attractive School Grounds.

NORTH SIDE.

Adams School—

The only available space is a very narrow strip in front of the school building. Here the grass is well kept and several vines—woodbine and Boston ivy—have been started. The whole is very creditable, it being very difficult to make anything grow in this vicinity.

Agassiz School—

All available space has been utilized; the space at the front of the building is particularly well planted with handsome varieties of shrubs and flowering plants. Beautiful vases, the gift of a patron of the school, flank the entrance. The garden spaces around the sides of the playground are filled with fine plants, in a thriving condition. These have been selected for securing a succession of bloom. Some vegetables, such as tomatoes, have been planted for nature study; a number of good trees have been started. The whole shows much care. The results are particularly creditable considering the school was opened quite recently.

Alcott School—

At regular intervals, around the entire southeast and north sides of the building, have been planted Boston ivy and small beds of very fine petunias.

Hamilton School—

The yard at the front of the building has been very handsomely treated. Sod is close cut and well kept. The front of the building is covered with a beautiful growth of Boston ivy; there were fine, large vases of flowering plants; lilacs are massed in the gardens; there are three thrifty young cherry trees in the plot. The blossoms on these trees are very beautiful in the spring.

Headley School—

The space in front of the building has been carefully planted with flowers, arranged in central beds and along the borders. The whole shows a great deal of care and the appearance is very attractive.

Jahn School—

All of the available space for planting has been utilized. The spaces at the west and south side of the building are filled with masses of fine, dense shrubbery of choice varieties, effectively arranged. Along the fences, around three sides of the ground, are beds of flowering plants, the plants being chosen to produce blossoms both in the spring and in the fall. The entire grounds show most careful attention. It is evident that much work was done upon these gardens during the summer.

Kinzie School—

The small space in front of the building was carefully planted. All children in the school assisted. Creditable work was done.

Manierre School—

All available space was planted, an effort being made to cultivate especially as many varieties of wild flowers as possible, in order to acquaint the city children with the forms of vegetation with which they were unfamiliar.

Mulligan School—

The only available space is a strip 10 or 15 feet wide in front of the building. Here the grass is well kept. Next to the fence is a row of Russian hedge; against the walls are beds of beautiful flowering plants, both spring and fall varieties—zinnias, marigolds and salvias are particularly brilliant at this time. At the end of the garden lilacs and shumac have been planted; Boston ivy covers the walls to the second story; vases of flowering plants flank the entrance.

All the pupils in the school have assisted in the planning and care of this garden.

Sheldon School—

The space in front of the school building has been very carefully planted with flowers and shrubs. Such varieties have been used that a continual succession of bloom has been secured. The zinnias, mal-lows and cannas are particularly fine. Rear of the yard is divided into flower beds, each bed being cared for by the pupils of a given room. Each room has laid out its flower bed according to its own design and made its own selection of flowers. The results have been quite remarkable. In spite of the very trying weather of the past few weeks, beds are in full bloom.

In the center of the plot has been erected a martin box. This was occupied by a colony of martins during the summer, furnishing much delight to the pupils of the school.

Stewart School—

All available planting space utilized. The beds at the front of the two playgrounds are filled with scarlet geraniums in full bloom; sides and rear of playground planted with several varieties of shrubbery, syringa, dogwood, elder and lilac. The space in front of the building is beautifully and effectively treated. Sod is fine and well kept, with central beds of canna, shrubbery and vines against the building; vines on the fence. On the south and west walls Boston ivy has been planted on the foot of each of the available brick columns. The whole shows much care.

School Room Window Flower-Box Display.

NORTH SIDE.

Rooms 21 and 23, Jahn School—

(N. Lincoln St. and Belmont Ave.)

Handsome flower-boxes in many windows.

The flowers of many handsome varieties, all well kept. The whole school co-operated.

Room 3, McPherson School—

(N. Lincoln St. and Leland Av.)

Five window boxes were filled in May; they were cared for by pupils during the summer and were returned at the opening of school, in fine condition.

Room 20, Prescott School—

(Wrightwood and Ashland Aves.)

Handsome flower boxes in windows of rooms 20 and 21. The flowers were cared for by the children of the first grade.

Room 1, Sheldon School—

(N. State and Elm Sts.)

All of the windows on the front of the building supplied with carefully kept flower boxes. Each class in the school cared for one or more of these.

Care of Vacant Lots by School Children.

NORTH SIDE.

Lot at 2848 Abbott Court:

Cared for by Grace Lundgren (2824 Abbott Court), Walter Crampton, Harold Dien, Edward Alt and Leona Ferry.

Most Attractive School Grounds.

WEST SIDE.

Austin High School—

Grounds comprising several acres, laid out by a landscape gardener; beautifully planned and kept. Shrubs and flowering plants, beds of flowering plants and flowers, artistically placed, combine to make grounds attractive. Parkways poorly cared for.

Ericsson School—

An attractive entrance of lawn, shrubs, and flower beds, its culminating beauty being a vine-draped arbor over the central walk.

Goethe School—

All available space well handled; flower beds, carefully selected plants, blossoming in profusion; walls covered with vines; grass well shorn; careful, painstaking work.

Irving Park School—

Grounds carefully laid out; shrubs well placed; lawns in fine condition; vines around building; fine old trees in abundance. Garden plot at one end of yard, separated by ornamental gate made by boys in manual training room. Fences covered with vines. Pupils of each grade have planted and cared for one large bed of flowers.

Mayfair School—

An old-fashioned yard, where nature has done more than man in furnishing an abundance of beautiful lilac trees.

Moos School—

Space in front of building utilized; beds bordering entire school yard; evidence of work and interest upon the part of a great many of the children.

Ryerson School—

A narrow strip of ground here has been made to yield a brilliant mass of flowers, where never a flower grew before. Twenty-seven different varieties of plants flourish in soil that was brought by the wheelbarrow load from adjacent prairies, and converted into the one beauty-spot in the neighborhood.

Spry School—

All space especially well planned and decorated; smooth lawn in center; edges outlined by beds of carefully selected foliage, plants and flowers; corners effectively treated with low trees, and masses of shrubs.

Schley School—

The lawn is nicely kept on each side of the building; trailing vines run on the building; six large trees in the lawn; no flowers.

Tilton School—

A well-planned front garden space, according well with general design of building; large, well placed vase. Small shrubs needing but time to become effective.

School Room Window Flower-Box Display.

WEST SIDE.

Rooms 3 and 15, Chalmers School—

Boxes filled with plants beautify some 20 windows and, shining out through the vines that cover the front, produce a happy effect. The school children cared for these boxes during the summer at their own homes and brought them back in September in better condition than in June.

Room 1, Irving Park School—

Beautiful boxes these: Large, filled with effective plants; show excellent taste and efficient care.

Room 18, Schley School—

Boxes of ferns, well cared for; pleasing.

Rooms 6 and 11, Walsh School—

Boxes filled with blooming plants; effect pleasing very creditable effort.

Most Attractive School Grounds.

SOUTH SIDE.

Bass School—

Across the front of the building is a space about 15 feet wide, which has been very artistically laid out and planted. The grouping of the plants is especially worthy of notice. Every blade of grass in the yard seems teeming with life. The window box from the office window is especially beautiful.

Bradwell School—

Splendid specimen of Boston ivy, which covers a large portion of the front of the building. They also have fine trees well under way. In the early part of the season fences on the east and north sides of the playground of the Bradwell School were well covered with vines planted by the children.

Copernicus School—

Has a fine Boston ivy on the front of the building. With the new fence now building, this yard will take its place among the best.

Davis School—

This school has a fine front yard with a southern exposure. The lawn is kept in admirable condition. Two large beds of bright flowers—cannas, etc.—occupy the center of the space on either side of the walk. Vines on the building are in healthy condition. Decoration of front yard is very effective. Entire yard is very large and surrounded with a railed off space, which has been planted by the school children and has been beautifully cared for.

Fiske School—

A space in front of the building, about 75 feet square, has been converted into one of the most tasteful yards on the South Side. Grass, flowers and vines are in fine condition and give evidence of careful attention. The future of this garden promises great things.

Forestville School—

The yard in the south of the building has a beautiful, fresh lawn and shrubs. Many of the windows are decorated with outside flower boxes. At the east of the school is a garden about 100x125 feet. Surrounding this garden is a remarkable collection of very fine shrubs, which are separated from the rest of the yard by concrete coping. Several plats on the west side of the yard contain vegetables and grains, which have been successfully cultivated.

Keth School—

The yard of this school is worthy of note, owing to the difficulties under which the children and teachers have labored to bring about its improvement. The coping for flower beds was made from pieces of brick gathered up and down the streets from refuse. This school yard shows more plainly than almost any other what determination can accomplish under untoward circumstances. Now, late in September, great numbers of bright and beautiful flowers are to be seen.

McCosh School—

Splendid specimens of Boston ivy, which cover a large portion of the front of the building. Also have fine trees well under way.

Moseley School—

Some defect in the soil seems to have baffled the efforts of the gardeners of the Moseley School. Nevertheless, the showing is most creditable. Defects will be remedied another year, although the school is dangerously near the smoke belt. Two or three plantings this year have not discouraged the teachers of this school.

Oakland School—

This school has a well arranged front yard, and the handsome front of the building is enhanced by vines and flowers.

Parkside School—

This school has a fine selection of trees, shrubs and flowering plants. Boston ivy covers the front of the building and the engine house. Every sort of plant seems to thrive in this yard and it has been the pride of the district for many years. The improvement of the grounds began ten or twelve years ago, when Julia McEachren was principal. There have been several principals since her time, but the steadfastness of John J. Curran, the engineer, has crowned all efforts with success. The school yard is the joy of his life.

Ran Branch—

This is a very small garden in front of the building, but every inch of space has been filled with plants and shrubs and all are in perfect condition.

Scott School—

This yard is not as large as some others in this section, but the space has been well utilized. The flower beds on the south

of the building, which have been cared for by the committees of children, are a very attractive feature. The handsome entrance on the east of the building has been made doubly beautiful by climbing vines.

Van Vlissingen School—

The space in front is very narrow, but has been fully utilized. A fine start has been made with Boston ivy, which will eventually cover the whole side of the building. Every window in the basement story has a window box. Playgrounds at each end of the building has a four foot space railed off, with gas pipe on three sides. This space is filled with a fine variety of plants, all in healthy condition. The care of trees has been made a special feature of the gardening of this school.

Ward School—

Space in front neatly sodded. Vines on the building, flower beds on four sides; a creditable effort. Vines and a thrifty and beautiful bed of flowers on playground side of building were destroyed by trespassers during the summer.

STANDING COMMITTEE.

The Chair stated that, in case no objection was made by any member present, it was agreed that the reports of the several Standing Committees be sent to the desk of the Secretary in the order of the committees, as provided for in the regular order of business; that they be read by the Secretary, and in case no objection is made during the reading thereof, that at the conclusion of the reading of the reports of each committee a vote be taken on the acceptance of the reports submitted, and the adoption of the recommendations contained therein as a whole; if during the reading of such reports any objection is made to any report or any part of any report presented, such report or reports objected to shall be passed and the consideration thereof taken up separately.

SCHOOL MANAGEMENT.

Judge Vincent, Acting Chairman of the Committee on School Management, presented reports of the Committee, as follows:

(18871)

Award Certificates.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools recommends that the following named persons, who were successful in the academic examination for certificates to teach in the Chicago public schools, and who have since passed the physical examination required under the rules, be awarded certificates as indicated.

The Superintendent further reports that Elfrida LaFrenier, who was successful in the academic examination for a certificate as teacher of German in elementary schools, under Section 119 of the Rules of the Board of Education, is not required to take the physical examination. The Superintendent therefore recommends that Miss LaFrenier be awarded a certificate."

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools recommends that S. Fay Milner, who was appointed temporarily in Chicago Teachers College during the second semester of last year, (Report No. 17403), be appointed permanently as instructor in Chicago Teachers College; that a Normal School certificate be awarded her; and that her salary be fixed at the lower group, fourth year, \$1,600 per annum, to date from the beginning of her service there—February 2, 1912."

(18875)

Elect Instructor in Art at Chicago Teachers College.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools recommends that Ernst F. Dettner, who was given a certificate to teach in the Chicago Teachers College during the summer term, 1912, be elected instructor in art in Chicago Teachers College at a salary of \$1,500.00 per annum, to date from September, 1912."

(18876)

Elect Supervisor of Technical Work in High Schools, and Supervisor of Elementary Manual Training and Construction Work.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools reports that the supervision of the manual training and technical work in the elementary and high schools is too much for one supervisor, and recommends that Robert M. Smith, the present Supervisor of Manual Training, be made Supervisor of Technical Work in the High Schools; that Edward F. Worst, Superintendent of Schools in Joliet, Illinois, be elected Supervisor of Elementary Manual Training and Construction Work at a salary of \$4,000, the salary he is now receiving in Joliet."

(18877)

Elect Assistant in Department of Child Study.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools reports that an additional assistant is needed in the Department of Child Study, and recommends that Clara Schmitt, who holds a certificate as assistant in the Department of Child Study and Educational Research, be elected to that position at a salary of \$1,700.00 per annum."

(18878)

Elect Assistant to Principal of Parker High School.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

"The Superintendent of Schools recommends that Christine Bednar, teacher in the Parker High School, be elected assistant to the principal of the Parker High School."

(18879)

Pledge for Fraternities and Sororities

The Committee on School Management reports that it is in receipt of the following report from the Committee on Fraternities and Sororities:

Your committee, appointed on June 6, 1912, to consider the subject of the rules of the Board of Education in reference to fraternities and sororities and the pledge to be signed by the pupils in the public schools, would recommend that the present rule be amended by adding thereto the following section:

(Section 176 a. Pledge as to Fraternities.)
It shall be the duty of the principal of a Public High School in Chicago, within ten days after the admission of each person as a pupil in the High School, to cause said pupil to sign, and it is hereby made the duty of each pupil to sign, the following pledge:

Board of Education, City of Chicago.

.....High School.

Pledge of Pupils with Respect to Secret Societies.

Chicago, ..., 191....

I, ..., a pupil in the..... High School, hereby declare that I am not a member of any fraternity, sorority, or other secret society whose membership is comprised, in whole or in part, of pupils of any of the public schools of Chicago. I declare that I am not pledged to or otherwise connected with any such society. I promise that so long as I shall remain a pupil in a public High School of the city of Chicago I will not join any such society, nor will I have any connection whatever with any such society, nor be present at any meeting of any such society in this school or elsewhere.

Division

Signed.....
Pupil.

Address

The penalty for failure of a pupil to sign said pledge shall be suspension from the school for thirty days, which, however, shall not constitute a release of the duty of said pupil to sign said pledge upon re-entry into the school, but said pupil shall be liable to successive suspensions for thirty days each for each failure to sign said pledge.

With this amendment, the rule in question will read as follows:

(Section 176, Secret Societies.)

No pupil in the public schools of Chicago shall be a member of any fraternity, sorority, or secret society in the nature thereof, existing wholly or in part within this public school system, or whose activities work back and have an injurious affect upon the discipline or scholarship within the system. Any pupil who is a member of such organization shall be forthwith suspended, and after three days' notice if said pupil refuses and fails to relinquish membership in any of said organizations he or she shall be expelled.

A secret society is a society whose name, constitution, by-laws, ritual, initiation, membership, qualification for membership, insignia of membership, meetings, activities are, or any one of which is, secret or within the knowledge of the members only or intended to be so.

(Section 176a—Pledge as to Fraternities.)

It shall be the duty of each principal of a public high school in Chicago, within ten days after the admission of each person as a pupil in the high school, to cause said pupil to sign, and it is hereby made the duty of each pupil to sign, the following pledge:

Board of Education, City of Chicago.

.....High School.

Pledge of Pupils With Respect to Secret Societies.

Chicago, ..., 191...

I, ..., a pupil in the High School, hereby declare that I am not a member of any fraternity, sorority, or other secret society whose membership is comprised, in whole or in part, of pupils of any of the public schools of Chicago. I declare that I am not pledged to or otherwise connected with any such society. I promise that so long as I shall remain a pupil in a public high school of the city of Chicago I will not join any such society, nor will I have any connection whatever with any such society, nor be present at any meeting of any such society in this school or elsewhere.

Permit Use of Reader in Swedish Classes.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that it is not desirable at this early date to recommend the adoption of a book to be used in the high school classes in the Swedish language. The Superintendent recommends that for the present permission be given to use the reader "Mina Pojkar," published by the Augustana Book Concern, in connection with the teaching of Swedish. The price of the book is 75 cents.

(18896)

Add Two Periods a Day in Machine Shop of Crane Technical High School.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that owing to the crowded condition of the machine shop at the Crane Technical High School it will be necessary to have it in use for a longer period than five hours if all of the pupils are to be accommodated. The Superintendent therefore recommends that two periods a day be added by opening school at 8:10 a. m., and closing at 3:20 p. m. This will not involve any additional expense for teachers.

(18897)

Hold Examination for Certificates as Teachers of Manual Training, German and in Kindergartens.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools recommends that an examination for certificates as teachers in kindergartens, as teachers of manual training, and as teachers of German in the elementary schools, be held Monday, September 30, and October 1, at Chicago Teachers College and the McKinley High School. The examination for teachers of German will be open to those only who hold certificates to teach in the Chi-

cago public schools. The Superintendent requests that the committee give emergency authority in this matter, as the next Board meeting occurs October 2.

(18898)

Change Name of Farragut High School to Carter H. Harrison Technical High School.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that the high school building to be erected on Marshall Boulevard and Twenty-fourth Street for the high school organization now known as the Farragut High School, because it is in the building of the Farragut elementary school, has been named the Carter H. Harrison Technical High School, and recommends that beginning in September, 1912, the high school organization above referred to, be called the Harrison Technical High School. This recommendation carried into effect will give to graduates of said high school a permanent title for their high school and will also simplify the records in tracing the growth and development of the Carter H. Harrison Technical High School.

(18899)

Grant Use of School Buildings for City Welfare Exhibit.

The Committee on School Management reports that it is in receipt of the following communication from the Woman's City Club of Chicago:

"The Woman's City Club desire to continue their city welfare exhibit in the public schools and request permission to use school buildings for such purpose in the neighborhood where the exhibit is desired, under the conditions granted last year by your Social Center Committee.

"Thanking you for your courtesy of last year, I beg to remain,"

The committee recommends that the request be granted under the same conditions as that granted last year.

(18900)

Permit High School Athletic Clubs to Charge Admission Fee.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools recommends that permission be given the high school athletic clubs to charge an entrance fee of not more than fifteen cents for admission to games played between teams from different high schools in a public school gymnasium.

On motion of Mr. Sonstebj, the admission fee was changed to ten cents instead of fifteen cents.

(18901)

Accept Offer to Supplement Printing Equipment at Walsh School.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that an offer has been received from Mr. Joseph Weissenbach to supplement the printing equipment at the Walsh School by an additional Challenge Gordon 8x12 printing press. The Superintendent recommends that the offer be accepted, and that a letter of thanks be sent to Mr. Weissenbach for this and other generous donations.

(18902)

Place Donation to Flower Technical High School at Disposal of Principal.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools recommends that the \$200.00 presented to the Flower School by Mrs. Lucy L. Flower, be placed at the disposal of the principal of the school, upon condition that within a reasonable time vouchers for expenditures be presented to the Board.

(18903)

Re-adjust Boundaries of Barnard School.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein:

The Superintendent of Schools reports that the opening of the Farson School will necessitate a re-adjustment in the boundaries of the Barnard School. The Superintendent recommends that the boundaries of the Farson and Barnard Schools be fixed as follows:

John Farson School—95th Street and Prospect Avenue.—Beginning at 91st Street and Western Avenue, east to Loomis Street, south to 99th Street, west to Western Avenue, north to 91st Street.

Barnard School—Beginning at 99th Street and Western Avenue, east to Loomis Street, north to 91st Street, east to main line of the C. R. I. P. Ry., southwest to 95th Street, east to Halsted Street, south to 107th Street, west to Western Avenue, north to 99th Street.

*Institute Condemnation Proceedings to Acquire Property—Old Hyde Park
High School Site.*

The Committee on Buildings and Grounds reports that it has received from the Attorney of the Board a communication which states that, in accordance with instructions given him by the Sites Committee and the Committee on Buildings and Grounds, he has endeavored to agree with the owners of property herein described, as to compensation to be paid therefor, for use as a site for school and playground purposes, and that he has been unable to agree with said owners as to such compensation; that the offers made by him to said owners, based upon the actual value of the property involved, have been refused, and that, in his opinion, exorbitant demands are made by the said owners for their respective properties, and that it is impossible to reach an agreement between this Board and said owners, as to the purchase of said respective premises. The property is described as follows:

The west 14.1 feet of Lot three (3) and the east 10.9 feet of Lot four (4), in Bennett's Subdivision of Lots twenty-three (23) and twenty-four (24) in Block sixty-three (63) in Hopkins' Addition to Hyde Park; also the west 24.1 feet of Lot four (4) and all of Lot five (5) in the aforesaid Bennett's Subdivision; also, the west 25 feet of the east 50 feet of Lots thirteen (13), fourteen (14), and fifteen (15) in Block sixty-three (63) in Hopkins' Addition to Hyde Park, a Subdivision of the West half of the North East quarter of Section fourteen (14), Township thirty-eight (38) North, Range Fourteen (14), East of the Third Principal Meridian; also, the West 25 feet of the East 75 feet of the aforesaid Lots thirteen (13), fourteen (14) and fifteen (15), in Block sixty-three (63), in Hopkins' Addition to Hyde Park; also, the east 57 feet of the west 100 feet of the aforesaid Lots thirteen (13) and fourteen (14), in Block sixty-three (63), in Hopkins' Addition to Hyde Park. Said property has a frontage of 85 feet on East 56th Street, by a depth of 100 feet at the southeast corner of Kimbark Avenue, and a frontage of 50 feet on East 57th Street, by a depth of 150 feet, east of Kimbark Avenue, and a frontage of 100 feet on East 57th Street and on Kimbark Avenue, at the

northeast corner thereof, in Chicago, Illinois.

The Committee recommends that the title to said real estate be acquired in accordance with the provisions of Eminent Domain Law, for the use of schools, and that the President and Secretary of the Board of Education be directed to request the concurrence of the City Council in instituting condemnation proceedings in the name of the City of Chicago against the owners of said described property to be acquired in trust for the use of schools.

(18921)

Direct Purchase—Old Hyde Park High School Site.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Attorney of the Board, recommending the direct purchase from Sarah Dutnall, owner of the South half of Lot twenty-two (22), in Block sixty-three (63), in Hopkins' Addition to Hyde Park, a subdivision of the West half of the North East quarter of Section fourteen (14), Township thirty-eight (38) North, Range fourteen (14), East of the Third Principal Meridian, together with the improvements thereon, for the sum of \$7,250.00 exclusive of the improvements, said premises being known as 5613 Kimbark Avenue, having a frontage of 25 feet on said avenue, by a depth of 175.8 feet, to a 24-foot alley, and are improved with a two-story brick and haseament building on the front and a frame cottage on posts in the rear, said purchase to be made upon the condition that the present owner shall remove the improvements now located upon said lot, but that the frame cottage shall not be placed upon the lot across the street from said premises where the present owner intends to move the brick building, and upon the further condition that, in placing said brick building upon the new lot, the same shall be placed not nearer than 25 feet from the street line of said premises, being the line observed by the other buildings on that side of the street.

The Committee has given said recommendation its consideration, and recommends that the Board purchase from said Sarah Dutnall the South half of Lot twenty-two (22), in Block sixty-three (63), in Hopkins' Addition to Hyde Park, a subdivision of the West half of the North East quarter of Section fourteen (14), Township thirty-eight (38) North, Range fourteen (14), East of the Third Principal Meridian, exclusive of the improvements thereon, free and clear of all liens, for the sum of \$7,250.00, all upon condition that the frame building in the rear of said premises shall not be moved to or placed upon the lot on the west side of Kimbark Avenue, whereon the building now on the premises being sold is to be placed, and upon the further condition that said brick building shall be placed on said lot at a distance of at least 25 feet from the street line thereof; all in accordance with the proposal of said Sarah Dutnall, and that the President and Secretary of this Board be directed to request the concurrence of the City Council in the direct purchase of said premises, the same being a part of the old Hyde Park High School Site now being acquired.

(18922)

Notice of Assignment of Leasehold Interest—School Fund Property.

The Committee on Buildings and Grounds reports that it is in receipt of the following communication regarding an assignment made by the Metropolitan Building Company of its leasehold interests in and to Lots four (4), five (5) and six (6), in Block one hundred and forty-two (142), in School Section Addition to Chicago, to Louis M. Stumer, Benjamin J. Rosenthal, Louis Eckstein and LaVerne W. Noyes, and recommends that the same be printed in

the Proceedings of the Board of Education, together with a communication regarding the matter from the Secretary of the Board and a communication from the Attorney of the Board:

Chicago, September 4, 1912.

To the Board of Education of the City of Chicago.

You are hereby notified that the undersigned, The Metropolitan Building Company, by its certain indenture bearing date the 4th day of September, A. D. 1912, assigned, transferred and conveyed to Louis M. Stumer, Benjamin J. Rosenthal, Louis Eckstein and LaVerne W. Noyes, all of the City of Chicago, County of Cook and State of Illinois, in equal shares, all its right, title, interest and leasehold estate in and to Lots four (4), five (5) and six (6), in Block one hundred and forty-two (142), in School Section Addition to Chicago, in the City of Chicago, County of Cook and State of Illinois.

The said leasehold estate was originally created by that certain indenture of lease bearing date the 8th day of May, A. D. 1880, from the Board of Education of the City of Chicago to Thomas Mackin, the terms and provisions of which have been modified, amended and supplemented by indentures supplementary thereto between the Board of Education of the City of Chicago and the holder or holders, from time to time, of said leasehold estate, which said lease and other indentures have heretofore been filed for record in the Record's Office of Cook County, State of Illinois.

And you are further notified that all rents, taxes, assessments and other payments or charges of whatever kind or nature whatsoever by the terms of said lease as modified, amended and supplemented as aforesaid, due and payable at the date of said assignment to the said Louis M. Stumer, Benjamin J. Rosenthal, Louis Eckstein and LaVerne W. Noyes, were fully paid and discharged by said The Metropolitan Building Company, at or prior to the date of such assignment and transfer.

And you are further notified that this notice is given in pursuance of the provision in said lease, so bearing date the 8th day of May, A. D. 1880, contained, that no assignment thereof should be valid or be final or binding or conclusive against said Board of Education of the City of Chicago, until notice in writing thereof should be given to the said Board of Education of the City of Chicago.

Respectfully yours

THE METROPOLITAN BUILDING CO.,

(Signed) *By Louis M. Stumer,*
Its President.

Attest:

(Signed) Louis Eckstein,
Its Secretary.

STATE OF ILLINOIS,
CITY OF CHICAGO,

SS.

I, Eva Whimsett, a Notary Public in and for, and residing in said County, in the State aforesaid, do hereby certify that Louis M. Stumer, who is personally known to me to be the President of The Metropolitan Building Company, a corporation duly organized and existing under and by virtue of the laws of the State of Illinois, and who is personally known to me to be the identical person whose name is subscribed to the foregoing Indenture as such President, and Louis Eckstein who is personally known to me to be the Secretary of said corporation, and who is personally known to me to be the identical person whose name is subscribed to said Indenture as such Secretary, appeared before me this day in person, and severally acknowledged that as such President and Secretary they signed and delivered the said Indentures as President and Secretary of said corporation (and caused the corporate seal of said corporation to be affixed thereto) pursuant to authority given by the Board of Directors and by the stockholders of said corporation, as their free and voluntary act, and as the free and voluntary act and deed of said corporation, for the use and purposes therein set forth.

Given under my hand and official seal, this 4th day of September, A. D. 1912.

Notary Public.

Received the original notice of which the above is a copy this day of September, A. D. 1912.

Board of Education of the
City of Chicago,
By

Sept. 27, 1912.

Mr. Charles O. Sathness, Chairman Committee on Buildings and Grounds.

DEAR SIR:—

I beg to state that the rental of Lots 4, 5 and 6, in Block 142, in School Section Addition, has been paid up to and including the 7th day of November, 1912.

Yours truly,
(Signed) L. E. LARSON,
Secretary.

September 27th, 1912.

Lewis E. Larson, Esq., Secretary of the Board of Education.

DEAR SIR:—

In the matter of the notice to the Board under date of September 4th, 1912, executed by the Metropolitan Building Company, by its President and Secretary, advising the Board of its assignment of all its right, title, interest and leasehold in and to Lots 4, 5 and 6, in Block 142, School Section Addition to Chicago, in the City of Chicago, County of Cook and State of Illinois, to Louis

M. Stumer, Benjamin J. Rosenthal, Louis Eckstein and LaVerne W. Noyes, by instrument dated September 4, 1912, you are advised that I have caused examination to be made as to the payment of special assessments and taxes for the year 1911, covering said premises, and report that all due on or before September 4th, 1912, seem to have been paid and satisfied.

The original lease covering said premises which provides for the form of assignment reads as follows:

"It is expressly covenanted and agreed, by and between the parties hereto, that no assignment hereof shall be valid or be final or binding or conclusive against said party of the first part hereto until all rents, taxes, assessments and other payments or charges of whatever kind or nature soever by the terms of this lease due and payable at the date of such assignment shall be by said party of the second party fully paid and discharged, and until said party of the second part shall notify said party of the first part in writing of such assignment."

The notice of assignment is in the usual form and if all charges are paid, as by the above quoted clause provided, the requirements of the lease as to the assignments would seem to be complied with.

Enclosed herewith are the five (5) documents, being the lease, supplemental leases and notices of assignment covering said premises, and for which I receipted this morning to you. Also enclosed is the notice of assignment under date of the 4th inst. Kindly acknowledge receipt of these, and oblige,

Yours very truly,

(Signed) A. R. SHANNON,
Attorney for the
Board of Education.

Committee on Buildings and Grounds, Board of Education of the City of Chicago.

GENTLEMEN:—

In condemnation proceeding General No. 313,393, of the Circuit Court of Cook County, entitled "City of Chicago, in Trust for the Use of School, vs. A. M. Linden, et al." a trial has been had and verdict rendered.

In this proceeding Lots eighteen (18), nineteen (19), thirty-eight (38) and thirty-nine (39), in Block one (1) of McConnell Brothers' Subdivision of the East half of Block seven (7) of Canal Trustees' Subdivision of the East half of Section twenty-nine (29), Township forty (40) North, Range fourteen (14), East of the Third Principal Meridian, together with the improvements thereon, situated in the City of Chicago, County of Cook and State of Illinois, are condemned. This property is located on George and Wolfram Streets, east of Seminary Avenue, the lots having a frontage of 25 feet each on said streets, by a depth of 124.5 feet, to a 16-foot alley, and comprises the Agassiz School site. The jury awarded the respondents the following sums:

To the owner of and parties interested in Lot 18 aforesaid, together with the improvements thereon, the sum of	\$ 6,750.00
To the owner of and parties interested in Lot 19 aforesaid, together with the improvements thereon, excepting only the frame house in the rear thereof, which is to be retained by the present owner, the sum of....	9,250.00
To the owner of and parties interested in Lots 38 and 39 aforesaid, together with the improvements thereon, the sum of	10,750.00
One Dollar to each of eight tenants, residing on said premises, the sum of	8.00
Costs of suit	6.00
Total	\$26,764.00

This verdict is, in our opinion, just and reasonable, and we request that your Committee recommend to the Board of Education the issuance of a proper warrant in the sum of \$26,764.00, payable to the

County Treasurer of Cook County, for the use of the respondents in the case. Upon the payment of the said amount to the County Treasurer, a good title to the above described property will vest in the City of Chicago, in trust for the use of schools, for the uses and purposes set forth in the petition filed in said cause.

Accompanying this report is a blue print of the survey of the property in question.

Respectfully submitted,
(Signed) A. R. SHANNON,

Attorney, Board of Education.

*Forfeit Deposit and Award Contract—
Painting, etc.—Moseley School.*

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that John T. Driscoll, lowest bidder for painting calcimining and varnishing at the Moseley School building, Michigan Ave-

nue and 24th Street, in the sum of \$1,787.00, states that he has made an error in his bid and declines to execute contract for said work, and recommending that Mr. Driscoll be released from said contract and that his deposit in the sum of \$89.35 be declared forfeited and that the contract be awarded to the second lowest bidder, J. P. Sullivan, in the sum of \$2,744.00.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary.

(18931)

*Appointment of Committee to Consider Use
of Assembly Halls—Deferred
Temporarily.*

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the President of the Board submitting a letter from His Honor, the Mayor, Carter H. Harrison, with reference to the use of assembly halls in school buildings for political meetings and recommending that a Committee of three be appointed who shall have the matter in charge, formulating plans, fixing rentals, making rules and regulations governing the occupancy of the halls for political purposes and for report at the end of three months with a view to abandoning the idea or continuing the use of assembly halls for general public purposes.

The Committee recommends concurrence by the Board in the above suggestions of the President and further recommends that President McFatrigh, Mr. Kelly and Mr. Reinberg be appointed as the Committee for the consideration of the matter.

The following is a copy of the correspondence referred to:

September 27, 1912.

*Mr. Charles O. Sethness, Chairman Com-
mittee on Buildings and Grounds.*

DEAR SIR:—

I submit herewith a communication from his honor the Mayor, Carter H. Harrison, with reference to using our assembly halls for political meetings. I would respectfully recommend that a committee of three be appointed, who shall have this matter in charge, formulating plans, fixing rentals, making rules and regulations governing the occupancy of halls for political purposes. In my opinion, we can, during the next three months make a practical demonstration of the suggestion and at the end of that time a report could be submitted by the committee with a view of abandoning the idea or continuing the use of our assembly halls for general public purposes.

Yours very truly,

(Signed) J. B. MCFATRIGH,
President.

Chicago, September 26, 1912.

*Dr. J. B. McFatrigh, President Board of
Education.*

DEAR SIR:—

I transmit herewith a communication from a committee of the Progressive National Committee suggesting that the public schools be opened to political meetings.

I am sending it to you in order that it may be presented to the Board of Education for consideration.

Yours very truly,

(Signed) CARTER H. HARRISON.
Mayor.

Chicago, Sept. 20, 1912.

*Hon. Carter H. Harrison, Mayor, City of
Chicago, Chicago, Ill.*

SIR:—

The present presidential campaign is a campaign of education, as indeed, all campaigns should be. For us, who are engaged in presenting the Progressive program, it is a campaign of discussion, restricted to be sure, by our inability to hire many halls, owing to our lack of campaign funds.

We believe that, in a democracy, and especially at this time, the political education of the people is a matter of such supreme importance, that it is the duty and should be the pleasure, both of your honor and your appointees on the school board, to open to the use of the parents, the very schools which, by their taxes, they have built for their children.

The schools of Chicago are so built, and so situated that, under reasonable restrictions they may be used to the greatest possible advantage for neighborhood political meetings. This is the practice in many country districts, throughout the Union, where the lack of suitable buildings, or the comparative poverty of campaign committees has made the schools the only places available for public meetings. If Chicago shall be the first large city in which the schools are used for the education of the parent as well as of the child, the administration and the citizens of this city will have rendered a great service to the whole country.

We trust that we may receive a favorable reply to our request, and have taken the liberty of forwarding copies of this letter to the managers of the campaigns of other parties, in the hope that they may join us in our effort to secure your consent to the use of the schools for political education.

Very truly yours,

(Signed) MEDILL McCORMICK,
(Signed) CHAUNCEY DEWEY,
(Signed) HAROLD ICKES.

On motion of Mr. Union, action on this report was deferred temporarily.

*Appropriation for—Construction of—Frank
W. Reilly School Building.*

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that the Superintendent of Schools has recommended the erection of a new school building on the site owned by the Board at School Street and Monticello Avenue, to contain 24 class rooms, assembly hall, gymnasium, manual training room and household arts room, this school building to be known as the Frank W. Reilly School, in accordance with Board action of September 18th, 1912, and recommending that an appropriation of \$175,000 be made for this school building, and that the President and Secretary be directed to request the concurrence of the City Council in this action.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18934)

Alterations—Carpentry—Emmet School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that at the Emmet School, Madison Street and Pine Avenue, it is found necessary to put in temporary partitions between old building and the new building now in process of construction and also to change partitions in old building, and that Charles E. Barquist, contractor for carpenter work at this building, has submitted a proposition to do the above work for the sum of \$89.00; that this has been carefully checked and found reasonable, and recommending that the same be accepted and the work ordered done.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18935)

Additional Masonry Work—Irving School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that at the Irving School, Lexington Street and Hoyne Avenue, it is necessary to build walls around blast chamber, and that George Thomson & Son Company, contractors for masonry at this building, have submitted a proposition to do this work for the sum of \$200.00, that this has been carefully checked and found reasonable, and recommending that same be accepted and the work ordered done.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18936)

*Additional Carpenter Work—New Hyde
Park High School.*

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that at the new Hyde Park High School, 62nd Street and Stony Island Avenue, it was deemed necessary to change the detail of large semi-circular sashes in the lunch room by increasing the size of muntin bars; also that one additional pair of doors in southeast entrance, main floor, and one door in the third floor leading to exhaust chamber, are necessary; that Hanson Bros., contractors for carpenter work at this school, have submitted estimate for the above work in the sum of \$92.50, that this price has been carefully checked and found reasonable, and recommending that the same be accepted and added to the contract price.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18937)

*Alterations—Put in Outside Door to Boys'
Toilet Room, etc.—Kenwood School.*

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that at the Kenwood School, 50th Street and Lake Avenue, it is found advisable to put in an additional outside door to boys' toilet room, also partitions in the basement to corridor of old building, and that bids on this work have been received from contractors, as follows:

Herman Reininga, carpenter contractor—
Carpenter work, painting and hardware \$116.00
Paschen Bros., mason contractors—
Mason work, cement steps, etc... 65.00

and further stating that the above bids have been carefully checked and found reasonable, and recommending that the same be accepted and the work ordered done.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18938)

*Additional Work—Pent House Enclosure
Around Blower, etc.—Nicholas Senn
High School and New Hyde Park
High School.*

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that in accordance with instructions from said Committee, bids have been received on pent house enclosure around blower, etc., in connection with induced draft for the Nicholas Senn High School, Southport Avenue and Francis Street, as follows:

Vierling Steel Work—

Structural iron work, including additional intels in chimney...\$623.00

C. E. Barquist & Co.—

Carpenter work 66.00

The Illinois Terra Cotta Lumber Co.

Fireproofing 222.00

John Peter—

Sheet metal work 125.00

and further stating that bids have also been received on similar work at the new Hyde Park High School, 62nd Street and Stony Island Avenue, as follows:

A. & E. Anderson—

Mason work\$540.00

Kitzelman & Dilley—

Sheet metal work 145.00

The Illinois Terra Cotta Lumber Co.—

Fireproofing 333.00

Hanson Bros.—

Carpenter work 97.50

further, that the above items have been carefully checked and found reasonable, and recommending that these bids be accepted and the work ordered done.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18939)

Voucher—Special Sheet Metal Work—New Hyde Park High School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that Kitzelman & Dilley, contractors for sheet metal work on the new Hyde Park High School building, 62nd Street and Stony Island Avenue, have made application for special voucher in the sum of \$1,200.00 on their contract, that this payment, if granted, will make the total payments on the contract exceed 85 per cent of the amount of work done; that they have filed the customary affidavit and the approval of the bonding company on the payment requested, and recommending that authority be granted to issue special voucher in the sum of \$1,200.00 to Kitzelman & Dilley on the sheet metal contract of the Hyde Park High School building, the amount then retained being amply sufficient to complete the work yet to be done.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18940)

Contract—Award to Second Lowest Bidder—Painting and Finishing Work—Addition to the Seward School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that bids were opened by the subcommittee on September 11th, 1912, for painting and finishing work in connection with the addition to the Seward School,

46th Street and Hermitage Avenue; that the lowest bidder on this work was Joseph C. Carrier, in the sum of \$998.00, and recommending, that inasmuch as work done by J. C. Carrier & Company under contracts with the Board of Education was so unsatisfactory that their contracts were cancelled and a judgment in the sum of \$500.00 obtained by the Board of Education against them, and said judgment never having been satisfied by Carrier & Company, that the contract for painting and finishing of the Seward School addition be awarded to the second lowest bidder, M. Hultsch Company, in the sum of \$1,118.00.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18941)

Contract—Forfeit Deposit—Award to Lowest Bidder—Plumbing and Gas Fitting Work—Seward School Addition.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that a communication has been received from C. H. Law, who was awarded contract for plumbing and gas fitting for the Seward School Addition, Hermitage avenue and Forty-sixth street, by the Board of Education on September 18, 1912 (report No. 18832), stating that he cannot execute this work on account of an error in his bid, and recommending that the deposit submitted by C. H. Law covering his bid on the above-mentioned work be declared forfeited, and that contract for this work be awarded to the second lowest bidder, the American Heating & Plumbing Corporation, in the sum of \$9,681.00.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18942)

Contract—Award of—Electric Wiring—Warren School Gymnasium Addition.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that in connection with the construction of the gymnasium addition to the Warren School, Central avenue and Ninety-second street, bids on electric wiring were received, and recommending that contract for this work be awarded to A. R. Ingraham, in the sum of \$200.00, he being the lowest bidder on same.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(18943)

Telephone—Install—Office of Bureau of Architecture.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stat-

ing that additional telephone facilities are needed in the general office of the Bureau of Architecture, and recommending that authority be granted to install an additional extension telephone in the above-mentioned office, at a cost of \$6.00 per year.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

Your Committee further reports that tie bids were received from B. E. Lynam and John Delehant in the sum of \$40.00 on the Brownell School, Perry avenue and 65th street, and from Jos. D. Martin and B. E. Lynam in the sum of \$128.00 on the Bowen High School, Eighty-ninth street and Manistee avenue, which on the toss of a coin was awarded as follows:

B. E. Lynam—

Brownell High School,
Bowen High School,

and your Committee asks concurrence in the action taken.

(18946)

Contract—Award of—Gas Lighting Facilities—Sundry Schools.

Your Committee on Buildings and Grounds reports that in order to have lighting facilities available at the Henry School Building, Eberly and West Cullom avenues, and at the Seward School Building, Forty-Sixth street and Hermitage avenue, when the same are opened for the reception of evening school classes, bids were received for the installation of gas fixtures and extension of gas pipes and contract awarded to R. Kapsa, he being the lowest bidder, as follows:

Henry School\$147.00

Seward School 52.10

—\$199.10

and your Committee asks concurrence in the action taken.

(18947)

Contract—Award of—Water Pump Regulator—Libby School.

Your Committee on Building and Grounds reports that the electric pump installed at the Libby School Building, Loomis and Fifty-third streets, to provide adequate water facilities, is in need of new governor to replace defective one, for which specifications have been prepared and bids received, and recommends award of contract to the Chicago Pump Company for the installation of one Sundh Pressure Regulator Switch in the sum of \$52.50, it being the lowest bidder.

(18948)

Contract—Award of—Plumbing—Domestic Science Room—Agassiz School.

Your Committee on Building and Grounds reports that it is desired to have a small table at the Agassiz School Building, Seminary avenue, near Wolfram street, connected for use in connection with the Domestic Science Department, it being understood that the standard equipment be utilized therefor, for which bids have been received, and recommends award of contract to Nilson Bros. in the sum of \$22.00, it being the lowest bidder.

(18949)

Contract—Award of—Steam Heating in Connection With Induced Draft—Hyde Park High School.

Your Committee on Building and Grounds reports that it has received from Hanley-Casey Company, the original contractor for steam heating at the new Hyde Park High School, Sixty-second street and Stoney Island avenue, proposition in the sum of \$360.00 for furnishing all labor and material necessary for the extension of steam-fitting required for induced draft apparatus, which proposition has been checked and found to be reasonable, and your Committee recommends its acceptance.

(18950)

Electric Service—Award Contract—Stage Footlights—Davis School.

Your Committee on Building and Grounds reports that it is desired to place lighting facilities on the stage at the Davis School Building, Thirty-ninth place and Sacramento avenue, which will comply with the City Electrical Inspection requirements for which specifications have been prepared and bid received from the Chicago Stage Lighting Company for footlights in the sum of \$48.90, delivery to be made by the Board of Education; and from the Peerless Electric Company in the sum of \$52.00 for essential wiring, this contractor being at present engaged on other electric work at this building. Both of these propositions have been checked and found to be reasonable, and your Committee recommends their acceptance.

(18951)

Electric Service—Award of Contract—Illuminating Facilities—Sundry Schools.

Your Committee on Building and Grounds reports that it has prepared specifications for electric fixtures and extension of wiring to provide adequate illuminating facilities as recommended in Board Reports Nos. 17475 and 17878. At the same time specifications were prepared for similar facilities for additions and new buildings, and your Committee recommends award of contract to the lowest bidder in each instance as follows:

SIDLEY-MITCHELL COMPANY.

Kenwood School, Lake Ave.
and 50th St.....\$340.00
H. A. FRAMBURG & CO.
Carter School, 61st St. and

Nohel School, Hirsch St. and 41st Ave.	810.92
Ryder School, Lowell Ave. and 89th St.	299.49
	\$9886.07

Your Committee further reports that in the instance of the Marshall High School Building there is but a slight difference between the price of the specification requirements and Nubolux glassware and inasmuch as it is desired to install Nubolux fixtures your Committee recommends the price for Nubolux fixtures be accepted, H. A. Framburg & Co. being the lowest bidder on each class of glassware.

(18952)

Electric Service—Extend Electric Wiring to Ryerson School.

Your Committee on Buildings and Grounds reports that it has received from the Commonwealth Edison Company proposition in the sum of \$42.00 for the extension of electric service to operate 20 h. p. 3-phase motor at the Ryerson School Building, Lawndale avenue and Huron street, and recommends its acceptance with the understanding that payment therefor is to be made as provided in contract now in force which stipulates that the cost of the current consumed for a period of two years shall apply towards the cost of the extension.

(18953)

Voucher—Issue Extra—Plumbing and Gas Fitting—Hyde Park High School.

Your Committee on Buildings and Grounds reports that it has received sundry bills from Hanley-Casey Company, contractor for plumbing and gas fitting at the new Hyde Park High School Building, Sixty-second and Stoney Island avenue, as follows:

Extend gas to teachers toilet.	\$33.87
To installing hot water in instruction table in first year science room	8.40
Extending hot water to instruction table in physiological room	13.14
	\$55.41

Your Committee reports that these are extras, the same being found necessary subsequent to the preparation of the original specifications and occasioned by alterations therefrom. The bills have been checked and found to be reasonable and your Committee recommends that they be added to the original contract price at this building.

(18954)

Request Granted—Electric Poles—Installation of—Nettelhorst School.

Your Committee on Buildings and Grounds reports that it has received request from the Commonwealth Edison Company for permission to erect three 40 ft. 7 in. poles, with right of access to same for the maintenance thereof, on Board of Education property west of Evanston avenue between Aldine avenue and Melrose street, and to string thereon three No. 6 wires of 2300 volts to provide electric service to the Nettelhorst School Building, Evanston and Aldine avenues, and recommends that permission be granted in this instance with the understanding that the poles be removed upon thirty days' notice without cost to the Board of Education.

(18955)

Office and Business Employees.

Adjust Salaries of Engineers at Buildings Where Summer School Sessions were Conducted.

Your Committee on Buildings and Grounds reports that it has received communication from the Secretary with reference to adjusting salaries of engineers at buildings where summer school sessions were conducted, and recommends concurrence in his suggestions as follows:

I have received requests from the operating engineers at the various school buildings where summer sessions were held for the period of five weeks, asking that compensation be allowed for the additional labor involved. In this connection I wish to inform you that the compensation schedule of the operating engineers is based on the square foot measurement of the building, but no mention is made therein with reference to the care of the building where extra sessions of the character mentioned are conducted. For the further information of your Committee, I wish to state that the same standard of work is required in these buildings as is given during the regular scheduled term of school, and in many instances the rooms utilized are scattered in all sections of the building, necessitating the cleaning of the entire building each day. This work requires extra help. During the present year sessions were conducted in the schools enumerated below, and I recommend that the operating engineers be allowed compensation as follows:

ENGLEWOOD HIGH SCHOOL.

Engineer's services	\$75.00
Sweeping 18 rooms at 10c.,	
25 days	45.00
	\$120.00

PHILLIPS HIGH SCHOOL.

Engineer's services	\$75.00
Sweeping 18 rooms at 10c.,	
25 days	45.00
	\$120.00

LANE TECHNICAL HIGH SCHOOL.

Engineer's services	\$75.00
Sweeping 19 rooms at 10c.,	
25 days	47.50
	\$122.50

CRANE TECHNICAL HIGH.

Engineer's services\$75.00
 Janitor's own figures, 25
 days 30.00
 \$105.00

In the case of the Phillips High School, similar sessions were conducted during the summer vacation of 1911, for which compensation was not allowed, and therefore recommend that voucher covering the two years be allowed this engineer on the above basis.

Electric Service—Award Contract—Motor—Nettelhorst School.

Your Committee on Buildings and Grounds reports that the Emmons Electric Company submits proposition in the sum of \$354.00 for the installation of one 5 h. p. single phase Wagner or General Electric 220-volt, 60 cycle, 1200 R. P. M. Motor, wired complete to operate assembly hall fan at the Nettelhorst School Building, Evanston and Aldine avenues, ready for pulley and belt- ing to be put on by others. Your Committee advises that this work was omitted from the original specifications on this building, but the price in question has been checked and found to be reasonable, and inasmuch as the Emmons Electric Company are the original contractors doing work at this building at the present time, recommends that its proposition be accepted.

Direct Purchase, Yeaton Street New Site.

Your Committee on Buildings and Grounds reports that it is in receipt of a communication from the Attorney for the Board, recommending the direct purchase from J. Lubin, the owner of Lots four (4) and five (5) in Calpin's Yeaton Street Re-subdivision of Lots ninety-three (93) to one hundred and one (101) in Block six (6) of Codwise's Subdivision of Lots five (5), six (6) and seven (7) in the West half of the South East quarter of Section eighteen (18), Township thirty-nine (39) North, Range fourteen (14), East of the Third Principal Meridian, in Cook County, Illinois, together with the improvements thereon, for the sum of Five Thousand Dollars (\$5,000.00), said premises being known as 1810 and 1812 Yeaton Street, having a frontage of 39 and a fraction feet on said street, by a depth of 101 plus feet, extending to a 16-foot alley, and are improved with a two story double frame building, said purchase to be subject to the taxes for the year 1911.

Your Committee has given said recommendation its consideration and recommends that the Board purchase from said J. Lubin, the premises known as Lots (4) and five (5) in Thomas Calpin's Yeaton Street Re-subdivision of Lots ninety-three (93) to one hundred and one (101) in Block six (6) in Cod-wises' Subdivision of Lots five (5), six (6) and seven (7) in the West half of the South East quarter of Section eighteen (18), Township thirty-nine (39) North, Range fourteen (14), East of the Third Principal Meridian, together with the improvements thereon, in Cook County, Illinois, free and clear of all liens, excepting the taxes for the year 1911, for the sum of Five Thousand Dollars (\$5,000.00) in accordance with the proposal of said J. Lubin, under date of October 2, 1912, and that the President and Secretary of this Board be directed to request the concurrence of the City Council in the direct purchase of said premises, the same be-

ing apart of the new Yeaton Street School Site.

No objections having been made to any of the recommendations contained in the several reports submitted, on motion of Mr. Sethness the reports were received and the recommendations contained therein were adopted, such adoption being declared to have been the action of the Board on each individual recommendation.

YEAS. Messrs. Cameron, Urion, Greifenhagen, Dr. Guerin, Messrs. Sears, Vincent, Lipsky, Harding, Mrs. MacMahon, Messrs. Huttman, Dibelka, Sethness, Sonstebly, Erikson, Rothmann and Reinberg. 16.

*Transfer Appropriation to the
Teachers' Pension Fund.*

Your Committee on Finance respectfully reports that it is in receipt of the following communication from the Secretary of the Board.

"On February 7th, 1912, page 641 of the Proceedings, the Board of Education made an appropriation of \$50,000 to the Teachers' Pension Fund. No payment under this appropriation has been made to said fund. I respectfully recommend that a warrant in the sum of \$25,000 be drawn in favor of the Public School Teachers' Pension and Retirement Fund as a partial payment under said appropriation."

Your Committee further reports that it has carefully considered this matter, and recommends concurrence in the above recommendation of the Secretary.

(18965)

*Increase Salary of Principal of Normal
School and of Assistant Superintendent of Schools.*

The Committee on Finance reports that it is in receipt of the following report from the Superintendent of Schools and recommends concurrence therein.

The Superintendent of Schools reports that the salary of the principal of the Chicago Normal School has until very recently been midway between that of the First Assistant Superinten-

dent and that of the District Superintendents.

The Superintendent further reports that the salary of William M. Roberts, Assistant Superintendent of Schools, was on the same schedule with the District Superintendents before the change of schedule Wednesday, September 18.

The Superintendent recommends that the salary of the principal of the Normal School be placed at \$5,500.00, and that of William M. Roberts at \$5,000.00, to date from January, 1912.

No objections having been made to any of the recommendations contained in the several reports submitted, the reports were received and the recommendations contained therein were adopted, such adoption being declared to have been the action of the Board on each individual recommendation.

Election of Trustees on the Pension Board.

The Secretary presented the following communication from the President of the Board:

Chicago, October 16, 1912.

To the Members of the Board of Education:

Under the provisions of the Teachers' Pension Law, the Board of Education is required to elect annually in October two of its members to serve as trustees of the Teachers' Pension Fund. I respectfully recommend that Mr. Alfred R. Union and Mr.

Peter Reinberg be elected as trustees of the Teachers' Pension Fund for the ensuing year.

Yours truly,

(Signed) J. B. MCFATRICH,

President.

On motion of Mr. Kelley the action of the President was concurred in.

Grant Use of Assembly Hall in Washington School.

A communication was presented from Alderman S. S. Walkowiak, as follows:

Chicago, Oct. 16, 1912.

To The Board of Education, Chicago, Ill.

GENTLEMEN:

The young ladies society of St. Stephen's Parish residing in our ward have requested us to petition your honorable body for permission to use Washington School Assembly Hall on Friday, Oct. 25th, the entertainment to commence at 8:00 p. m. We are informed that there is no night school on that evening, and inasmuch as the proceeds of the entertainment are for the benefit of the Parish and church, and the cause is a worthy one, we would respectfully ask your kind indulgence and courtesy in the matter.

Sincerely hoping that you will be able to grant the request, we beg to remain,

Respectfully yours,

(Signed) STANLEY S. WALKOWIAK,

L. D. SITTS,

Aldermen 17th Ward.

Dean Sumner moved that the request be granted under the usual terms and conditions.

Seconded by Mr. Sethness and so ordered by the following roll call:

Yeas—Messrs. Cameron, Urlon, Dr. Guerin, Dean Sumner, Judge Sears, Messrs. Lipsky, Huttman, Dibelka, Pfaelzer, Sethness, Reinberg, Sonstebly, Kelly and Dr. McPatrick. 14.

Resolution for Report on Construction of School and Dormitory for Deaf and Dumb Children.

Mr. Dibelka presented the following resolution:

Whereas, there are at the present time several hundred deaf and dumb children attending our different schools scattered throughout the city,

And Whereas, it has come to my knowledge that instruction and care of these children is conducted under greater difficulties,

And Whereas, most of these children come from families of limited financial circumstances thereby making it impossible to send them to more suitable institutions,

Therefore, Be It Resolved, that the Su-

perintendent report to this board on the advisability of constructing a separate school and dormitory for these unfortunate where they all may be given special attention at least five days during the week under competent guardianship.

Mr. Dibelka moved the adoption of the resolution;

Seconded by Mr. Kelly and so ordered.

(18965-F)

Resolution for Report on Necessity for Agricultural School.

Mr. Dibelka presented the following resolution:

Whereas, the Board of Education is the owner of a large tract of land located in the city limits and of easy access from all parts of the city, and

Whereas, this land is admirably adapted for agricultural experiments,

Now, Therefore, Be It Resolved, that the Superintendent is hereby instructed to ascertain through her various officers if there exists a real demand for an agricultural school in this city and report her findings to the proper committee of this board for further action at the earliest possible time.

Mr. Sonstebly moved that the resolution be referred to Committee on School Management.

Seconded by Mr. Urlon and so ordered.

STANDING COMMITTEES.

The Chair stated that, in case no objection was made by any member present, it was agreed that the reports of the several Standing Committees be sent to the desk of the Secretary in the order of the committees, as provided for in the regular order of business; that they be read by the Secretary, and in case no objection is made during the reading thereof, that at the conclusion of the reading of the reports of each committee a vote be taken on the acceptance of the reports submitted, and the adoption of the recommendations contained therein as a whole; if during the reading of such reports any objection is made to any report or any part of any report presented, such report or reports objected to shall be passed and the consideration thereof taken up separately.

SCHOOL MANAGEMENT.

Dean Sumner, Chairman of the Committee on School Management, presented reports of the Committee, as follows:

(18966)

Award Certificates.

The Committee on School Management reports that it is in receipt of the following report from the Superintendent of Schools, and recommends concurrence therein.

The Superintendent of Schools recommends that the persons named on the appended list, who were successful in the academic examination for certificates to teach in the Chicago public schools, and who have since passed the physical examination required under the rules, be awarded certificates as indicated.

The Superintendent further reports that the following named persons, who were successful in the academic examination for certificates to teach in the Chicago public schools, under Section 119 of the Rules of the Board of Education, are not required to take the physical examination. The Superintendent therefore recommends that they be awarded certificates as indicated.

Rent Rooms—Howland School District.

The Committee on Buildings and Grounds reports that July 24, 1912, the Board authorized the renting of four rooms for the relief of the Howland School district (see Report No. 18544). Since the above date

it is found that these quarters are inadequate, and the Superintendents of Schools recommends the renting of ten rooms in the Marks Nathan Jewish Orphan Asylum for school purposes, nine rooms to be fitted for class rooms, and one room fitted for play-room use, and that said rooms be designated the Albany Avenue Branch of the Howland School.

The Committee recommends approval of a lease of ten rooms in the Marks Nathan Jewish Orphan Asylum, five rooms on the second floor and five rooms on the third floor of the south wing of the building, for a period of one year from the date of the signing of such lease, at a rental of Fifty Dollars (\$50) a room, a month, with the option of renewal of the lease for one year; heat, light, and water furnished by the lessors; janitor service to be supplied by the Board of Education, in accordance with the proposal of the officers of said Asylum.

The Committee further recommends that upon the execution of the lease, said rooms be made ready for school use at once, and that they be known as the Albany Avenue Branch of the Howland School.

(19029)

Horses—Sale and Purchase.

The Committee on Buildings and Grounds reports that it has received from the Secretary a communication recommending the sale of three unserviceable horses, and the purchase of four horses at a cost not to exceed \$275 each.

The Committee recommends concurrence in the recommendations of the Secretary.

(19030)

Repairs and Improvements—Edison Park School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that the Superintendent of Schools has requested the fitting up of additional rooms in the Edison Park School and recommending that authority be granted for doing the necessary work at said building at an estimated cost of \$4,300.00 for the portion of the work to be done under the direction of the Bureau of Repairs and \$540.00 for the portion of the work coming under the jurisdiction of the Bureau of School Engineering.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary.

(19031)

Appropriation—Additional—Normal Arts and Gymnasium Building.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that an additional appropriation for the Normal Arts and Gymnasium Building for the Chicago Teachers' College, 68th St. and Stewart Avenue, will be required to com-

plete the building and install laboratory fittings, machinery and other equipment, and recommending that an additional appropriation of \$100,000 be made for this building, and that the President and Secretary of the Board be instructed to request concurrence of the City Council in this action.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.

(19032)

Additional Masonry—George Howland School.

The Committee on Buildings and Grounds reports that it is in receipt of a communication from the Secretary of the Board stating that at the George Howland School, Spaulding Avenue and 16th Street, it was found necessary to raise roof plates and build brick walls up under same, for which W. G. Carter Company, contractor for masonry at this school, has submitted bill in the sum of \$50.00; that this has been carefully checked and found reasonable, and recommending that same be accepted and added to the contract price.

The Committee recommends concurrence by the Board in the above suggestions of the Secretary of the Board.
